A FOOLISH SIN.

The Star of Tuesday morning gave the sensation of editorial interference to a statement in which it is difficult to say whether knavery or folly most predominated. It was to the effect that Judge Settle said that President Grant gave his opinion that the result of the electoral commission would be to "assist in" Tilden.

Any person capable of putting two and two together, must know this statement is untrue. Every person who is not even capable of making such a mental effort as adding one and one, would know that Judge Settle would not do such a thing, and the opinion of the President being given him, to any one connected with the Star newspaper.

The knavery of the Star's statement made in the writer knowing it to be untrue, and the folly in supposing anybody would be deceived.

AMERICAN CITIZENS ORGANIZED.

The manner in which members of the Louisiana Returning Board are treated, is a disgrace to the nation.

Washington, Feb. 6.—The manner in which Messrs. Wells and Anderson, of the Louisiana Returning Board, are treated by the Sergeant at Arms of the House is an outrage upon individual rights and common decency which would not be tolerated by the lowest police court in America toward the meaneast vagrant charged with crime.

The officers of the House having these two men in custody seem to make it a study to put every possible indignity upon them, and there are good grounds for saying that this is done by direction of leading Democrats like Field and Hewitt, who are conducting the prosecution of Wells and his associates.

Kennedy and Cassane, the colored members of the board, are provided with comparatively comfortable quarters, being confined in the room of the committee on Territories. Wells and Anderson are in a dungeon in the crypt, shut out from all sunlight, with closely barred windows, through which no pure air ever penetrates. The walls are damp and slimy, and the air is foul and nauseating by reason of gas escaping from broken pipes. This inhuman treatment is aggravated by the fact that Mr. Wells is a man of over 70 years of age. No one is allowed to communicate with the prisoners, and they are guarded so strictly as though they were felons awaiting capital punishment. On Saturday last Mr. Wilson, a member of the House, from Iowa, hearing of this cruel treatment, concluded to visit Mr. Wells and Mr. Anderson to ascertain if the story of their imprisonment was true. Upon reaching the dungeon he was denied admission by the jailer. He then visited the office of the Sergeant at Arms, and in company with the chief Deputy, again repaired to the dungeon in which the prisoners are incarcerated. The jailer refused him permission to see them, after which Mr. Wilson waited upon Speaker Randall, informed him of the outrage being permitted under his authority, and demanded that permission be granted for him to visit Mr. Wells. Speaker Randall professed to be surprised at the intelligence conveyed to him and gave a preliminary order for Mr. Wilson to be admitted to see the prisoners, and promised to have them removed to more comfortable quarters. This promise, however, up to tonight, has not been

Speaker Randall professed to be surprised at the intelligence conveyed to him and gave a preliminary order for Mr. Wilson to be admitted to see the prisoners, and promised to have them removed to more comfortable quarters. This promise, however, up to tonight, has not been

fulfilled. Until yesterday Mr. Wells had not been permitted to leave his cell, except to go to the committee room in obedience to the summons of Mr. Field. Yesterday, in consequence of the protest of one of Mr. Wells' friends, Sergeant at Arms Thompson issued an order to permit him to walk around the Capitol grounds in company with his jailer, this being the only opportunity offered him for enjoying fresh air and exercise since his confinement.

Mr. Wells and Anderson are guarded so closely that all letters addressed to them are withheld, and even while in the committee room no one is permitted to speak to them on any subject, excepting in the presence and hearing of a Deputy Sergeant at Arms. The Republicans have just learned of this outrageous brutality on the part of the officers of Congress, and it is probable it will be brought to the attention of the House and the country to-morrow. It is quite certain that Sergeant at Arms Thompson would not treat the persons in the manner described unless by instructions from prominent leaders on the Democratic side. The counsel for Wells and Anderson talk to night about applying to the court for a writ of habeas corpus.

NEW BOOKS.

"Lash, or, The Forsaken," a Love Story, by Dr. Mosenhal, is published by T. B. Peterson & Brothers, Philadelphia. For sale at P. Heinsberger's Live Book Store, Wilmington, N. C.

Whitefriars, or, the Days and Times of Charles the Second, by the author of "Whitehall, or, the Days and Times of Oliver Cromwell," is one of the best historical novels ever printed, and is published by T. B. Peterson & Brothers, Philadelphia. For sale at P. Heinsberger's Live Book and Music Store, Wilmington, N. C.

"Rupert Hall," is a new story from the pen of Mrs. Henry Wood, the author of "East Lynne," "Edina," and other works written by this gifted authoress, and is published this day by T. B. Peterson & Brothers, Philadelphia. The story opens in an attractive manner, the plot is ingenious, but natural, and is worked out with a skill that never allows the interest of the reader to flag, for it is full of dramatic incidents, and is fascinating throughout. For sale at P. Heinsberger's Live Book and Music Store, Wilmington, N. C.

Peterson's Magazine for March opens with an exquisite steel engraving, "Coming Home," which is alone worth the price of the number. This is followed by a double-sized colored fashion plate, with five figures, a very beautiful affair. Then comes a colored pattern for a tidy on Java canvas, then a charming engraving, "The Past Excursion," and then some forty other illustrations of fashions, work table patterns, &c., &c. The stories are unusually good this month. Back numbers, to January inclusive, can always be furnished. Address Charles J. Peterson, 306 Chestnut Street, Philadelphia, Pa.

"Cyrilla" is a charming love story, exquisitely written, while the characters are original, and is one of those novels which will continue to be read, like those of Scott and Dickens, for all future generations. The author of it is the "Baroness Tauphoebus," author of the world-renowned work, "The Initiale," and is a daughter of the celebrated Lord Erskine, formerly Lord High Chancellor of England. Educated in Great Britain, but since her marriage to a German nobleman, residing on the Continent, she depicts life with rare fidelity. Published in a large octavo volume, paper cover, with the edges cut open all round, price seventy-five cents, and is for sale by all book-sellers, or copies of it will be sent to any one, to any place, at once, on their remitting the price of it in a letter, to the Publishers, T. B. Peterson & Bros., Philadelphia, Pa. For sale at P. Heinsberger's Live Book Store.

The Mayor's court, for the past week, has been dealing out justice to the wicked, plentifully, and will continue to do so, as long as people do wrong. The police have positive instructions to arrest every person who, in any way, commits an act that comes under any ordinance of the city.
A gentleman, a genuine Republican, came to our city during the past week with a raft of turpentine, and the first investment he made was to subscribe for the WILMINGTON POST for the year 1877. He says he don't like to be without the Post, as it affords him great pleasure, especially for Sunday reading.

The Mayor has discharged as a policeman in the past week for various offences, and has appointed others in their places. We are glad to see an improvement in the looks and quality of the police. He has appointed two Sergeants, N. Carr and J. J. Forest, both of them excellent officers. From the way the Mayor is dealing with incompetent policemen, as well as the thieves of our city, we may expect to hear no more of robberies at night.

We understand that the Cane Fiber Works, in the lower part of the city, will be in operation as soon as all the mechanical arrangements are completed, which will give employment to numbers of our citizens, and they will halt the starting of the works with joy. They expect to give employment to a large number of hands, from the cutting of the cane by the stamps, to the final preparation of the fibre for paper. We wish them every success.

We hope that the City Marshal will visit the East side of Second street near Market, Saturday night at any time after dark, and listen to the obscene and vulgar language used by those who congregate there. The sidewalk is simply impassable at times, and many persons who desire to pass through Second street are compelled to go a square out of their way, to get clear of the disgusting scenes.

Hon. Daniel L. Russell, attorney at law, has been retained by the Commissioners of the Western N. C. Railroad, to defend the suit now pending in the Supreme Court of the United States—Southern Express Company vs. W. N. C. R. R., for money loaned said Road in 1860, amounting to \$20,000. The Commissioners believe the debt is hard, as the Road was sold under an execution by order of the U. S. District Court, and is now owned by an entirely new Company.

The able argument made by Judge Russell before his Honor, Judge Dick, in the above case, is spoken of very highly. We truly believe that Judge Russell is, to-day, the most able attorney practicing at the Bar, in North Carolina.

Frank Leslie's Popular Monthly has taken rank as the largest, most liberally illustrated, and cheapest family magazine of general reading. Its pages are large, typography beautiful and clear, engravings first-class, and its price is within the reach of all classes. We have in the February Number acceptable articles from the pens of the ablest writers, including A. H. Gaensser, Leonard Scott, Alfred Tennyson, Robert Morris, L. L. D., J. E. Morse, United States Navy, Professor C. A. Joy, and others of known ability. Its 128 beautiful pages, 100 illustrations and able contributions furnished for 20 cents, give it the largest circulation of any monthly published in America. Those of our readers who reside at a distance from book stores and newsdealers, will do well to send \$2.50, the subscription price, to Frank Leslie, 537 Pearl Street, New York, and receive the Monthly for one year, postage free.

The following cases were tried before the Mayor's Court since the 1st of February:

Selling liquor on Sunday.	6
Drunkenness.	4
Larceny.	4
Disorderly conduct.	2
Selling liquor without a license.	6
Violation of general tax ordinance.	2
Assault and battery.	1
Police men discharged.	1
Allowing a dangerous dog to run at large.	1
Obstructing streets with vehicles.	3
Falling to appear at court after giving bond.	1
Total.	50

The three cases of larceny were bound over to the next term of Superior Court, and in four of the cases, selling liquor on Sunday, the parties appealed to the Supreme Court, under justified bonds.

The aggregate amount of fines and costs in the above cases was \$230.50. Only one case found not guilty. In five cases judgment was not rendered, the cases being continued.

The cultivation of hay in our Southern country is an established fact. Dr. J. E. Winants has devoted several years to the preparation of his fields for that purpose, and the crop that was gathered during the Summer of 1876, has satisfied the most skeptical. The Doctor says that the demand for his hay has been greater than he could supply. He says he is not troubled with the high tides, as he has a steam pump which will drain his lands in a short time of all surface water. Let the owners of the fields on the Cape Fear follow the example of the Doctor and with him reap a rich harvest both of hay and money.

"I am willing to risk my reputation as a public man," wrote Edward Hine to the Liverpool Mercury, "if the worst case of smeltpox could be cured in three days, simply by the use of cream of tartar. One ounce of cream of tartar dissolved in a pint of water, drank at intervals, when cold, is a certain, never failing remedy. It has cured thousands, never leaves a mark, never causes blindness and avoids tedious lingering." Horse-radish is said to be a simple and effectual remedy for neuralgia. Grate and mix in vinegar, the same as for table purposes, and apply to the temple when the face or head is affected, or the wrist when the pain is in the arm or shoulder.

BAR AND RIVER IMPROVEMENTS.

WILMINGTON, Feb. 5, 1877.
A. H. Van Bokkelen, Esq., President of the Chamber of Commerce.
SIR—Your committee made a visit of inspection to the public works for improving the harbor on the 21st instant, and have the honor to report that since their report of the 25th of August last, in fact, since June last, the work has been entirely suspended, owing to the political difficulties in which the country has been unfortunately involved—the appropriation of \$132,500 made by the last Congress not having been approved and definitely confirmed until December, when it was cut down to \$100,000 by the Secretary of War. Your committee have been agreeably surprised to find that the apron which had been laid across the Inlet remained intact as it was placed, not having received any damage from the report, but rather strengthened and secured by a covering of sand.

At Federal Point the sand is accumulating, the beach washing up over the marsh. The two points of shoal alluded to in a former report continue to extend Southward into the Inlet.

Zek's Island (so called) has lost entirely its identity as such, having been thoroughly annexed and incorporated into Smith's Island beach. No obstacle or difficulty now exists in walking dry-foot of straight along the ocean shore south from the Inlet to the Cape, at any time of tide. The inner beach of Zek's Island point has followed the apron on further than last reported, say 100 feet, owing to the stone being irregularly placed, admitting the passage of small currents of water which prevents the accumulating sand from following the apron. This will be obviated in a few days.

Form Zek's Point, at the apron, the shore line has extended considerably both inward and outward, particularly the latter, the connecting strand of beach being bare at high tide for a quarter of a mile or more seaward; and between this and the old beach point, in front of the old breakwater, the shoals are accumulating in a very satisfactory manner. The old breakwater connecting Zek's Island with the beach south, in a good condition, stronger and more secure than it has ever been. The storm of September last took off about 150 feet of the upper wooden superstructure which had been weakened by worms, but doing the work no material injury, as the beach is quite wide in front, and entirely above high water, and in the rear the sand has accumulated almost to high water, the entire length. From the best information we could obtain Bald Head shoal has depreciated since last reported, about one foot, and the outlet has slightly moved westward.

Snow's Marsh channel has also depreciated about three feet in the upper part of it produced, no doubt, by the action of the currents, as stated in our last report; nine feet at low tide is all that can be claimed for it now. Big Island shoals remain as last reported.

In October last a contract was made by the Supervisor with Messrs. Bangs & Dolly, for placing stone upon the apron across the Inlet up to low water line, owing to the severity of the winter during the winter this year, and other circumstances, this work was not commenced until a few days ago, and up to this time five flat loads, of about 100 cubic yards each, have been placed in position; the money as expended being barely sufficient to accomplish that part of the contract. In carrying it up to the finishing point above high water, or for dredging for the improvement or preservation of either the outer bar, Snow's Marsh channel, or the upper shoals, all of which it is the utmost importance to prosecute with energy and without delay to secure the work that has been and is to be done, and to restore to the inlet the depth of water which existed prior to the suspension of work in June last. We therefore earnestly recommend that steps be taken at once for securing the balance of the appropriation made by the last Congress, and proceeding at once to the next appropriation session to preserve the work for a successful issue.

We further recommend that an investigation be made as to the propriety of asking of Congress a special appropriation, sufficient for the construction and equipment of a suction dredge, of the most approved modern style, for use upon the Cape Fear river, which may afterwards be used at any other point requiring it.

It is clearly evident that the unparalleled success which has attended the operations for improving the harbor, and the experience here obtained, will effect a revolution to a greater or less extent in the system of harbor improvements on the Atlantic coast at least, and that at no distant day, the present, therefore, affords a favorable occasion for introducing a more perfect system. We think it feasible to experiment with the same, in the case of a similar case, and therefore recommend a thorough investigation of the subject, with such action as may be deemed proper.

All of which is respectfully submitted.

Bank of New Hanover.

Pursuant to notice the regular annual meeting of the Stockholders of the Bank of New Hanover was held this day at their Banking House.

The meeting was called to order by the President, on whose motion A. H. Neff, Esq., was called to the Chair and Robert Hanna, Esq., requested to act as Secretary. A Committee was then appointed to ascertain the amount of stock represented, and their reporting that there were 3,108 shares represented in person and 3,500 by proxy, the Chairman declared that the meeting was ready for business, as a majority of the 12,000 shares of the Bank was represented.

The minutes of the previous meeting were read and approved.

The President of the Bank then made a report stating, among other things, that although the past year had not been a very favorable one for the general business of the country, the business of the Bank had been steadily progressing, the amount of deposits being much in excess of what they have ever been heretofore, and had declared two semi-annual dividends of four per cent. each and had made no losses whatever during the year. He submitted a detailed report on the condition of the Bank and each of its branches.

On motion the report of the President was received and adopted.

On motion an election of directors for the ensuing year, was taken into A. W. Atkinson and William Calder being appointed tellers, resulting in the election of the old Board, unanimously as follows: L. B. Granger, John Dawson, D. B. Mitchell, D. J. McKee, H. Volkers, R. R. Brubaker, W. Atkinson, C. M. Statham, J. A. Lee, B. F. Little, E. R. Eaden, M. Webb.

On motion the meeting adjourned.

A. H. NEFF, Chairman.
Robert Hanna, Secretary.

Wilmington, N. C., Feb. 5, 1877.

The above is a very just and complimentary one of the ablest financiers in North Carolina, or we may say, in the South. Captain L. B. Granger, after serving as President of the Bank for six years, has again been unanimously elected. His compliment is to be more appreciated by Capt. Granger and his friends, when it is taken into consideration that the management of the stockholder of the Bank are of the most substantial financial men in the State. North Carolina, in the hands of Capt. Granger, by his careful management, has made his stockholders large and liberal every year, and his report shows the Bank to be in an excellent condition.

First-class board of directors, headed at Messrs. Colville & Fernald, 100 and 102 of Walnut street.
