A Woman as Assistant Surgeon.

WASHINGTON, Aug. 27.—Today for the first time in the history of the American army a woman has been appointed as an assistant surgeon.

Dr. Artho Newton Mosey, wife of W. J. Mosey, of this city, has been appointed as assistant surgeon in the Ninth Cavalry at Fernandina, Fla. The appointment was made by the War Department.

Dr. Mosey has for many years been a resident of Charleston, S. C., and has had much experience in surgical practice. She has been a member of the American Medical Association for many years.

A General's Punctuation by a Young Man.

WASHINGTON, Aug. 28.—A telegram from this city to the Secretary of War today follows:

"An order for my county, signed George S. McClellan, who killed himself on the battlefield of Gettysburg.

Dr. W. H. Gilmore has received a letter and a ticket from the War Department, stating that young Mr. McClellan was the first American born soldier killed in the Civil War.

The letter was received on Saturday, Aug. 26th.

Washington, D. C., Aug. 29.

Dr. Mosey has regularly practiced her profession in Washington for some years and is well known to medical circles throughout the country. She is a member of several scientific organizations and is a contributor to many of the medical journals.

Rests of the Armada.

One of the ships in the harbor of the Port of Spain, the Spanish Arabian, which Philip II of Spain intended to use as a fleet to oppose the English, is now lying at anchor in the harbor.

The Spanish Arabian was captured by the English fleet under Lord Howard of Effingham, and is now being towed to a safe harbor in the West Indies.

The ship was equipped with cannon and armed with about two hundred men. The English have taken possession of the ship and have begun to load it with stores for their journey.

The ship was built by order of Philip II of Spain, and is one of the largest vessels ever built in that country.

The ship is valued at more than $1,000,000, and is considered one of the finest ships afloat in the world. The English have taken possession of the ship and are now making preparations to sail for England.

Oxen for the Army.

A few days ago the government purchased a large herd of oxen for use in the army. The oxen are to be used for transporting supplies and ammunition.

The oxen are valued at $50 each, and the total cost of the purchase is $10,000.

The oxen are to be used in the army during the coming winter, and it is expected that they will prove of great value.

The oxen are to be cared for by experienced ox drivers, and it is hoped that they will prove to be a great aid in the campaign.

The oxen are to be kept in the army camp at Valley Forge, where they will be fed and well taken care of.
