MISCELLANEOUS.

TO SHINGLE MANUFACTURERS.

The undersigned offers for sale the patent right to manufacture and use in any of the Southern States, the

MILLER SHINGLE MACHINE, which is one of the best machines for sawing shingles, in use.

This machine was patented on the 13th of July, 1864, and has been much improved since, but owing to the war, has not been introduced into the South. It is adapted for Staves as well as shingles, cutting them even, or with any taper desired.

The saw first enters the bolts on the side, and consequently turns out better work than can be done by most other machines. It is simple in its construction, not liable to get out of repair, and is built entirely of iron.

It occupies a space of four feet by six, but can be built of any size, the ones now in use being for staves or shingles from 33 inches down.

Machines can be manufactured in this city, where all the patterns are on hand, if desired. A machine can be seen in operation at the subscriber's mill, on Castle street wharf. For further particulars, address or call upon

S. T.—1868—X.

The language of nature and experience states, that whoever would enjoy the pleasures of food—the beauties of landscape—the joys of companionship—the richness of literature—the honors of station and renown—must preserve his health.

The stomach is the receptacle of all nourishment, and the fountain from which all parts of the body, derive sustenance. The effect of food entering the stomach, is to excite the digestive organs and produce headache, loss of appetite, unrefreshed sleep, fatid breath, low spirits, feverish burnings, constipation, incapacity to perform any mental or physical duty, &c., and are the symptoms of that horrid disease

DYSPEPSIA, which assumes a thousand shapes, and points towards a miserable life and premature death. The Medical Faculty has labored for generations to discover reliable appetizers and the proper means of overcoming stomach derangements. Certain ingredients have been long known as partially effective. Among these were

CALISAYA BARK & ST. CROIX RUM.

An invalid physician, sojourning in the tropical island of St. Croix, observing the habits of the natives, gathered the recipe for the final accomplishment of this most important end. The article was first used as a private medicine, when its salutary effects becoming known, it was brought out under the name of

DRYKE'S PLANTATION BITTERS. They act with unerring power, and are taken with the pleasure of a beverage. They perform most wonderful cures in stubborn cases of Dyspepsia, Liver Complaint, Nervous Affections, Loss of Appetite, intermittent Fevers, Diarrhoea, Sour Stomach, Headache, Fever and Ague, Weakness, Mental Depression, &c. As a morning appetizer and after dinner tonic, they should be every family. They are a delightful exhilarating stimulant, without any subsequent stupefying reaction.

THE STEVENS HOUSE has liberal accommodation for over 300 guests—it is well furnished, and possesses every modern improvement for the comfort and entertainment of its inmates. The rooms are spacious and well ventilated, and provided with gas and water—the attendants are prompt and respectful—and the table is generally provided with every delicacy of the season—at moderate rates.

IMPORTANT CERTIFICATE.

ROCH. STEW. December 28th, 1861. Messrs P. H. Drake, & Co. Gentlemen—I have suffered terribly with Dyspepsia for three or four years, and tried many remedies without effect. I had to abandon my profession, and suffer great pain from everything I ate. I continued their use, and am now nearly a well man. I know of several similar cases. Respectfully yours, REV. J. S. CATMAN.

CASABILLA BARK DANDELION.

For Inflammations of the Lungs and Spleen in Tropical Affections and Bilious Secretions, or Obstructions of the Abdominal Viscera.

Intelligent persons and physicians can judge on the efficacy of the Plantation Bitters from the following partial formula:

Was known and used in Germany for Dyspepsia, Chronic Diarrhoea, Cholera, Dysentery, and all Diseases of the Stomach and Bowels, as early as 1690

Dr. J. H. Wilson, 121, 123 and 127 World St. New York, Oct. 16, 1868.

Dr. J. H. Wilson, 121, 123 and 127 World St. New York, Oct. 16, 1868.

S. T.—1868—X.

Another ingredient of remarkable and wonderful virtue used in the preparation of these Bitters, is a native of Brazil, and as yet unknown to the commerce of the world. A Spanish writer says: "administered with St. Croix Rum, never fails to relieve nervous tremor, wakefulness, disturbed sleep, &c., and that it is used with great effect by the Brazilians, Spaniards and Peruvians generally to lighten their color and beautify it. It imparts a cheerfulness to the disposition, vigor to the appetite, and brilliancy to the complexion."

We withhold its name from the public for the present. To the above are added Clove Buds, Orange, Caraway, Cardamom, Snake Root, &c., all prepared in a strictly pure, and every article used is warranted perfectly pure, and the money will be returned in full if not satisfied.

WHAT OTHERS SAY.

"I have used your Eureka Polisher, and I find it very good for polishing on a wheel, but as a Polisher I find it makes a lustre 50 per cent. better than Emery, or anything I have ever used, and with much less labor, and gives a most beautiful and lasting lustre, and is very economical and does not require oiling."

WHITING'S Emery Powder.

EUREKA POLISHER

Warranted Superior to anything now in use for Cleaning and Polishing all kinds of Metals, Mirrors, Window Glass, Paint, and all such Purposes.

For sale Wholesale and Retail by GEO. Z. FRENCH, No. 10 Front Street, WILMINGTON, N. C.

No. 1. DIRECTIONS.

Apply with a damp sponge or cloth, and rub dry with soft cloth or leather, till the lustre appears. No. 1 is to be used for all Fine Articles, and No. 2 for Steel, Iron, and Culinary purposes, and where there is much rust. Be careful to observe the Number. Use but very little at a time.

Price Twenty-five cents per Box.

Read the following Certificate, Messrs. WHITING & CO. Gentlemen:—The sample of WHITE EMERY furnished by you for testing its merits in polishing and cleaning the engines of steamers Fulton and Arago, has proved itself very useful for that purpose, equal, if not superior, to any article of the kind I have ever seen used. It produces a ready, bright polish, and endures the damp and heat of the engine room to a greater extent than when brightened by any other material, and I consider it highly useful for steamships.

Yours, very truly, CAPT. JOS. J. COMSTOCK. New York, Feb. 14, 1867.
