The mystic chords of memory, stretching from every battle-field and patriot grave to every living heart and hearthstone all over this broad land, will yet swell the Chorus of the Union, when again touched, as surely they will be, by the angels of our nature."—

THE Constitutional Convention of Alabama will meet on November 5th, to consist of 97 members—78 whites, 19 blacks.

THE United States Treasury for the past year has met, for bounties, a demand of between two and three millions of dollars.

THE Virginia papers threaten the colored people in one column and try to coax and cajole them in the next-all to get their votes. Humiliating is it not?

D. E. BOOKER, jr., for killing R. H. Glass editor of the Lynchburg (Va.) Republican was one day last week fined \$250 and imprisoned twenty-four hours.

THAT there is a growing disposition in this and other Southern States since the October elections to defeat the reconstruction measures, cannot, we are sorry to say, be denied.

Two futile attempts have been made to hold a Conservative Convention in Buncombe County. The fact is there are not enough of that stripe in the County to organize. The white and colored people there are Union Republicans.

"Labor is becoming daily more unreliable." This is going the rounds of the Democratic press. It is not the experience of a single planter within our acquaintance. On the contrary, the united testimony is, that the colored laborers are doing better than ever before.

The negroes in New Hanover are said to be much disgruntled at the manner in which the "Northern adventurers" managed to fool them in the nominations for that county. -Petersburg Index.

That may be a good story for electionbut there is no truth in the statement.

Two hundred thousand Republicans voted in Ohio at the last election for impartial suffrage, and the Rebel sympathizers make a great howl because all of the Republicans did not vote the same way. We venture to say no Democrat ever voted for such a measure, in Ohio or elsewhere!

WE wonder if on the day of election "Obstructionists" will call colored voters "buck niggers?" This foul term has disappeared from the Richmond papers. Let them take the hint.

THE trial of SANTA ANNA resulted in a sentence of exile from Mexican territory for eight years.

A gentleman of Toledo offers to give alternate lots along the river to individuals or of manufactories.

Let some property holder here make such an offer after reconstruction and the population of Wilmington would be doubled within five years.

WHEN a man moves from one Northern State into another, or a Southern man comes there to locate, there is not a man mean enough, north of Mason & Dixon's line, to call him an "intruder" or an "adventurer." On the contrary, he is welcomed and can aspire to any position, whithout having it thrown in his teeth that he came from this, that place or the other. It is only "mean whites" who talk in this way. A citizen of the United States carries al

of his legal rights wherever he pleases to locate within the Union.

How Obstructionists of Alabama Republican Arguments.

JOHN C. KEFFER, Esq., Chairman of the Republican State Committee of Alabama, has spoken in nearly every County of Alabama, having met almost the entire colored pop ulation face to face, and given them a plain exposition of their new relations to the Republic. He has been repeatedly attacked, and only a few weeks since was followed by an armed ruffian, after one of his great speeches, and after a desperate struggle was shot in the head, the ball by a miracle having just grazed the brain. Vide Washington Chronicle.

POLITICAL AFFAIRS in New York are very much mixed; but both sides are sanguine of success. In Brooklyn the Democratic organ, the Eagle, (and, by the way, the most able Democratic paper in the United States,) ciple. If men are good enough to come to bolts the nomination of MARTIN KALB-PLEISCH for Mayor, Mr. K. is a Dutchman; was once Mayor of Brooklyn-after running several times; a member of Congress for the fill offices of honor and trust. We want will be rigidly enforced. Third District, and has made a fortune manufacturing sulphuric acid and holding to get all this, I, for one, am willing to take office, notwithstanding the large sums he has expended in keeping himself before the people. He is a rebel all over, and it is a us and, for the sake of position and patronmatter of surprise that the Eagle does not swallow him, as a Democratic candidate, boots and all, for that paper we the first to declare that "before any troops could march South to subjugate our Southern brethren, they would have fighting enough to do in our own State!" But that we suppose was in a Pickwickian sense, for peace Democrats are very tame when there is villainous saltpetre around.

Shame !

Certain Virginia papers were filled the day before, and on the morning of the elecion there, with such disgraceful threats and appeals to the colored people as the follow-

"How can colored men ruin the future prospects of their homes?" "Let the negroes remember that the Republican party of the Northern States has

broken faith with them." "Vote for a Convention if you dare, but be sure that vote will be remembered."

"The white race will rule."

" Colored people, if you want to be friends with us now is the time to show your hands. After the votes are counted it will be too

"Down with the Convention. It will involve white and black alike in hopeless

And so on to the end of the chapter, interlarded with such expressions as, "our colored friends," " colored people," "the Southern people have no prejudice against their former servants."

Shame! Shame!!

Business men should bear in mind one self-evident fact, to wit: That if reconstruction does not take place under the plan now proposed by Congress, those who have capital invested in this State will be ruined! It cannot be otherwise, for if the Convention to be held does not adopt a Constitution and laws acceptable to Congress, that fact will show that the people stand in the same attitude toward the general government they did four years ago, and that will force Congress to require additional guarantees for the future safety of the country. Be not deluded into the belief that a "reaction' is going on at the North.

The object of the Convention defeated, will keep the people in this State in their present unsettled state for another two years

WE find the following paragraph in editorial of the Journal of Tuesday:

"Notwithstanding all attempts to hide, by meaningless resolutions, the fact of the efforts of the few white Radicals to get up a black man's party, it nevertheless stands out as a palpable and accomplished fact."

We cannot believe the editor of the paper in which the above appears desires to misrepresent the white Republicans of this State; and yet, so far as our knowledge extends, there is not the slightest foundation for the statement made, and we respectfully ask the Journal to give its authority for so serious a charge.

The few silly attempts looking in that direction, made by colored men, have been invariably frowned down and discountenanced in every way by white Republicans in this State. More than this, the colored men have in every assembly held since September 5th, disclaimed any such idea, and have repudiated, by resolutions, the extreme views uttered by a few men in mass meeting at Raleigh. The imperfectionspertaining to human nature are sufficient for us to bear, without being accused wrongfully, of what we are not guilty.

We can afford to remain silent as to the party represented by the Journal embracing all "the virtue, intelligence and character of the State," for we are content to await the judgment to be passed when the passions of the hour have subsided. And we are content, also, that any editor should try and make his readers believe that the Radicals companies who will establish there any kind | cannot elect more than fifty delegates to the Constitutional Convention; but don't accuse a whole body of men, who have some claims to respectability, of moral turpitude, without furnishing some other evidence of the fact than mere assertion.

Governor Brownlow's Inaugural.

Governor BROWNLOW is one of the best abused men in the United States. Southern men, everywhere, who remained true to their country and flag, or who since the close of the war have become convinced of their error and see fit to co-operate with the Republican party, have been systematically villified and every species of reproach heaped upon them; private character assailed, and even life itself has been taken. It requires a higher order of bravery to face this contumely than it does to march up to the cannon's mouth. Gov. BrownLow is one of the few Southern men who has bravely rode out the storm, and he has at least, as a reward for the sacrifices he has made, an approving conscience. He still is good for another fight as will be seen by the closing paragraphs of his recent inaugural address, which we annex hereunto :-

This Conservative party has, during its career, advocated no more men and no more money to carry on an "abolition war"-a universal amnesty for traitors—secession and foreign interterence—now openly advocates of youth of both sexes. the repudiation of the National debt-and it only remains for it to advocate Polygamy, in order to have sounded every known depth

of political infamy !"

I have witnessed, with regret, in different localities in this State, a disposition to proscribe Northern men, and to drive them from the country. I do not enter into this spirit. nor will I administer the Executive branch of the State Government upon any such prin-Tennessee and encounter the cold and heat and mud and rains of our climate, and face rebel bullets in putting down the rebellion, they are good enough, when qualified, to Northern capital-Northern enterprise-and a fair proportion of Northern politicians, -But I yield to no man in my contempt for that class of Northern men who come among age, abandon their honest sentiments and become Rebel sympathizers. conclude with a sentiment which I trust

may inspire all our actions. The Union of the Republican party for the sake of the Union!

"Under the old government, every State had the reserved right to fix the status of its own citizens, to fix the conditions of citizenship, to say who shall vote or who shall hold ice. The Howard amendment transfers this sacred power, that which is essential to the existence of States, from the States themselves to the general government and the Congress. Here is the true ground of our hostility to the Howard amendment. It places the entire control of the internal affairs of the States into the hands of the general government and of Congress. And

this is Radicalism."-Sentinel. All true, brother. But have you not forgotten that there has been a little disturbance, and some of these "rights" forfeited thereby? Buy Moore's Record of the transactions of the last seven years, and read it carefully.

"They declared that 'all men are created equal,' and that, therefore, they are 'equal' or must be made equal. To carry out this fallacy, they declared that the war power of the government having subdued the rebellion, slavery must be abolished to effect this equality."-Sentinel.

Why not say equal before the law, and not leave your readers to infer you mean social equality,-a something no law can reach.

THEY are up to their old tricks in Georgia. A man was tarred and feathered there recently. It was a colored man however and the tarring was done by colored men. These people are apt scholars.

England on our Recent Election A Corespondent of the Washington Chroncle, under date of London, Oct. 5th says: On this side the Atlantic there is loud rejoicings over what are termed the "Democratic majorities" obtained in some of your late elections. I need scarcely tell you that it is confined to the despots and deadliest enemies of our liberty. The people at large take no part in it, while we of the liberal papers are jubilant over the supposed successes of Copperheadism, and the word "democratic," once so abominated, is now almost beloved by them.

After expressing surprised at English arstocratic sympathy for partisan Democracy,

But still more surprising is the fact (if it be a fact) that your adopted citizens should take part in this crusade of Copperheadism; above all, that your Irish adopted citizens should in the rank of your so-called Democratic party be fighting for the very cause that has driven them in degradation from these shores, and still continues to sweep from the green fields of their native island their brothers, sisters, cousins, and kindred, as with the besom of destruction!

Surely this brave people must be sadly misguided among you, not to have been taught the delusion to which Copperheadism is leading them. Instead of carrying them along the path of liberty, it will take ihem back to the very toils from which they have escaped. In your strength lies their only hope of returning to assist in the escape of the dear ones left behind them, and that strength is dependant upon your Union.

Knowing the Irish as I do; respecting them as no brave man can help doing, l believe that their clinging to your present Democratic party is an error of the head and and not of the heart. Did I think otherwise, I should cease to respect them.

Gents :- The sample of WHITE EMERY furnished by you for testing its merits in polishing and cleaning the engines of steamers Fulton and Arago, has proved itself very useful for that purpose, and equal, if not superior, to anything of the kind I have ever seen used. It produces a ready, bright polish, and endures the damp and heat of the engine room to a greater extent than when brightened by any other material, and I consider it highly useful for steamships.

A. WHITING, Esq., Dear Sir:—I have used your Eureka Powders in my Saw Manufactory, and I find it very good for polishing on a wheel, but as a Polisher I find it makes a lustre 50 per cent. better than Emory, or anything I have ever used, and with much less labor, which preserves all articles from tarnishing, and from my experience I find that it keeps them so, and that they do not require oiling.

Sir:—I have given your Eureka Polisher, etc., a critical test, and can say with Mr. Warner, that it is very far superior to Emory.
