R. T. FRANK,

R. T. FRANK,

An invalid physician, sojourning in the tropical island of St. Croix, observing the habits of the natives, gathered the recipe for the final accomplishment of this most important end. The article was first used as a private medicine, when its cle was first used as a private medicine, when its salutary effects becoming known, it was brought out under the name of

DRAKE'S PLANTATION BITTERS. They act with uncrring power, and are taken with the pleasure of a beverage. They perform most wonderful cures in stubborn cases of Dyspepsia, Liver Complaint, Nervous Affections, Loss of Appetite, Intermittent Fevers, Diarrhea, Sour Stomach, Headache, Fever and Ague, Weakness, Mental Despondency, &c. As a morn ing appetizer and after dinner tonic, they should be in every family. They are a delightful exhile rating stimulant, without any subsequent stupe ying reaction.

IMPORTANT CERTIFICATE.

ROCHESTER, December 28th, 1861. Messrs P. H. DRAKE. - Gentlemen :- I have suffered terribly with Dyspepsia for three or four years, and tried many remedies without effect. I had to abandon my profession, and suffered greatly from everything I ate. I have now tried the Plantation Bitters-they helped me-I continued their use, and am now nearly a well man. I know of several similar cases. Respectfully yours, REV. J. S. CATHORN.

S. T.-1860-X. Intelligent persons and physicians can judge on the efficacy of the Plantation Bitters from the following partial formula:

CASCARILLA BARK Was known and used in Germany for Dyspepsia, Chronic Diarrhea, Cholic, Dysentery, and Diseases of the Stomach and Bowels, as early as 1690 DANDELION. For Inflamations of the Loins and Spleen in Dropsical Affections and Biliary Secretions, or Obstructions of the Abdominal Viscera.

CALISAYA, OR KING'S BARK, Was unknown to civilization until the middle of the 17th century. Humboldt makes favorable mention of the febrituge qualities of this article as an Antidote Fever and Ague, Intermittent and Malarious Fevers, in his extensive South American travels. The Countess, wife of the Viceroy of Peru, having experienced the beneficial effects of the Bark, sent it to Parsons in 1810. cial effects of the Bark, sent it to Europe in 1540. It was sold by the Jesuits for the enormous sum of its weight in silver, and was thus called JESUITS' POWDER. In 1658, Sir John Talbot employed it with great success in France, in the treatment of Fever and Ague, Dyspepsia, Nervous Affections, Loss of Appetite, Weakness and Debility, Palpitation of the Heart, Diarrhea, &c., under the name of English Powder; and in 1679, he sold the secret of its origin to Louis XIV, by whom it was aivulged. It is now a standard remedy in all Pharmacopæia, and is employed in preparing the Plantation Bitters.

Chamomille Flowers, for enfeebled Digestions Wintergreen, valuable for Scrotula, Rheumatism, and Neiratic Affections; Lavender Flowers, aro matic, st mulant and Toric, highly invigorating in Nervous Debility; Anise, an aromatic carminative, creating flesh, muscle and milk. Much used in nursing.
