Congratulatory.

The Republicans have carried this county For Constitution, 2,032 Against do 1,173 by a handsome majority. In spite of all threats of proscription and danger, the colored people have nobly stood to the principles of Freedom. The Conservative T. S. Ashe, who boasts of "negro conservatives" must hereafter "sing small."

It will be noticed in the official returns E. D. Hall, in another column, that Mr. Hewlett, in spite of the Journal fraudulent canard that he was a Conservative, has kept up with his B. Craven, ticket, and is one of the Commissioners of this county.

The selection of our county ticket is good, T. C. Fuller, and we have no doubt but they will give entire satisfaction to the people, with the exception of certain disappointed office seekers, and bitter partizan papers which make charges they cannot substantiate, and find fault with any man who honestly differs with them in opinion.

To the mass of the people of this county we say, the result will be satisfactory, and J. D. Taylor, when the new legislature arrange the laws, and these gentlemen assume their offices, the people will be pleased with the changes, and business will be transacted much more expeditiously than at present.

The newly elected officers will compare very favorably with the old ones, in all cases, and in some instances they are altogether superior.

Our Conservative friends will find that they will be always treated with respect, and that strict impartiality will be exercised in the discharge of official duties; and this is an unanswerable argument in favor of our ticket, even if it had nothing else to recommend it.

Our selection of Senators is good, and Messrs. Galloway and Legg will undoubted- O. Fennel, Jr, ly represent their constituents with ability.

Generals Abbott, Estes and Mr. Price, who represent this county in the House of Representatives are perfectly satisfactory to even the Conservatives themselves.

and will discharge the arduous and often disagreeable duties of Sheriff, with ability.

Mr. Birney, will make a much better Coroner than we have had since the close of Mr. Wilson, the Treasurer of the County,

is called to fill an office unknown here. His election therefore being considered an innovation, has met with some opposition .-He may congratulate himself, however, npon his large popular vote, and will discharge his duties carefully and conscientiously.

Major Mann, as Superior Court Clerk, will perform his duties with strict impartiality.

Mr. Waldron, as Register of Deeds, will give entire satisfaction, as he is eminently fitted for the place.

Major Rhoades has had many years experience as a Surveyor, and the citizens will, we think, be satisfied that he performs his duty correctly.

Messrs. Shoemaker, Garris, Keyes, Hewlett and Wilson, the new Commissioners are well qualified to perform the duties to be 1867 :assigned them.

As a whole, the ticket is good, and our citizens will agree with us before their term of office expires.

WE copy the following special from this city. It is a sample of what is sent over the

wires: WILMINGTON, N. C., April 23.—The Radical majority in this city is 862, being 135 over the registered majority, caused by strange negroes swearing they had registered gone 540 majority, ed elsewhere in the State. The negroes are Good for her! very disorderly to-night, shouting, firing pistols on the streets, and otherwise disturbing the peace. Both parties are confident of the result. There has been considerable

betting to-day. WILMINGTON, N. C., April 22.—The election is progressing quietly. The Conservatives are gaining ground. At Stump Sound precinct, in this county, up to four o'clock yesterday, out of 46 negro votes 45 were for the Conservative ticket.

WE heard of a noted Conservative, yesterday, who publicly declared that Gen. Canby could be bought for five thousand dollars. He can't well do it.

Our despatches to-night place the ratification of the Constitution beyond a question. Read the good news in our telegraphic col-

THE World to-day almost leads us to hope for the acquittal of Mr. Johnson. It announces that if he is convicted he will stump the country and become a Peter the Hermit the meeting. in a crusade against radicalism. The recollection of the Chicago tour is enough to appal one in the face of such a prospect. Seriously, we believe nothing of the sort.
When Mr. Johnson retires from office he will be taken up by no party, and without a par-ty this man is nothing. We would not be surprised if he remained perfectly quiet, anomalous as the fact may appear .- Brooklyn Union.

A Rumor has been prevalent in Memphis that one of the heretofore rebel papers was losing money by its political course, and was about to come out in favor of General Grant.

MR. EDITOR: I am very much annoyed for fear somebody won't see my name in the papers, and believing that it is a matter of great interest to your readers and a matter of news; and that you need something to cheer your drooping spirits, and that the people all over the State, are wondering how I voted, and that the dutchmen fear I am not sound on the goose, and that I don't know whether I am or not, and that I always want to be found on the popular and A. 3.-Rotten and worm-caten-is now ready at respectable side: I beg you will oblige me her dock to receive passengers, for the above ports. Will sail in a few days. by publishing my little

> Card. Whereas it has been thought on the street and in the Halls of Congress, that I had voted a Democratic-Conscriptive-Conservative-Confederate-Secession ticket, against the Constitution, I hereby pronounce it an INFERNAL LIE!!!!! I aint any such man! I am always on the big side!

Now, Mr. Editor, you will very naturally ask me what is the use of publishing such a ridiculous notice; and I will tell you. You see, a man called on me the other day, that has a mortgage on my farm, and said, "Mr. Bird, I understand you voted against the Constitution, and I want my money." Now you know, Mr. Editor, that it is a most ridiculous joke to ask a man for money now-adays, and I told him so. "But, sir," said he, "why did you vote against my wishes? You knew I was a Republican." Oh dear, said , I didn't never mean to do no such thing not once-I am with the "Klux." "Well, then," said he, "I don't want my money today, you can keep it as long as you choose, but there are a lot more men coming to you for the money you owe them, and if you wish to save yourself, you had better publish a card in the Post." So I took his advice, and now you know it.

Perhaps you think, with your independent mind, that you know something about this voting business, but I assure you that you know nothing about it! If a man peddles rags or pork in this city and is known to have voted against the respectable ticket, he is in danger of entirely loosing the sale of his rags!! I want to sell mine and hence

I received a note from Andy Johnson, askng me how I had voted, and if I wanted the agency of the Constitution and 36 star flag down here, but I told him we had all been sold on that dodge, and I could not work off any more. There is to be a Cabinet meeting Monday to consider the effect of my rote, and also Mr. Tienken's' and Mr. Doare's and Mr. Hans Spifkenzinburgiens' and Mr. Slonarkinstraus.

Is the country safe?

This is truly the "age of progress," and the American people are, beyond doubt, far ahead Oregon has just imported sixty thousand of all others. This is clearly demonstrated by an American invention.

In this branch of manufacture the EMPIRE New York City, stands pre-eminent. Their "Improved Manufacturing Machine," has no rival. It is built on sound mechanical principles —is simple in construction—easily understood, and not liable to get out of order.

Its sewing qualities, particularly on cloth and leather, cannot be equalled: and as such we re-commend it to our friends and the public gener-ally.

EGYPTIAN CORN!

Auspicium melioris ævi. Bo. na fide Quid pro quo!

The subscriber offers to farmers throughout

EGYPTIAN CORN,

which, upon trial, was found to ripen, planted even the last of July. It is estimated, from its very prolific qualities, to yield 150 bushels per acre, and weighs, by sealed measure, 65 pounds to the bushel. This corn was produced by some procured direct from Mr. Jones, our consular agent, directly on his return from Egypt.

It needs no different culture from that of other varieties, and in the South, two groves can be

er varieties, and in the South two crops can be raised in one season on the same ground. It saws in the form or a tree, and thirty-four ears have grown upon one stock, andit will average from five to fifteen. For domestic use it is unparalleled. When ground and properly bolted, it is equal in color and fineness to wheaten flour. As a forage crop, by sowing in drills, or broad-cast, for early feed, there is no kind of corn so well adapted to milch cows, and none that will yield half the value in stalk or corn.

It can be successfully grown in any State.
I give the most satisfactory references that the corn is, in every respect, what I represent it to be; and, further, I am the only person throughout the country who has this variety of corn. Having secured a quantity, I am now able to fill all orders for those desirous of testing it.

TERMS,

In order that all may receive seed, we have reduced the price to \$1 50 a package. Any person who will get up a club of five will receive a package gratis. Fifteen packages for \$10; fifty packages for \$20; one hundred packages for \$30. One package will contain enough to plant the following season from 20 to 30 acres; also directions for planting and cultivating.

TO SHINGLE MANUFACTURERS.

THE undersigned offers for sale the patent right to manufacture and use in any of the Southern States, the

MILLER SHINGLE MACHINE, which is one of the best machines for sawing shingles, in use.

This machine was patented on the 13th of July, 1858, and has been much improved since; but owing to the war, has not been introduced into the South. It is adapted for Staves as well as shingles, cutting them even, or with any taper desired.

The saw first enters the bolts on the side, and consequently turns out better work than can be done by most other machines. It is simple in its construction, not liable to get out of repair, and is built entirely of iron.

It occupies a space of four feet by six, but can be built of any size, the ones now in use being for staves or shingles from 33 inches down.

COUNTY or STATE RIGHTS FOR SALE ON Very Liberal Terms.

Machines can be manufactured in this city, where all the patterns are on hand, if desired.

A machine can be seen in operation at the subscriber's mill, on Castle street wharf. For further particulars, address or call upon J. C. MANN,
