### OUR CITY.

MORTALITY IN WILMINGTON.-The bocks the Secretary of Oakdale Cemetery Comy show the tollowing number or internts for January, together with the dises of which the persons so interred died: om lock-jaw, 1; nervous affection, 1; inmation of the bowels, 1; congestive chill, child bed, 1; lung disease, 1-total, 6 this number one was brought from Fay eville for interment here; two were ints aged from eight days to three years, two adults whose ages varied from rty-nine to seventy-six years.

from the Secretary of the Pine Forest lored) Cemetery, we learn that during the onth there were but four interments made ere,-two of adults and two of children. will be therefore seen that with ten interents, (the body of one white person havbeen brought here from another place burial) there have actually been but nine aths within the limits of this city during month of January.

Reckoning therefore that our city now ntains a population of 14,000 souls, this st record for January shows but one death | sue er month in every 1555 inhabitants, or but ie per year in every 130 persons.

Is there a city in the world that can show proportional equal ?

THE VALUE OF COTTON. - We have taken he trouble to look over several of our late xchanges for the market reports which they ontain, for the purpose of comparing them with our own. We give the result below, nd we think that it proves conclusively, hat our own is a far better market for prouce than can be found at any other seaport, r inland commercial town within the State. The Bulletin gives the following report of e Charlotte markets:

JANUARY 30, 1868. COTTON.-The sales of cotton to-day mounted to 158 bales, at from 9 to 121 cts. middling, some choice lots brought as gh as 124 cts. but the ruling figure was The market closed brisk.

From the Herald of the 1st we get the ewbern quotations:

Corn; per bushel \$1,15; cotton in bale.

And from the Sentinel of the 1st the followng estimate of the Raleigh cotton market : Cotton brisk, on account of foreign adices; sold, to-day, at 121 to 124.

In Wilmington, on Saturday last Cotton vas worth 171 cts., Corn \$1 30 and spirits rpentine 53 cts. per gallon.

Comments are unnecessary.

BLACKWOOD FOR JANUARY.—The January mber of the Blackwood Magazine has en received, and judging by a hasty glance er it, promises well for the new year of s publication. The contents of the presnumber are "Address to Workingmen, Felix Holt," "Linda Tressel-Part IV," ketches in Polynesia," "Brownlowsrt XIII," "Modern Cynicism," "What I at Belgrade," "The Night Wanderer of Afgham Fort," "The Education of the ople in England and America."

COURT WEEK .- The February Term of Criminal Court for New Hanover Coun-Judge O. P. Meares, presiding, convened this city yesterday morning. The originumber of cases on the docket at the ning of the Court, was but forty two Grand Jury will, however, from time to e bring in others.

There are two criminal cases to be tried term. One of them is that of Alfred John Robinson, both colored, for murand John Burnes and Mary Harris, ite, for bighway robbery. The fate of Illiam Wright Parker, convicted at the vious session of this Court, of the crime murder, but in whose case appeal was ken to the Supreme Court, will probably decided this week.

THE NORTH CAROLINIAN. - We have reived the first number of the new series of is, in appearance, a staunch, prosperous et, and we have no doubt will soon reach mark it aims for, -that of becoming the emecratic organ of the State. It is still lited and published by the former propriers, Messrs, Hearne and Dunham.

GOOD NEWS FOR WILMINGTON. - A telegram from Raleigh yesterday afternoon conveyed the welcome intelligence that the bill for the relief of the Wilmington, Charlotte and Rutherford Rail Road, by which the State endorses the bonds of that road to the amount of \$1,000,000 had passed the Convention by ten majority. This is welcome intelligence to the people of this section as well as of those parts lying along the entire line of the railroad, complete and incomplete, and will result, we hope, in the speedy

completion of this great thoroughfare. A reference to the letter of Americus, published in this issue of our paper, will explain more fully the particulars und intents of

#### THE STATE.

SENTENCED .- At Newbern, on Friday last there were some twelve or fifteen colored cul prits sentenced, by the Craven County Criminal Court, to work upon the public highways. One of these sentences was for five years.

FROM the Brooklyn Union of a late date we clip the following:

BASE BALL-THE SOUTHERN TRIP OF THE AT-LANTICS.—We yesterday received information of that city had appointed a committee of ar- city, will be given this week. rangements for the reception of the Atlantics, and had secured inclosed grounds for the series of matches to be played, and were now awaiting information in regard to the date of the Club's leaving New York, and the time of their stay, be fore publishing the programme of the grand base ball tournament with which they propose to celebrate the visit of the Atlantics to their city. The New Orleans papers refer to their anticipated arrival as quite an event in the history of the game, and the Club may fully look forward to the most hospitable and enthusiastic welcome they have ever received on a tour of the kind. They ought to arrange it so as to leave by the first week in February, and appoint their matches in the South, so as to get to Richmond about the last of March, when ball playing begins there.
They play ball in Raleigh, N. C., in March. Every Southern city they pass through en route home will want them to play one game. The advent of the Atlantics in the South will advance the game by years, and create quite a furore for the sport. Those desirous of seeing the South should accompany the Club.

LECTURE-Prof. R. Sterling, of Greensboro', will deliver a lecture before the young ladies of the Charlotte Female Institute on Friday night next, (the 31st,) at 71 o'clock.

SHAD FISHING. -Shad having made their appearance in Charleston and Wilmington, we may shortly expect them in the Sounds of North Carolina. We learn that extensive arrangements have been made to bring them in, and a larger number of net shaving been sett, we may expect a larger number taken than heretofore. The quantity brought in fresh last season was about 500,000. - Norfolk Journal.

THE Goldsboro' News says :

A WARNING TO BURGLARS.-While burglars were trying to force the doors of a store in this town, on Saturday night last, there stood within the house two men of nerve, ready to welcome them to hospitable graves. For half an hour they worked industriously to effect an entrance, and all this time these inside sentinels stood with their guns well charged to receive them. From fright or some other cause, the burglars left, much to the regret of the gentlemen within, who were calculating on bagging them.

ATTEMPTED BURGLARY .- On Tuesday night last, Mr. Elias Carr, residing in Goldsboro', was awakened by the noise of some one endeavoring to break into his house. He seized his pistol and started to the door, but on the way the weapon was accidentally discharged, and the burglar or burglars were frightened away.

ILLNESS OF GOVERNOR WORTH.-We regret to state, says the Raleigh Sentinel of Saturday, that his Excellency, Gov. Worth, who has been confined to his house, in a great measure, for weeks past, by indisposition, was quite sick on yesterday. We sincerely trust that he may be speedily restored to his wonted vigorous health.

NEW PAPER.—The Plaindealer is the name of a new weekly paper, just started at Wilson, as a successor to the Carolinian. It is edited by C. S. McDaniel and gives excellent promise.

RELIEVED.-Capt. J. R. Turnbull, of Warrens paper, now published daily at Raleigh. ton, after a period of several years suffering, from minnie ball, has had it extracted. It was cut out of the back in the region of the last lumbar vertebra. The operation was performed by Dr. Geo. A. Foote.

Nobly Generous .- A correspondent of the Warrenton Courier mentions the fact that, with a liberality rarely equalled, Col. Wharton J. Green, of that county, devotes a considerable portion of his ample income to the education of the poor white children of the county. At his own personal cost, he defrays all the expenses of two free schools, and at the same time contributes to supply the most needy with clothing. This is, in-

Business in Waldon .- The Roangke News says a decided improvement is being felt in the business community there and with the farmers owing to the advanced prices in cotton. We hope there is much cotton in the country yet, as the amount passing this point continues unabated. We would not advise those still having it on hand to hold, as this policy is dangerous.

ROBBERY .- Mr. Charles F. Bahnson's jewelry shop, at Farmington, Davie county, was entered on Sunday night, and robbed of twenty-five watches, all his tools, and some other articles. The watches were in the shop for repairs, among them some very fine.

MANUFACTURER'S CONVENTION .- There will be a Convention held in Danbury, Stokes county on next Friday the 7th day of February, of the To-bacco Manufacturers, Distillers, and Tobacco Planters, for the purpose of memorializing Con-gress to reduce the taxes so they can be able to make a support for themselves and families.

PERSONAL.-Ex. Governor Vance and Gen. R. E. Colston, were in Raleigh on Friday last, stopping at the Yarborough House.

A NEW SHERIFF.-Mr. R. K. Ferrell, of Raleigh, has been appointed Sheriff of Wake county, vice E. H. Ray, Esq., the present incumbent, who had resigned the position.

CONVENTION. - The State Conservative Convention meets in Raleigh on to-morrow, (Wednesday.) It is thought that the attendance will be a very full one.

A COLORED MAN SHOT .- A colored man by the name of Gus. Baker, in company with another, whose name is not known, was on last Wednesday night, badly wounded near Weldon. would appear that the two had planned a raid on the corn crib of Col. Nick Long, and were shot at and Baker wounded by some person near by. The wound was inflicted by buckshot, which passed into the body just below the shoulder blade, coming out beneath the arm pit, and lodging in the arm, thereby inflicting a very painful. though not necessarily dangerous wound. He was properly cared for by Drs. Davis and John.

SHOE FACTORY. - The Salem Press gives the following account of a visit to a new shoe manufactory just established in that town:

By invitation, we visited the Shoe Factory of essrs. Vogler & Co., and saw the wonderful operation of pegging shoes, by the most approved machinery of the kind now in use in the New England States. The operation of pegging a pair of brogans was performed in an almost in credibly short space of time, and exceedingly well done. Specimens of stitching "uppers" by ma-chinery were also shown us, which cannot be sur-passed for neatness and durability. The material used in this establishment is of excellent quality, and the ready-made shoes we examined will compare favorably with any brought to this market. Mr. Vogler very politely explained the whole operation of the varied machinery pertaining to this manufactory, complete in all its parts. The firm have three experienced Northern men besides a number of our own native mechanics employed, and the calculation is to manufacture

FIRE NEAR RALEIGH .- The North Carolinian says: We learn that the dwelling house, kitchen. smoke house and one or two outhouses on the plantation belonging to W. D. Williams, Esq., four miles west of Raleigh, were destroyed by fire on Monday night. The houses were all vacant but as passing wagoners have been in the habit of camping at this place for some time, the fire is supposed to have originated from their

### LETTER FROM AMERICUS.

[Correspondence of the Post.]

RALEIGH, N. C., Feb. 1st, 1868. The Convention is at work in earnest, all its members seem to feel the importance, of stand any chance in Constantinople. The making as soon as possible, a liberal con- man would starve. Who would pay any stitution to be submitted to the people as attention to attractions like his among the soon after as practicable. I say a liberal Constitution for such is the tone of the Convention. While all their rights and priveleges as citizens will be fully guaranteed the colored race, I am inclined to the opinion that it will also contain universal amnesty to all, in other words, universal suffrage and the presence of a man with fingers on his universal amnesty. Quite a number of delegates were elected on that platform and very many elected as radicals favor it, such no upper lip, and his under jaw gone, come as Mr. Pool, of Pasquotank, Mr. Rodman, of down in his majesty? Bismillah! The Beaufort and Tourgee, of Guilford. Sent in sealed letter envelopes free of in use. Wh have and shall continue to use it. the Convention and the ordinance offered by of Pera and Stamboul. Mr. Rodman, of Beaufort, is now before the Convention but will not pass. All feel the necessity of relief in some form, but just what they cannot agree upon. It having been decided that Legislative work would be entertained by the convention, Gen. Abbott, of your County introduced an ordinance for the relief of the W. C. & R. R. R. asking the State to endorse a million dollars worth of its bonds. The Railroad promising on its part to retire a million and a half of the four million of its Bonds authorised by the last Legislature. Whether this ordinance becomes a law or not, Gen. Abbott and his friends may feel justly proud of the effort he has made in its behalf and he will receive as he has the thanks of Col. Cowan and all others interested in the welfare of the Road; and here let me add New Hanover may be justly proud of its representation in this Convention. Gen. Abbott, as chairman of the Finance Committee and second on the Committee of Internal Improvements, has made a reputation for himself, second to none in the Convention. I may say he stands preeminent, and carries with him more influence than any other member of the convention. Mr. Ashley, as chairman of the Educational Committee is at home, his reply to Mr. Durham, the gallon since last report. leader of the Copperhead party, on taxation and representation, on Tuesday last, ranks him among the ablest debaters on the floor. Galloway is the ablest colored man in the Convention. The "North Carolinian" has removed

from Wilson to this city, and makes its first appearance as a daily. It is very sore and chafes over the publication in the "Post" of the letter sent it by one Bernard of your city. I give it four months to live; it is the vilest and most abusive sheet in the State and with its degraded puppy, "Jeff Lee," will soon sink into oblivion. The Copperhead Convention meets in this city Feb. 5th, and even now you can recognize in town the rebel chiefs preparing in advance food for its rank and file, Wm. H. Graham, Judge Merriman, and many others. They are thus far disappointed at the action of the Convention, hoping as they did that ere this time it would have given it some capital to work on, as their own stock in trade is exhausted, instead of going directly forward with the work of organization as they are doing. As it is they can only send forth are doing. As it is they can only send forth a platform of the Seymour, Pendleton, Vallandigham stripe, and much good may it do them, for if the Convention makes a liberal Constitution as I believe they will, it will be carried by forty thousand majority in North Carolina. I see in town prominent men from all parts of the State and all are confident of an overwhelming majority

for the Constitution. The Republican State Convention has been called for Feb. 26th, and it is hoped your section of the State will be well represented. New Hanover is entitled to six votes in the Convention, but it is expected she will send many more to represent her.
It is expected the Convention will adjourn about the first of March,

The Fiddler.

BY RICE BIRD.

There are many kinds of fiddlers in the world. Some that always make you dance or sing, and some-don't. But the fiddler I 10 or 15 years; it is of a light brown or beautiful wish to speak of to day is one whose first name is sand. He lives in a hole in the ground at low water mark, where the tide ebbs and flows twice every twenty-four hours. and generally goes home when he sees the tide coming in. He is rather a crab bed looking chap, wears light gray clothes and always runs side ways. It don't make any difference to him which side, for if you come to him on one side, he always runs the other way. He has on an average two claws, but one is so large he has to carry it on his back. and the other one quite small. In many places in North Carolina, the sand fiddler is never seen, but in some places the wanderer suddenly discovers a large family of them running in all directions, except straight Requires immediate attention, and should be shead. When you try to catch him, he runs the faster, and just as you put your hand on him, he disappears down a hole, and is lost to sight, where he remains in retirement until he reappears. His food must consist principally of sand, as he always has a hole to run into, and there is no corresponding mediate relief. For Bronchitis, Asthma, Cahill to mark the disposition of the superfluous sand. He was never known to do any hard work and spends his time at low tide in playing along the shore. He is occasionally captured by rude boys and sacrificed for bait which is used to entice the flony tribe from their cheerful homes, but as a steady thing he is of no account.

I suppose the fiddlers average about 63 to the square foot, surface measure, and if we estimate those in the holes at 31 there would be about 10 to the cubic foot which may be near the truth. Now suppose these uneasy animals occupy 4 feet in width of the soil. there would be at the above estimate 213,-320 sand fiddlers to the mile of shore on our sounds, all living and enjoying our fine climate with no expense to themselves.

I hope this article will be read by some enterprising Yankee who will come down here and by employing this vast number of idle vagrants, help to develope the resources of North Carolina.

A. WHITING, Esq., Dear Sir:—I have used your Eureka Powders in my Saw Manufactory and I find it very good for polishing on a wheel, but as a Polisher I find it makes a lustre 50 per cent. better than Emory, or anything I have ever used, and with much less labor, which preserves all articles from tarnishing, and from my expe-

New York, Oct. 16, 1866. Sir :- I have given your Eureka Polisher, etc. a critical test, and can say with Mr. Warner, that it is very far superior to Emory. It works quick and requires but little labor, and gives a most beautiful and lasting lustre, and is very economical. I do most cheerfully recommend it, and shall use it in all my works.
