Cheap Printing Paper.

TO EDITORS AND PUBLISHERS.

LETTER FROM W. G. CLARK, ESQ., PRESIDENT OF THE SOUTHERN PRESS ASSOCIATION.

ATLANTA, GA., April 19, 1867.

Dear Sir—It affords me much pleasure to communicate to you the following resolution of the Southern Press Association:

Resolved, "That as a testimonial of our appreciation for the zealous, faithful and efficient services of John S. Thrasher, Esq., as Superintendent of this Association in years past,

We hereby tender him the thanks of this Association, and confer upon him the complimentary position of Agent of the Southern Press Association in the city of New York.

The terms of commendation employed in the above resolution do no more than justice to your important services during your superintendency—services which none had better opportunity to know, and none can more highly appreciate than myself. Should occasion require, I shall be glad to avail myself of the aid provided for by the resolution.

Very respectfully, your obedient servant,
W. G. CLARK,
President.

NOTICE.
I would respectfully request every daily, tri-weekly, semi-weekly, weekly and monthly journal South of the Potomac and Ohio rivers, and the 36 deg. 30 min. parallel of latitude West of the Mississippi, to publish this advertisement twice, and send to me, at New York, each time a copy of the paper containing it, postpaid, with bill for same.

It is desirable, in my combinations to procure cheaper printing paper for our Southern journals, that I shall have the fullest information regarding the sizes of paper used by the several publications, and I can procure it in no other way than by requesting particular attention to the need of sending a copy of the publication with the bill.

I desire it sent twice to provide against mail failures, and that they be postpaid to secure post-office delivery.

THE DAILY DISPATCH.

WILMINGTON, MAY 5, 1867.

Another Beast Butler.

Springfield, Illinois, has a rival Butler to the "Beast" of Massachusetts. A subscription to relieve the distress of the South has been set afoot in the former place by some charitable citizens, through which Beast No. 2 has been developed. The Illinois State Register says:

In their organized exertions to aid this pressing charity, our kind hearted citizens laid out this city into districts, and named three or four prominent persons to collect subscriptions and donations. Three of these subscribers of the public mercy presented us with a subscription paper, desiring aid. Feeling that the object was most holy, we took the paper, and casually glanced along the list of subscribers. Among these we saw the name of a wealthy and charitable citizen for the sum of one hundred dollars; numerous others of smaller amounts. Blessings on those benevolent hearts! Near this larger subscription was the following:

"I will give the amount set opposite my name to purchase powder and lead to be used in the South, provided the same is dispensed by a loyal agent."

WM. BUTLER, \$50.

A glance at this was not sufficient; one could scarcely realize the fact. We read again; the words were there; comment is needless.

DEFINING HIS POSITION.—The "Fat Contributor," while at Nashville recently, was requested to define his position on politics, which he did in a letter to "John Happy," of the Nashville "Banner," as follows:

"I am aware of the necessity of knowing just where a man stands in these times which try men's soles—as well as the upper leather. To begin with, I am an old Henry Clay Whig of the Polk School. I believed in the Hard Cider Platform of 1840, during which I cast a somewhat colored vote for Jackson. I voted against the assassination of Lincoln. I favored the Maine Law until they fired on our flag, together with our flagstones, when I went in for a rigorous protection of peace. I am in favor of woman's rights, if it is a good looking woman and she writes to me. I don't know much about the Monroe Doctrine, and as for horse doctoring, I don't know anything at all. I wouldn't vote to oblige a Mormon to have more than one wife, and am opposed to introducing coolers into the territories. I go in for a tax on waterfalls, and am willing to allow chignons representation in Congress on the basis of population. Finally, I am in favor of allowing the negro to vote in the South—it is the only way to make treason odious."

COLORED EMIGRANTS TO LIBERIA.—The Company of colored soldiers that left Philadelphia in December last to settle in Liberia, reached their new home pleasantly by the Edith Rose. Charles A. Harrell, formerly of Elkton, Md., writes thus:

"I am very happy to say that words cannot describe the good and kind treatment of the people, and the kind welcome of the Government and the President. Monrovia is a fast-growing city. As for the land of Liberia, in regard to fertility, it is the best I have ever seen. Vegetables are growing in the whole year round. All the company are in good spirits. Tell my friends in Philadelphia, that if they wish to procure a good home, as a free gift, Africa is the only place for them. We now reside at Boxley, right on the Finley road to Geas Mountain. Finley is very highly spoken of as the most healthy and best region in Liberia."

A new company of colored soldiers, "Lincoln Company, No. 2," is now forming in this city, with the intention of leaving on the 1st of May. The leader was for two years in a colored regiment, sharing in the siege of Vicksburg and the battle of Nashville.—*Philadelphia Telegraph, April 30.*

GEORGIA GEMS.—Dr. Stevenson, an eminent mineralogist and geologist, who was for many years Assayer in the United States Branch Mint at Dahlonega, speaking of the mineral resources of Georgia, says fine amethysts have been found in Hall county, Forsyth and Columbia; the topaz in Lumpkin; the corneal in Rabun; the beryl in Clarke, and the lazulite in Lincoln, accompanied with splendid crystals of rutile, some weighing twelve ounces. The zircon, in great quantity, is found, as an accompaniment of the diamonds, all along the belt of the mica.

The kyanite is found in Elbert county, and the chalcidony is associated with the corneal in Rabun county, as also the amethyst, or asbestos, of great strength of fibre, and over two feet long. The garnet is abundant, but everywhere of a poor quality. No emeralds have been found, nor sapphires.—The opal abounds in the middle counties. The precious or fire opal, however, "has only been found in South Carolina, where some valuable specimens were obtained by the late Dr. Andrews, of Charlotte, N. C. Judge Peck, of East Tennessee, found a small emerald in Howkins county. The ribbon jasper is abundant, and pictorial marble of great beauty.

WEDDING INVITATIONS.—A contemporary states that the latest style of wedding invitations are inscribed as follows: Instead of a single or pair of wedding cards, as formerly, the envelope now contains one card, with the names of the mother and father of the bride, and one with those of the parents of the bridegroom; then the Mr. and Mrs. card, then the maiden card of the bride, and the card of the bridegroom; then the invitation of embossed note paper for the church, and finally the card giving invitations to receptions. So much fuss and ceremony appear to "old fogies" supremely ridiculous, but they should remember that we live in an age of "progress."

THE "COTTON PLANTER."—The Warrenton Clipper says: "Mr. Curran Battle, a well known and popular citizen of our county, has invented a 'Cotton Planter,' the utility of which has been thoroughly tested by practical application, and our farmers should not fail to avail themselves of its superior qualities. With this invention eight acres of cotton can be easily planted per day, with the use of one horse and one laborer. The construction of Mr. Battle's machine is most simple, and we suppose he will take immediate steps to have it patented."
