Last week we gave a history of the "Rise and Progress" of the Democratic party in this State. We hope to live until after November, that we may record its "fall."

We were somewhat particular with

reference to the origin of the party which now glories in the name of Demperatic. We told that the party which now goes by that name was not so ned in 1868. It has appropriated the name within the last year. The State Executive Committee last year, ccording to the Charlotte Democrat ped the "numeaning title Consertive." It was necessary in the outset alizing influence over the purity of the to have a name which would not be offemilye to old Whigs. They were inveigled into the Democratic party unawares. Look at the State ticket.

Zebulon B. Vance, for Governor This man was a Confederate Colonel. He wanted to fight the yankees until "Hell should freeze over, and then fight duty and to country! " volta let?" them on the ice." After he became the Governor during the war, it is said that the crueltics and barbarities which were practiced upon Union people, both male and female, under his sanction, find no parallel even in the tortures of th Court House. This may appear to Spanish inquisition. Do the Southern many as a very extravagant assertion, Democracy take the Northern people for a set of fools? Do they suppor that windy speeches, and firing of caunon will blind their eyes to what they are doing?

Thomas J. Jarvis, Democratic candidate for Lieut, Governor, was a Cap tain in the Confederate army, and when a member of the Legislature in 1868-'9 was said to have been a prominent member of the Ku-Klux-Klan.

Thos. S. Kenan, Democratic candi date for Attorney General, was Colonel in the Confederate army.

Dr. J. M. Worth, Democrat'e car didate for State Treasurer did not shed much blood in behalf of the lost cause, city and town charters, with a view of giving over every city and town in the but gave it all the "aid and comfort" which lay in his power.

As for Scarbotough, the candidate for Superintendent of Public Instruction, we do not suppose any body outside of Johnston county ever heard of him before, and consequently we can't

give his " Pedigree." If we are not mistaken, Mr. Love the candidate for Auditor, held some position in the Confederate army. Here there is the Democratic Confederate State ticket, with which the Democracy intend to convince the Northern people of their loyalty. Do these men confess that they done wrong in taking up arms against the Federal Government? Not they. On the contrary, they glory in what they have done, and denounce all those as traitors who did not follow their example. This is not all. These men actually hate the Union now worse than the did in 1860 and nothing but the strong arm of power keeps them in subjection to Federal authority. Let these men get control of the State Government, and in the langurge of their leader Vance, " will be more tolerable for Sodom and Gomorrab, than for Union men, Carpet baggers and Scalawags."

Not only do we see this clement of disloyalty predominate in the State ticket, but we see the same thing su the Congressional nominations. changes in the organic law of the

In order however, to effect whose views were at all moderate, was thrown overboard to make room for plish indirectly what they were afraid Col. Walter L. Is this the way to develop a Union sentiment at the South? Only reward those who were conspicuous Union destroyers, and who are now the side of her house and retailing any nest class Union haters.

We cannot shut our eves to this State of things. We know that Democracy will out do all others in professions of love and devotion to country during the coming canvass, but by actions it will only show its hate of everything which does not shed the tear of surrous over the grave of the lost cause.

> SEC TRANSIT GLORIA MUNDI. General William R. Cox, late Brigadier in the service of the Confederate States, and later still a candidate for nominee for the second place on the Democratic State ticket, and a martyr that he might become a nominee, was left out in the cold ... He is defunct. He is in politics nil. His sweetness has been wasted on the desert air. With the exception of the faint praise with which he was dathned by the Ashevitle Citizen there was none so poor as do him reverence. As Chairman of the Democratic State Executive Committee he was not a success. Henknew too much about poor plundering Pool's rascalities and kept them covered up too long. The thing was too fishy. It was tainted and emitted too unpleasant an odor for even the strong stomach of the buzzard democracy to stand. Poor Cox. Poor Martyr. And his martyrdom all in vain, too, and he didn't get the nomination. Even the spotted small boy Jarvis, from Pitt county, slipped in shead of him. But the Convention did the next best thing for him. They continued him by special request as Chairman of their Executive Committee, and they let him go to Saint Louis T E WHII PING POST IN VIRas a lobby delegate to drink whiskey

By the time he returns to Raleigh the ideas that he may have of the whipping post. Gov. Kemper's entertained by his personal notoriety will have co-aporated. The occan of his importance will have dwindled into from their bleeding backs, the marks a most insignificant duck puddle. As he passes into the obscurity of his quiet | and forever be a brand by which they little life, in his quiet little back office, in a quiet little back street in Raleigh, we wave him a kindly adien. Farewell, Cox, Farewell. As a pettitogging lawyer he was tolerable-he use to gather in several four dollar fees, and in his quiet county home he was equal to the emergencies that were sprung upon him. As a Martyr he proved a complete failure. As Chairman of his party's Executive Committee he broke down completely, and the sun of his ambition-the desire to be considered a politician and to be Lieutenant Governor of North Carolina has set in darkness forever. The Post tays him aside gently. Farewell, Cox.

The Raleigh Fentinel is rough on its loafers. It tells of an old lady that once lived in Milton and kept a boarding house, who badle scalded a coupl of young bloods who were holding up amount of scandal; and the Sentine eries out for the old lady to "wake from her grave and open a boarding house in Baleigh." If any money is to be made by scalding loafers and loungers, and the old lady from Milton will only "wake" and go into the busi ness, she will accumulate a large fortune in a very short time by "opening out" with her boarding house any where on Front street in Wilmington between the Purcell House and the opener of Market street. A targe harvest could be reaped in that neighborhood.
