THE CONVENTION.

The members elect to the Constitutional Convention, met in Raleigh on Monday, 6th inst., promptly at 12 "clock, and was called to order by Judge Thomas Settle, Associate Justice of the Supreme Court. The swearing in of the members was immediately began and carried on without interruption except in cases where contests were pending, and these were all adjusted of the admission of the parties bearing the sheriff's certificate. As roon as this was concluded, the Convention proceeded to ballot for a President. Hon. O. H. Dockers, being placed in nomination by the Republicans and In Edward Ransom, by the Democrats. The result was 58 votes for Dockery, 59 for Ransom, 1 for Reid and 1 for Wheeler. These two last being voted for by the candidates. Another ballot was taken with the same result, when the Convention adjourned until Tuesday at 10 o'clock. At the appointed hour the Convention assembled, was called to order and the balloting resumed, which was continued until the fourteenth ballot, when Dr. Ransom by voting for himself, was declared elected to that position, was sworn in and took the Chair. On Wednesday the Convention completed its organization by electing Democrats to fill the various positions necessary consideration the mortification it must to that end.

When it became apparent that the lican, political complexion of the Conventon rested entirely with one man, the eres of the people of the whole State, we may say, were turned upon him, and numerous were the conjectures as to how he would dispose of the grave responsibility which he found resting upon him. The Democrats certainly had nothing to expect at his hands, while the Republicans had every reason to believe that he would not desert them. Having acted with them for years, and having been honored by them with their confidence, they felt that they had much to hope for, not withstanding that he was this time elected as an independent candidate. We do not believe that Dr. Ransom has pursued the course he has taken from any mercenary motives, but we feel that he has acted conscientiously, knowing as we do, that it was merely the matter of immediate adjournment that for the time being, separated him from his party. In all other matters that may come before the Convention, we believe he will yote with the Republican side of that assembly. We feel that there is nothing which has transpired either in the result of the election, or the formation of the Convention, that should cause a feeling of despondency among the members of the Republican party. They have been overwhelmingly victorious, and that cannot be denied. They have carried the State by a popular vote of at least 15,000. They elected a majority of the delegates to the Convention, but by the most glaring frauds were cheated out of at least two of them. The good working majority that the Democrats so carnestly hope for, can in no event exceed two, and this will not certainly embolden them to make any very oppressive changes in our organic law. They have a check upon them in that body which they cannot override, and we do not believe they will attempt it. The people have spoken and they fear them.

WILMINGTON, NORTH CAROLINA, FRIDAY, SEPTEMBER 10, 1875.

Have the people ever seen a more disgusting thing to the morals of a State than for a man after stealing a piece of property to brag about it .-That is the way of the Democrutic party to-day; every one who had anything to do with the outrage in Robeson county is a political thief, and the receiver of the stolen goods is no better than the thief. The Democratic party in North Carolina has been tried and found guilty of larceny, and if they do not receive their punishment

MOUSE VS. RAT. - On Tuesday evenlast Justice IIill issued a writ at the request of a "mouse" employed on the Journal for the arrest of a "rat" in the same employ, charging him with "assault and battery." or rather with using words towards him which implied the same thing. The trial took place at the Justice's office at 6 o'clock, who upon hearing the evidence, dismissed the case upon the defendant's paying a fine of one dollar and costs, which aggregated \$5 25. The "rat" stoutly maintained that his threats were all in fun, but as the justice could see no room for fun in threatening to knock a "mouse" down with the handle of a press, let him off as above. The "rat" forked, over

"Drones" are not him in as he entered and to open it when so ordered. The Jailor entered and brought the woman to the door and gave the boy notice to unlock it, which he did, when just at this moment the Jailor was grasped from behind by two muscular prisoners, named Levi Pope and Jesse Nixon, who were given the liberty of the passage with the other prisouers, and thrown violently on his back on the floor, and before he could recover, the two above mentioned with six others made a rush for the

door, prostrating both woman and boy and made a successful escape. The ailor in mediately gave the alarm, in fact he succeeded in capturing one of them before he could leave the premises, and following on horseback, with the deputy sheriff, and a number of citizens, succeeded in capturing four, which with the one taken in the yard by the Jailor made five out of nine captured before night, which speaks well for the energy displayed by those in pursuit. GOVERNOR BROGDEN.

We had the pleasure of calling ot our excellent and much esteemed friend Gov. Curtis H. Brogden while in Raleigh a few days ago. The Governor is looking well, and no wonder, a man who has as many good and true friends as he should never be sick. He certainly is one of the very best Executive officers the State has ever had, and the satisfactory manner in which he fills the position of Governor will long be State.

Many of the best men in North Carolina are very seriously talking of him for Vice-President, and if he desires it, there is no reason why he should not be nominated. He certainly enjoys the confidence of his party and his State. During the whole of his long life no act of his has ever soiled the history of this commonwealth, and his mother if alive, could to-day embrace him and truly say, "my son you have never committed an act that put your mother to shame, and thou hast carried out a wother's instructions. You have been true to your God, your country and rounelf" And what is also true of Gov. Brogden, he never was beaten for any office. He has always been true to his party and those are the men to Errowt.

SWALL Pox .- One case of this disease has made its appearance in our city. The victim is a little child in a family that has lately arrived here from Philadelphia, and the disease is believed to have been contracted there. Every precaution has been taken by the city authorities to confine it to its present limits, and we are of the opinion that there is no cause for alarm on the part of our citizens.
