OUR LATEST IMPROVED New Scale Piano-Forte.

NOTICE.-After the most flattering testimonials from the first Pianists in the country, who, at our solicitation, have tested them in the severest manner POSSIBLE, have been pronounced THE FINEST SQUARE PIANO-FORTE MADE in the world.

It has always been our policy during the Thirty-six Years that we have manufactured Pianos, to select materials of which are now in use in the United States and Europe, to give the finest instrument at the lowest cost. Our superior facilities enable us to offer them from one to three hundred dollars less than any other first-class Pianos.

The tone of these instruments are remarkable for their peculiar sweetness and great brilliancy. Never losing their quality when forced to their limit, and with a lower register retaining its positiveness does not destroy the middle and upper registers by mingling with them in disagreeable confusion. The rebound beauty of tone being equally delightful to the unpracticed and to the most cultivated ear.

They are an entirely new style of Piano, finished in the most superb manner, with four full round corners front and back, heavily carved legs and Lyre, Serpentine Base richly moulded, and each instrument is fully WARRANTED for five years. GROVETTES & CO., 499 Broadway, New York.

TO SHINGLE MANUFACTURERS.

The undersigned offers for sale the patent right to manufacture and use in any of the Southern States, the MILLER SHINGLE MACHINE, which is one of the best machines for sawing shingles, in use.

This machine was patented on the 13th of July, 1858, and has been much improved since, owing to the war, has not been introduced into the South. It is adapted for Staves as well as shingles, cutting them even, or with any taper desired.

The saw first enters the bolts on the side, and consequently turns out better work than can be done by most other machines. It is simple in its construction, not liable to get out of repair, and is built entirely of iron.

It occupies a space of four feet by six, but can be built of any size, the ones now in use being for staves or shingles from 33 inches down.

Messrs. WHITING & Co. The sample of WHITE EMERY furnished by you for testing its merits in polishing and cleaning the engines of steamers Fulton and Arago, has proved itself very useful for that purpose, and equal, if not superior, to anything of the kind I have ever seen used. It produces a ready, bright polish, and endures the damp and heat of the engine room to a greater extent than when brightened by any other material, and I consider it highly useful for steamships. Yours, very truly, CAPT. JOS. J. COMSTOCK. New York, Feb. 13, 1867.

28th August, 1866. A. WHITING, Esq., Sir.-For some time I have used in my house, your Eureka Polisher and Burnisher. I find it fully equal to all you say of it. With one fourth the labor and without dirt it gives a superior lustre and more lasting than anything I have ever used. By using a sponge dampened with water, with a little of your No. 1 on it, and rubbing the same over any Window, Mirror or Picture Glass, and after it dries, rub it off with a clean cloth, it will clean them in one-twentieth the time, without wet or dirt, and give a most beautiful lustre. I am satisfied that if any person uses it, they will never be without it. No. 29 South Fifth St., Jersey City.

Brooklyn, Sept. 20th, 1866. A. WHITING, Esq., Sir.-I have carefully used your Eureka Polisher and Burnisher, and I have no hesitation in recommending it as being fully equal to all you claim for it, and think no housekeeper should be without it. 86 Clinton Street, Brooklyn.

29th August, 1866. A. WHITING, Esq., Sir.-I have used your No. 1 and 2 of your Eureka Polisher and Burnisher in the New York Hotel, a fair trial, and find it all even more than you recommend it to be. It gives a better and more lasting lustre in much less time, with less work, and without dirt, than anything I have ever seen or used by 100 per cent. JOHN CRANE, Knive cleaner, New York Hotel, 29th August, 1866.

A. WHITING, Esq., Sir.-We have carefully witnessed the use of your Eureka Polisher and Burnisher in our Hotel, and can fully and cheerfully endorse the above. We can with it clean all the windows and mirrors in our house in one-tenth the time and without wet or dirt. Send us 200 lbs. of No. 1 and 100 lbs. of No. 2. CRANSTON & HILDRETH, New York Hotel.

Astor House, New York, Nov. 5, 1865. Sir.-Under our supervision, we have had your Whiting Eureka Polisher, &c., tried in the various departments of the Astor House. Its quick and clean action, its brilliant and lasting lustre, makes it a very useful and desirable article for all the purposes you claim for it. In our opinion it is very far superior to anything of the kind now in use. We have and shall continue to use it. Signed, J. WALKER, JOHN ROBINSON, J. BAIN & HAM, Pacific Hotel, Greenwich Street, near Courtland.

Stevens House, 27 Broadway.

New York, Sept. 2d, 1866. A. WHITING, Esq., Sir.-I have used your Eureka Polisher, Burnisher, and Emulser, and take great pleasure in recommending it as a superior article for the uses for which it is intended. Please send us 100 lbs. of No. 1 and 50 lbs. of No. 2. Superintendent Southern Hotel.

New York, Sept. 2d, 1866. A. WHITING, Esq., Sir.-I have used your Eureka Polisher and Burnisher in various ways in my house and stables, and most cheerfully recommend it to be used by all who have occasion to use anything of the kind. It will be without it. It is by far the best thing we ever saw or used. Please send us 100 lbs. of it at once. Very truly yours, HITCHCOCK & CO., Imperial Restaurant, New Orleans.

September 2d, 1866. A. WHITING, Esq., Sir.-After a careful and full trial in our stable of your Eureka Polisher and Burnisher, we most cheerfully recommend it and we are certain that no one who has occasion to use anything of the kind will be without it. It is by far the best thing we ever saw or used. Please send us 100 lbs. of it at once. POST & NICHOLS, National Sale and Exchange Stables, Nos. 153, 155, 160, 162 and 164, 24th St., N. Y. I agree with and cheerfully endorse the above. JOHN ROBINSON, No. 155 East 24th Street, New York, Sept. 24th, 1866.

A. WHITING, Esq., Sir.-I have used your Eureka Polisher and Burnisher in various ways in my house and stables, and most cheerfully recommend it to be used by all who have occasion to use anything of the kind. It will be without it. It is by far the best thing we ever saw or used. Please send us 100 lbs. of it at once. CHESTER LAMB, 56, Nicholas Stables, 67 and 59 Mercer St. New York, June 12, 1866.

A. WHITING, Esq., Dear Sir.-I have used your Eureka Polisher, and I find it very good for polishing on a wheel, but as a Polisher I find it makes a lustre 50 per cent. better than Emory, or anything I have ever used, and with much less labor, which preserves all articles from tarnishing, and from my experience I find that it keeps them so, and that they do not require oiling. H. R. WARNER, 133, 135 and 137 Worth St.

New York, Oct. 16, 1866. Sir.-I have given your Eureka Polisher, etc., a critical test, and can say with Mr. Warner, that it is very far superior to Emory. It works quick and requires but little labor, and gives a most beautiful and lasting lustre, and is very economical. I do most cheerfully recommend it, and shall use it in all my works. JOHN BLAINE, Electrician, No. 74 Ann Street.
