HOUSE OF COMMONS.

RALEIGH, Feb. 9. The House was called to order at 101

o'clock A. M. Mr. Blythe presented a petition from citi zens of Henderson county, asking relief against the collection of debts. Referred. REPORTS OF COMMITTEES.

Mr. Waugh, for the Committee on Propositions and Grievances, reported back, fa vorably, a bill to lay off and establish a new county by the name of Vance-to be formed of portions of Cherokee and Macon counties; also a bill to protect the fishing interest on the coast of North Carolina, in response to the prayer of memorialists from Onslow county.

RESOLUTIONS AND BILLS. By Mr. Hodnett, a resolution to raise a

Joint Committee on sine die adjournment. Adopted. By Mr. Granberry, a resolution on the con dition of the people-adverse to present taxation for the payment of interest on the public debt. (This resolution was adopted, GENT'S FURNISHING GOOD: but subsequently, on motion of Mr. Wil iams, of Pitt, the vote was reconsidered, and then on motion of Mr. Cowan, the resolution was referred to the Committee on Finance, with instructions that they report on Tues-

> By Mr. Clark, a bill to incorporate the town of Ecotland Neck, Halifax county. By Mr. McClammy, a bill to incorporate Rocky Mount Academy, New Hanover

An engrossed bill to change the jurisdiction of the Courts and the rules of pleading therein, had its first reading.

Mr. Dargan moved a suspension of the rules, that the bill might have immediate consideration.

Mr. Russ opposed a suspension of the rules. He was a friend of relief, but wanted time to examine the bill. It evidently needed amendment subjecting, ultimately, the property of debtors to the payment of ereditors.

Mr. Dargan earnestly urged the necessity of immediate action. Ample time had been had for perfecting measures of relief. Nothing had yet been done, and the people were clamorous. We had all heard of the outrages committed in Pitt county recently—the stop-page of the Sheriff on the highway, and the forcible seizure of his official papers, etc. If relief is not granted such scenes would be re enacted. The county court of Harnett would commence its session on Monday next,

and the passage of the bill to day would afford relief for many.

Messrs. Hutchison and McNair opposed hasty action in the premises, and desired further time for examination of the bill.

Mr. Moore of Hertford endorsed the views of the gentleman from Anson (Mr. Dargan) and hoped the rules would be su-pended.

Mr. Williams, of Pitt, adverting to recent occurrences in Pitt county, (alluded to by Mr. Dargan) asserted that his constituents were loyal and law-abiding. The statements made by the gentleman from Anson, were unjust to his people. They were not revolutionary. The facts were simply these. The Sheriff was met on the highway and rubbed. His office at Greenville had been subsequently robbed-not the Courthouse, as errone ously stated by the newspapers of this city especially.

Mr. Dargan disclaimed any design to re-GEO. KIDD'S (ELEBRATED reflect injuriously upon the citizens of Pat county. His remarks had been based upon newsmper statements that had not been contradicted. Mr. Wilson, of Perquimans, opposed post-

ponement and asked for the Yeas and Nays He favored the immediate passage of the bill. The rules were suspended. Yeas 81

The bill was read the second time. Mr Peebles offered the following amendment as an additional sec ion: "Be it further enacted, Toat no deed of trust or morted, or registered during the next twelve Bil to incorporate the Agricultural and months, succeeding the ratification of this act, shall be valid at law to pass any property as against creditors, or purchasers for a valuable consideration from the donor, bar

gainor or mortgagor." Mr. McNair moved that the bill be printed and made the special order for Toursday next, at 12 o'clock, M.

Justices of the Peace, and now in the hands | SAM'L. N. CANNON. A message was received from the House of constables. Relief was needed in this embraced in the bill.

Mr. Waugh entertained like views with regard to small judgments in the hands of constables. His constituents needed relief from these more than all others. If these proposing to raise a joint select committee cases were not provided for he would vote against the bill, through a friend of relief. Mr. Dargan stated that the provisions of the bill extended ample relief in this in-

stance. The motion to postpone was rejected, yeas 25, navs 72. The question recurring on the amendment

offered by Mr. Peebles. Mr. Waugh opposed the amendment and all amendment. Mr. Peebles deprecated the disposition evinced by friends of the bill to prevent amendment. Every stay law stood, he said, by the suffrance of creditors, and their rights should not be left wholly without protection the premises, adding, that, should be the suffrance of creditors, and their rights in the premises, adding, that, should be the suffrance of creditors, and their rights in the premises, adding, that, should be the suffrance of creditors, and their rights in the premise of creditors, and their rights in the suffrance of creditors, and their rights in the premise of creditors, and their rights in the premise of creditors. bill pass without amendment, appeal after

and every barrier to the collection of debts would be swept away. Mr. Whitfield favored the bill and opposed

the amendment. Mr. Perry, of Carteret, was opposed to the bill as it stood. The Senate had stricken out the provision requiring debtors to make oath at the Spring Term, that they could not raise the tenth required by the existing Stay Law, without a ruinous sacrifice of property. With this provision he could have supported the bill. The bill as it stood was anke regardless of the rights of creditors and the

obligation of debtors. Mr. Baker was in favor of relief to debtors but unwilling to ignore the rights of creditors. He feared the relief proposed by this bill would prove a delusion and a snare.

The question recurring the amendment was rejected, yeas 31, nays 65. The following amendment offered by Mr.

Bryson was adopted: Provided, That executions on Justices judgments granted on debts contracted prior to May 1st, 1865, acready rendered shall be stayed for twelve months from the date of the ratification of this act.

Mr. Hutchison offered the following amendment: "Be it further enacted that nothing in this act shall be construed to prevent Guardians collecting one tenth of claims due their wards, at Spring term, 1867. according to the provisions of the late ordinance, to change the jurisdiction of the

Mr. Hutchison said that he favored relief, Mr. Perry, of Carteret, and thought that some protection should be accorded to cred- ammonia they contain.

The amendment was rejected. Mr. Crawford, of Rowan, offered the fol-

owing amendment: "Be it further enacted, that all writs in actions on contracts made before the 1st day of May, 1865, shall constitute a lien upon the defendant, but after said judgment, property shall be applied pro rata, without regard to priority, in the date of the writs." Mr. Crawford was for relief, but could not

this nature. Mr. Brown urged the adoption of this amendment. The question recurring the amendment

was rejected. Mr. McNair offered an amendment allowing Executors, Administrators, Trustees and Guardians, who qualified prior to the 1st of May, 1865, until the year 1870 to settle their estates. Rejected. Mr. Westmoreland offered an amendment

that the provisions of the bill should not apply to the counties of Stokes and Forsyth. (Anxious to give the several positions of gentlemen on this important bill, we are reluctantly compelled for the want of time and space to stop here and defer the rest of the proceedings till Wednesday's issue.)

DR. HAYES' OPINION OF THE B. D. SEA-FOWL GUANO. A NALYSES OF THIS GUANO, MADE IN the way of learning he proportions of the active substances present, and their mode o changing in composition, show this Guano to be admirably adapted to the great staples of agri

cultural production. The organic part consists of the excrement of owls, organic a d soluble suits of ammonia animal ma ter in a state of decay, with oily and fibrous substances, and humus These afford about 4 p r cent of ammonia. The soluble part contains phosphates of va

phosph to f lime; while the whole phosphates resent amount to 44 per cent, counted as bone phosphate of time. Sulphates, chlorides, and crenates of alkaline baser, make up the remaining parts of this Guano, the whole being in a condition to dissolve in the soil, and become assimilated by the crop .-This Guano has also a fermentative power, and but held views similar to those advanced by will not only induce this action, but it will ex

> cite the humates in the soil to render up any It will be seen that phosphoric acid, equal about sixteen per cent of bone phosphate of lime, dissolves f ee y in water, and that the lorty four per cent, of bone phosphate is all soluble, moisture and time being allowed. With these phosphates there will be about twelve per cent of organic compounds, affording four per cent. of pure ammonia, apart from that obtained from humic compounds These are proportion, which expe rience has demonstrated as forming a well-bal anced Guano, of special value in cotton cultivation, and also adapted to other crops.

Compared with Pernyian Guano, the latter appears as a saline, exciting Guano, well adapted support the bill without an amendment of to hastening forward a crop in a backward sea son, or to excite the production of grass. It cannot be used in consective seasons, as the B. D. Sea-Fowl Guano can be, as the latter leaves fer-tilizing matter in the soil each time it is applied, and thus adds permanent value to the land. The exact balance found between the soluble phosphates, of different bases, and the ammonia

producers, as well as the condition of the less soluble phosphates, is a most important feature in this Guano, and one which places it by the side of Peruvian Guano. In all applications where the heat of fermentation necessary to hasten the germination, and the food adapted to the growing plant in all its stages, are required, this Guano is of great value, and it may be used with confidence in making any of the staple crops of plantation culture, as a substitute for Pernylan Grano
