

WILMINGTON POST.

WILMINGTON, N. C., MAY 1, 1888.

THE Journal gets off another small storm of indignation about that card it published purporting to be from Mr. Hewlett, and we will now give the facts, as they occurred and let our readers see whether their manner of dealing in political affairs is "A 1."

After Mr. TAYLOR withdrew from our ticket, which he did in a formal note, to the Chairman of our County Committee, the Journal published a card from him denying any sympathy with the Republican party to which we made no reply as we were aware that THE CHURCH in his district had taken upon its christian shoulders the duty of dictating to a man's conscience. We do not believe he wrote the card as it appeared in the Journal, because it had so great a similarity to others in the same paper. But having no proofs we made no reply.

So much for Mr. Journal.

[From the Newbern Journal of Commerce.]

Terrible Tragedy.

There reaches us from an entirely reliable source, the painful intelligence that on Saturday night last, the Sheriff of Pitt County, accompanied by several soldiers, proceeded to the house of Reddick Carney to arrest a son of that gentleman, upon a charge homicide several months since. They reached Mr. Carney's at midnight, and demanded a surrender, which was promptly refused, and the attempt to break into the house was resisted, and firing on both sides commenced. George, a young Carney, was killed; Mr. Whitehurst, son-in-law of Reddick Carney, was severely, if not mortally wounded; Reddick Carney and Miss Perkins, daughter of William Perkins, who were spending the night at Mr. Carney's are supposed to have been burnt in the house, fired by the attacking party. The dwelling and smoke house, with all the provisions were consumed, and the officer shot through the flesh part of the arm. Mr. Whitehurst was captured, and Mrs. Carney and her daughter, Mrs. Whitehurst, escaped from the burning building.

The Sheriff carried Mr. Whitehurst to Greenville, and this ended one of the most bloody episodes of this age, in Eastern North Carolina.

We recollect distinctly the charge made months ago that young Carney had killed an officer who had attempted to go up an upstairs when warned not to do so; but thought the case had been adjudicated long since. It is remarkable that the attempt to arrest him should have been made at a dead hour of the night, when it is well known that he has been in the habit, openly and frequently, of going to Greenville, and other public places in the country, for months past.

This tragedy is a most unfortunate one, but illustrates most forcibly the unsettled condition of the country under Radical rule. If the Sheriff had the necessary authority, it was his duty to make the arrest, and public opinion in Pitt will either approve or condemn his course, so soon as all the facts are known. The case should be promptly investigated, and the facts elicited and published, for the vindication of the cause of truth.

Will the Journal of Commerce tell us whether it justifies the resistance of the law and also why this is the result of Radical rule. We never supposed that a Conservative even was allowed to commit murder, under any rule. Perhaps our unconstructive Editors can inform us why they always find fault with whatever is done to suppress violence.

The Star publishes what purports to be the obligation of the Union League. We have heard a great deal about the horrible oaths binding the colored people to vote the Radical ticket. Perhaps the Star man can point out the place where this incendiary language comes in. We have just pointed this form of obligation, and we are unable to see it.

We are requested by DUKE DAVIS, Sr., to state that it has been reported that he had voted twice at the late election, and that Col. Davis, of the Percell House, had discharged him for voting; both of which statements he pronounces false.

CHARLES MALLETT, the man who threw the ink on Col. DAVIS some weeks ago, must not be confounded with CHARLES MALLETT, the son of old BILLY COCHRAN, who is well known as an honest drayman.

CHARLES MALLETT, the son of BILLY, is a painter, and pays strict attention to his own line of business. He has been discharged from his business on account of his political opinions.

THE following is the official vote of South Carolina, as published by Gen. CANBY: Total number registered, 133,507 for Constitution, 70,758 against do, 27,288

Maj'y for Constitution, 43,470 Total vote cast, 98,046 Number not voting, 35,551

NEWS IN BRIEF.

The news from Abyssinia and Australia caused great rejoicing in England. In the House of Lords, yesterday, an address of sympathy to the Queen in relation to the recent assault upon Prince Alfred was voted. In the House of Commons, Mr. Disraeli spoke upon the achievements of the Abyssinia expedition, and subsequently the members went into committee of the whole, and discussed the Irish Church question.

The trial of the alleged Clerkenwell conspirators has terminated. Barrett was found guilty. His fellow-prisoners were acquitted. The man Barry, who is charged with attempting to fire Buckingham Palace, was examined and remanded for trial. The compound found in his possession was phosphorus. The third session of the North German Parliament was yesterday opened with a speech by King William. The assailant of Prince Alfred has been tried, convicted and sentenced to death.

The official count shows that the Connecticut State Senate will consist of 19 Republicans and 9 Democrats. The House will have 129 Republicans and 109 Democrats. There will be some five hundred independent delegates to the Chicago Convention from New England. Lieut. Gen. Sherman announces that the Armies of the Tennessee, Cumberland, Ohio, and Georgia, will meet together in Chicago on the 15th and 16th of December next. The object is purely social, and the design is to preserve the memories and friendships of the war.

Addresses will be delivered on the evening of the first day, and a grand banquet will be given on the night of the 16th. An extensive tannery was destroyed by fire at Alleghany, Penn., involving a loss of \$50,000. During the progress of the fire twenty men were engaged in throwing leather from the third story, when two barrels of fish oil exploded on the ground, causing the men to jump from the windows. Two of them were injured so severely that their recovery is doubtful, and six others were more or less injured. President Johnson has pardoned Samuel H. Wentz, who about a year ago, confessed to having embezzled the funds of the National Mechanics Bank of Baltimore, and was sentenced to six years' imprisonment for the offence. He was released on Saturday.

The recent very severe storm in Georgia and neighboring States, which has not had its equal for many years, greatly interrupted railroad travel on all the various lines. On the Atlantic and Gulf Railroad great damage was done, but it will soon be in working order again. On the 16th inst. Gen. BUCHANAN issued an order annulling the result of the election in Texas in February last, and notifying the delegates elected to the Convention to meet in Austin on the 15th of June next, for the purpose of framing a constitution and civil government. The Committee who had investigated the financial condition of the Florence Mills of Rockville, Conn., report that their indebtedness is \$276,619, and their assets but \$103,371. Their real estate and machinery are mortgaged for 121,000, and nothing more could be realized at sale, although they cost \$15,000. The proposition presented is to give the notes of the mills at six, twelve, eighteen and twenty-four months for thirty-five per cent. A little girl aged about eight years, daughter of Levi Sanders, of Pond Hill, N. Y., was found on Saturday near her father's residence with her throat cut and life extinct. Her person had been horribly outraged. A half-witted boy named Wm. H. Carswell is supposed to have committed the murder and has been arrested.

WASHINGTON ITEMS.

From the Philadelphia Post. WASHINGTON, April 27. The floor of the Senate chamber was filled early to-day, a large number of members of the House being present. Senator Nye appeared in his seat, for the first time since his illness. The first business was Mr. Edmunds' motion to admit official reporters after arguments are concluded, and while the doors are closed for final deliberation. Mr. Williams proposed an amendment "that no Senator shall speak more than once, and not to exceed fifteen minutes during such deliberation," which was agreed to. Mr. Howard then moved a further amendment "that each Senator should speak but fifteen minutes upon one question." Upon this a division was demanded, and it was lost by 19 to 30. The Republicans voting in the affirmative were Messrs. Fessenden, Fowler, Frelinghuysen, Grimes, Howard, Trumbull, and Wiley. Mr. Anthony to allow each Senator to speak thirty minutes, instead of fifteen minutes. This was also lost by 16 to 36. The Republicans voting in the affirmative were Messrs. Corbett, Fessenden, Fowler, and Grimes. On motion of Senator Morton the further consideration of the subject was postponed till after the arguments are concluded, and Mr. Sumner's motions and his amendments to the rules were also postponed until after the arguments, at his own request. Manager Stevens then took the floor and commenced reading his speech, standing at the clerk's desk, at 12:30 P. M. Mr. Stevens read from printed slips and showed considerable strength for some minutes, but after proceeding some twenty minutes he was obliged to give way from ex-

haustion, and General Butler finished the reading. Mr. Williams then proceeded to read his argument from manuscript pages closely written. At four o'clock he asked for an adjournment. He will consume the first two hours of tomorrow's session in finishing his argument. It is expected that Mr. Everts will follow and occupy the remainder of the day and Wednesday. Mr. Bingham will require Thursday and Friday for the delivery of the concluding argument for the Managers. It does not seem to be settled yet whether Mr. Stanbery will deliver his argument or merely file it, but that he is prepared one is certain. There was quite a large number of visitors at the Executive Mansion to-day, many of whom called to pay their respects to the President. Secretary Seward, General Hancock, and Senator Dixon had interviews with the President during the day. For this week ending Tuesday, May 8, over two hundred and ninety patents will be issued from the Patent Office. During the past week five hundred and four applications of eighty-eight inventors were filed.

STATEMENT

Of the average Republican and Democratic vote for Members of the Convention at the Election held on the 19th and 20th days of November, 1887:

Table with columns: Election Districts, Average Republican Vote, Average Democratic Vote. Lists districts like Burke and McDowell, Roman and Davie, etc., with corresponding vote counts.

OFFICIAL RETURNS OF ELECTIONS.

FROM THE HALEIGH STANDARD.

Table with columns: Counties, For Con., Ag't Con. Lists counties like Craven, Jones, Lenoir, Wayne, etc., with vote counts.

Some of the above majorities are reported, but the above table will be found very correct. Fifteen counties remain to be heard from, which will increase the Republican majority. Raleigh, April 23rd, 1888.

This is truly the "age of progress," and the American people are, beyond doubt, far ahead of all others. This is clearly demonstrated by the Sewing Machine which is, strictly speaking, an American invention. In this branch of manufacture the EMPIRE SEWING MACHINE CO., office 618 Broadway, New York City, stands pre-eminent. Their "Improved Manufacturing Machine," has no rival. It is built on sound mechanical principles—is simple in construction—easily understood, and not liable to get out of order.

Its sewing qualities, particularly on cloth and leather, cannot be equalled; and as such we recommend it to our friends and the public generally. E. S. M. Co. (In 21)

EGYPTIAN CORN!

Auspicious melioris est. Roma fide Quid pro quo!

The subscriber offers to farmers throughout the country the

EGYPTIAN CORN,

which, upon trial, was found to ripen, planted even the last of July. It is estimated, from its very prolific qualities, to yield 150 bushels per acre, and weighs, by standard measure, 75 pounds to the bushel. This corn was produced by a farmer who procured direct from Mr. Jones, our consular agent, directly on his return from Egypt.

It needs no different culture from that of other varieties, and there is no kind of corn so well adapted to rich soils, and none that will yield half the value in stalk or corn.

It can be successfully grown in any State. I give the most satisfactory references that the corn is in every respect, what I represent it to be; and, further, I am the only person throughout the country who has this variety of corn. Having secured a quantity, I am now able to fill all orders for those desirous of testing it.

TERMS.

In order that all may receive seed, we have reduced the price to \$1 50 a package. Any person who will get up a club of five will receive a package gratis. For clubs of ten, \$10; fifty packages for \$30; one hundred packages for \$50. One package will contain enough to plant the following season from 20 to 30 acres; also directions for planting and cultivating.

TO SHINGLE MANUFACTURERS.

The undersigned offers for sale the patent right to manufacture and use in any of the Southern States, the

MILLER SHINGLE MACHINE,

which is one of the best machines for sawing shingles, in use.

This machine was patented on the 13th of July, 1858, and has been much improved, since that time, and is now in use in all the Southern States. It is adapted for staves as well as shingles, cutting them even, or with any desired taper.

The saw first enters the bolts on the side, and consequently turns out better work than can be done by most other machines. It is simple in construction, not liable to get out of repair, and built entirely of iron.

It occupies a space of four feet by six, but can be built of any size, the ones now in use being for staves or shingles from 33 inches down.

COUNTY OR STATE RIGHTS

FOR SALE ON VERY LIBERAL TERMS.

Machines can be manufactured in this city, where all the patterns are on hand, if desired.

A machine can be seen in operation at the subscriber's mill, on Castle street wharf. For particulars, address or call upon
