The Tax on Printers.

Washington, Sept. 17.—The Commissioner of Internal Revenue has recently rendered the following decision: A printer is liable to the special tax as a manufacturer, if the articles he prints amount in value when printed, to one thousand dollars per annum. A Printer is understood to be any person or firm whose business it is to take impressions from type or engraved surfaces upon paper or other materials. In deter mining the liability of printers to the special tax as manufacturers, the value of their articles of merchandize produced by them should alone be taken into consideration. The annual report of the Board of Regents of the Smithsonian Institution, for the year 1866, has just been published from the government printing office. It appears from the statement of Professor Henry, the secretary, that by judicious investments and the sale of coin received from England, as the resi duary legacy of Smithson, as well as that of the annual interest from the United States, not only have the operations of the institution been maintained, and the reconstruction of the building carried on without any aid from the government, but the finances have been improved, and are now in a better condition than at any former period. If the petition to Congress to permit addi-tions to be made to the principal on the same terms as those on which the original bequest was received into the Treasury of the United States be granted, namely: allowing the regents to increase the capital by savings, donations and otherwise, to a mil-lion of dollars, then the extra fund, at the present market value of the stocks in which

IMPORTANT CERTIFICATE.

ROCHESTER, December 28th, 1861.

Messrs. P. H. DRAKE.—Gentlemen:—I have suffered terribly with Dyspepsia for three or four years, and tried many remedies without effect. I had to abandon my profession, and suffer a great-ly from everything I ate. I have now tried the Plantation Bitters-they helped me-I continued their use, and am now nearly a well man. I know of several similar cases. Respectfully yours, REV. J. S. CATHORN.

S. T.-1860-X. Intelligent persons and physicians can judge on the efficacy of the Plantation Bitters from the following partial formula: CASCARILLA BARK

Chronic Diarrhosa, Cholic, Dysentery, and Diseases of the Sto.nach and Bowels, as early as 1690 DANDELION. For Inflamations of the Loins and Spleen in Dropsical Affections and Biliary Secretions, or Obstructions of the Abdominal Viscera.

CALISAYA, OR KING'S BARK,

Was unknown to civilization until the middle o the 17th century. Humboldt makes favorable mention of the febrituge qualities of this article as an Antidote Fever and Ague, Intermittent and Malarious Fevers, in his extensive South American travels. The Countess, wife of the Viceroy of Peru, having experienced the beneficial effects of the Bark, sent it to Europe in 1640. It was sold by the Jesuits for the enormous sum of its weight in silver, and was thus called JESUITS' POWDER. .. In 1658, Sir John Talbot employed it with great success in France, in the treatment of Fever and Ague, Dyspepsia, Nervous Affections, Loss of Appetite, Weakness and Debility, Palpitation of the Heart, Diarrhea, &c., under the name of English Powder; and in 1679, he sold the secret of its origin to Louis XIV, by whom it was divulged. It is now a standard remedy in

all Pharmacopæia, and is employed in preparing the Plantation Bitters. Chamomille Flowers, for enfeebled Digestions: Wintergreen, valuable for Scrotula, Rheumatism, and Neiratic Affections; Lavender Flowers, aromatic, stimulant and Tonic, highly invigorating in Nervous Debility; Anise, an aromatic carminative, creating flesh, muscle and milk. Much used in nursing.
