H. KENNEDY, Business Manager.

Mr. Grant has declined a reception in Birmingham until after his return from the Continent. He paid his respects to the queen at Windsor on Thursday.

The English Ministry seem to be satisfied with their relations with Russia. The Earl Derby says that "frankness has been met by frankness, and the result is a conviction that the war, for which we may hope the speediest termination, ought not to endanger the friendly relations between England and Russia." When a statesman as able as Mr. Northcote, the present Chancellor of the Exchequer, declares that the course of Russia is satisfactory to England, we may expect practically the continuance of England on the Russian side of the war.

THE WAR NEWS—CROSSING THE DANUBE.

On our last issue the long expected simultaneous movement has crossed the Danube at several points. We make our summary from the general press dispatches as best we are able.

LONDON, June 21.

The Daily News Ibrail correspondent, explaining Friday, sends long details explaining how the crossing was effected.

Gen. Gortchakoff at Ibrail completed a bridge undisturbed by the Turks. Early on Thursday the crossing was completed, both on account of the delay in the Czar's arrival and because a large force of Turkish troops had been discovered in ambush not far from the bridge. However, Gen. Gortchakoff suddenly disappeared from Ibrail during the night, and on morning a little after daybreak the people of Ibrail were awakened by the sound of artillery and musketry on the other side of the river, showing that the Danube must have been crossed.

Gen. Zimmermann had gone to Galatz and crossed the Danube, with two regiments of infantry and a proportionate amount of artillery and cavalry, in a number of boats towed over by steam launches. The distance traversed in boats seems to have been over three miles. The Turks probably were taken by surprise, as usual. Although there was a good deal of artillery and musketry fire, they do not seem to have made a very stubborn resistance.

THE VIENNA DISPATCH.

The Vienna correspondent, Friday evening, says: "This morning the wounded came in, and continued to do so all day. Judging from the number of ambulances the wounded brought back are not less than three hundred. Accounts of the action vary much, and it is impossible to get reliable information. Roumanian officers say the Russians who tried to land at the edge of a lake near the village of Tchetchilla were fired on before they touched the shore, and then met with heavy volleys. From five to six thousand Russians crossed with eight cannons. At 10 o'clock the Russians gave up the attempt to gain possession of the road leading to Tchetchilla over the hills, finding a grove near the village filled with Turks. They, therefore, retired to a hill beyond the road and ravine, and attacked a battery, capturing it late in the afternoon. The first landing was a hand-to-hand conflict.

The first man killed was a young Russian officer. He sprang ashore and was shot through the forehead. The object of the crossing and action at Galatz was to protect the greater crossing at Ibrail. The News' Ibrail correspondent, telegraphing Friday, says it is evident that the great crossing will begin to-morrow at daylight. The whole Russian force here will cross on the bridge, and the Russians will thus establish themselves firmly on the other side of the Danube. As there is now a whole army corps here, there is a sufficient number of troops to maintain themselves and even take the offensive. The other crossings, provided this one succeeds to-morrow, will be comparatively easy.

The Russian tactics now will be to

push the force here forward as rapidly as possible to the Dobrudzha extending a hand to the Russian forces on the way up the Danube. This will enable the force at Hirsova to cross without difficulty, and on proceeding higher up it can likewise extend a hand to the other forces at Kalarash and even Oltenitz. Should the Turks detach a force from about Ruscchuk and Nikopolis sufficient to stop its progress they will so weaken their line at this point that the Russian troops between Giurgevo and Turnu-Magurelli would be able to cross with comparatively little loss.

Later accounts from Ibrail agree with the Galatz correspondent in showing that the fighting was serious at the crossing opposite Galatz.

An Ibrail correspondent, telegraphing at 10 o'clock Friday night, says: A Russian doctor who crossed with the first detachment of eight hundred, informs me he does not believe out of this number twenty are left alive or unhurt.

The news correspondent at Itzani, under date of June 22, says: "On the night of the 23d instant 1,500 infantry crossed at Beni, 200 in front of Galatz. On the 21st 2,500 crossed during the day with cannon, and reinforcements afterwards arrived from Beni, and Galatz. Eight thousand Russians participated in the occupation of the heights commanding Matchin."

The Daily News' special from Bucharest Sunday night estimates that 11,000 Russians have crossed at Galatz and Ibrail. It appears that the Turks made an attempt to cross from Lampanaka into Little Wallachia during yesterday night. The details are unknown. The Times' special from Bucharest says news has been received here that Tulcha and Isaktcha have been evacuated by the Turkish troops, and the civil authorities have retired to Baba Dagh.

The Daily News' dispatch from Vienna Sunday night says on the 23d 16,000 Russians received orders to move to Girja, northwest from Kalafat. Large convoys of provisions have been sent to Severin. The coming week promises to be an important one.

The Times Vienna dispatch says news of operations for crossing the Turnu-Magurelli and Simitza section of the river is more rightly expected.

OFFICIAL ACCOUNT OF THE RECENT ENGAGEMENT—DEFEAT OF THE TURKS.

[By Cable to the Washington (Republican)]

ST. PETERSBURG, June 24.—An official account of the engagement fought by the troops who crossed from Galatz and occupied the Budjah heights says the Russian force consisted of ten companies of infantry, who crossed in boats and were received by a heavy fire. They, however, valiantly attacked the heights, and drove back the enemy. The Turkish force consisted of 3,000 infantry, 300 cavalry and two guns. The Russians having no cavalry or artillery were obliged to resist the Turkish cavalry with the bayonet. The Turks withdrew on the arrival of Russian reinforcements and artillery. The Russian losses were forty-eight killed and ninety wounded. General Zimmerman telegraphs that the clergy and Christian inhabitants of Matchin received the Russians with great ceremony. One regiment is already in the town, and will be reinforced by a brigade under General Tokoff.

MONTENEGRO.

LONDON, June 25.—The Times' correspondent at Cetinje telegraphs the following: "The Turkish losses are absolutely incalculable. All Sunday afternoon artillery and rifles have been firing on the column as it moves down the valley. The pursuit will be kept up until the column reaches the projection of the guns of Spuz, while it has still to run the gantlet of Plamenatz's division at Martinitsa."

The Vienna correspondent of the Times says the Montenegrins are said to have lost almost one-seventh of their force. Especially the insurgent bands appear to have suffered very severely. Numbers of Montenegrins are beginning to cross over to Cattaro and Budna, so that it has been thought advisable to strengthen the cordon along the frontier.

A dispatch from Constantinople of June 24 says an official dispatch from Podgoritz announces that the united divisions of Suliman Pasha and Ali Saib are successfully advancing on Montenegro. The Montenegrins have evacuated Cetinje. Three thousand wounded have been removed thence to Cattaro.

INDICATIONS OF A JUNCTION BETWEEN THE RUSSIAN LEFT AND CENTRE—THE CAPTURE OF BAJAZID.

LONDON, June 24.—In Asia the most important strategical event has been the re-establishment of the connection between the Russian left and centre, as proved by the fact that in the previ-

ous battle the Zeidekan left was strongly reinforced from the centre. All known of subsequent operations has been contained in our previous telegrams.

Further accounts from Turkish sources relative to the capture of Bajazid state that the Russian garrison have entrenched themselves near the town.

Reuter's dispatch from Bajazid, June 15, says the Russians, in an engagement between Bajazid and Indiesen, were defeated with the loss of 450 cavalry and 100 infantry.

LONDON, June 25.—A telegram to the Standard from Constantinople direct asserts that Dervish Pasha on Saturday attacked the Russians investing Batoum, and drove them from the heights.

ANOTHER BATTLE IN ASIA MINOR.

LONDON, June 25.—Reuter's Telegram Company has received the following dispatch from Erzeroum: "After the battle of Zeidekan, on June 16, the Turks, having fallen back on Delibaba, the Russian left wing took possession of the Delibaba Pass and fortified it. The Russian right wing having retired somewhat. Mukhtar Pasha telegraphed to Rachtid Pasha to join him with nine of the 12 battalions forming the Turkish left wing. Mukhtar quitted his head-quarters at Zewin, on the night of June 17, for Delibaba, to take command of the Turkish right wing in person. On the following day he received reinforcements, which raised the strength of the right wing to 19 battalions, four cavalry regiments, and three batteries. The Russians in the Delibaba Pass numbered 20,000, with five batteries. Several skirmishes were fought on June 20. On the 21st Mukhtar attacked the pass. The fighting lasted from 6 o'clock in the morning until 8 in the evening. The Russians were at first driven from their positions, but they afterwards recaptured them and attacked the Turkish positions on the heights with charges of infantry and cavalry. The Turkish front gave way for a short time, but afterwards rallied, charged the Russians and drove them back. The Turks then opened a terrible artillery fire and compelled the Russians to fall back with heavy loss. The Turks acknowledge a loss of 400 killed and about the same number wounded. It is reckoned the Russian losses were at least double."

On the 22d Mukhtar again fought a severe battle. The Russian cavalry were placed in an entrenchment to act as infantry, but ultimately the Turks drove them out and pursued them, the Russians retreating in disorder as far as Zeidekah.

The whole of the fighting lasted 33 hours. The Turkish loss according to the latest accounts was upward of 2,000, and the Russian much heavier.

THE OPERATIONS ON THE DANUBE.

LONDON, June 25.—The Times' Vienna special says: "Simultaneously with the crossing into the Dobrudzha, news comes of a general movement of the Russian troops between Slatina and Alexandria down the Danube, between Turnu-Magurelli and Simitza, the Ninth Army Corps, which forms the extreme right of the Russian Army, leading the way."

Reuter's dispatch from Shuaba says the bombardment of Ruscchuk, which was commenced by the Russians, continues with great vigor.

A special dispatch from Bucharest to the Times, dated Sunday, says: "Preliminary operations on the Danube have commenced in earnest. Bombardments continued along the whole line to-day, including the batteries at Olteniza, Beket, Grahova and Kalafat. The Turks are reported to be preparing to concentrate their forces on the Lower Danube, and the fortresses forming the quadrilateral—Ruscchuk, Salistra, Shuaba and Varna—leaving the Widoin force isolated."

LONDON, June 26.—The Standard has the following dispatch from Vienna: "It is supposed the Czar will leave Bucharest for Alexandria to be present at the crossing thereabouts, which is expected either on Tuesday or Thursday. A fearful contest is expected at Ruscchuk. There are 800 cases of typhoid in the Russian hospitals."

The Post's Bucharest special says the corps now entering the Dobrudzha is ordered to advance as quickly as possible up to the line of the Czernavoda and Kustendje Railway. After their arrival the right wing of the centre Army will force a passage higher up the stream.

A Daily News special, dated Vienna Monday night says: "The Russians have made a second crossing at Hirsova. A force of 18,000 men passed over, and has effected a junction with detachments coming from Matchin, and will to-morrow march against the Turkish line of defence between Czernavoda and Kustendje. The Turks are making great exertions to defend the line along Trajan's Wall, between Czerna-

voda and Kustendje, which has been strengthened by recent fortifications throughout its entire length. Relative to the bombardment which is now progressing between Ruscchuk and Giurgevo, both sides make the usual charges of inhumanity."

LONDON, June 26.—The Czar has left for Giurgevo. Prince Gortschakoff has arrived in Bucharest, accompanied by the staff of the Russian Chancellery.

Up to Monday 28,000 Russians had crossed the Danube at Ibrail.

The Daily News has the following from Ruscchuk, Monday: "The entire population are flying into the neighboring villages. The Governor-General of the province has declared that he holds the authorities responsible for the lives of the fugitives, who are mostly Christians. Twelve shells have fallen upon the military hospitals, five upon the civil hospital, and two upon the Orphan Asylum. The patients were seized with a panic, and have left their beds. The Turks in return partly destroyed Giurgevo. Seven hundred shells fell there yesterday and 800 today. One Russian battery has been dismounted. The Russians apparently meditate a serious attempt to capture the island of Pyrgos."

At Ruscchuk the consulates of France, Italy, Greece, Germany, and Belgium have been injured by the Russian fire.

A Ruscchuk dispatch of June 26 says: "The bombardment of this place continued all yesterday. English agents report that the English consulate, which had a large Union Jack floating, seems to have been singled out for a concentrated fire, and was completely destroyed."

A Constantinople dispatch says: "It is asserted that the English Consul at Ruscchuk, who also acts for the United States, unavailingly endeavored to avert the Russian fire by hoisting the American flag."

THE ASIA MINOR CAMPAIGN.

LONDON, June 26.—The Telegraph's Delibaba special confirms Reuter's account of the fighting on the 21st and 22d inst., published this morning. It also says that both sides having been reinforced, there was a third day's fighting, when the Russians again fell back.

THE SUEZ CANAL.

LONDON, June 26.—A special dispatch from Alexandria, Egypt, published in the second edition of the News says: "The report recently published of the conspiracy to blow up the Suez Canal was based on authentic information, but the Khedive is taking effective measures to prevent such an attempt on land, while a Sea Police is being organized under the command of two English officers."

LONDON, June 27.—The latest advices report that the Russian centre has been reinforced by the 20th Division from Kars. Eighteen thousand men, detached from the centre, have advanced to Sarakamisch. The Turkish centre, also reinforced by a division of eighteen battalions, has advanced two miles in front of Zervin, where the Ottoman headquarters still remain. The Turkish right is still reported to be investing the Russian left.

Intelligence received at Erzeroum states that the Russian bombardment of Kars is slackening.

A dispatch to the Times from Cetinje, dated yesterday, says: "The Montenegrin army is concentrated in a very strong position opposite Spuz and Padoritz. The morale seems to be good. The Prince is determined to fight for every foot of ground should the Turks advance on Montenegrin territory."

CITY ITEMS.

Frank Leslie's Popular Monthly for July is one of the best numbers of the work yet issued. Its articles, beautifully and liberally illustrated, are timely, highly interesting and instructive, especially "Russia and Turkey, their War Strength, Sovereignty, etc." by Wm. Staughton Chase; "The West End of Paris;" "Malta;" "Mrs. Gen. Gaines;" "The Great Grain Movement," etc., etc. In addition it contains innumerable paragraphs on various interesting subjects—something for everybody—besides the usual number of short select stories by popular and gifted authors, and which are really captivating. This magazine of 128 pages and 100 illustrations must, in view of its actually being the cheapest publication of the kind in existence and at the same time one of the most select and universally welcome, continue to increase in public favor, and rank with the publisher's Sunday Magazine, the highest among all our American monthlies. The Popular Monthly may be obtained for \$2.50, and the Sunday Magazine for \$3.00, for one year, postpaid, from Frank Leslie's Publishing House, 537 Pearl street, New York.

Col. E. M. Rosefy of Smithville has been summoned to Washington to be examined for a clerkship in the Interior Department as a translator of five different languages. Captain Rosefy is perfectly competent, and while there are about thirty others to compete, we feel assured that he will come out all right. We wish him happiness and success wherever he goes.

COL. JNO. R. DAVIS.—This gentleman leased a building some ten years ago and opened a hotel known as the Purcell House, which he has conducted in such a manner as to make it a credit to the city. Previous to that time the city had never possessed a first class hotel. Colonel Davis being an old hotel man, in fact he knows all about "keeping a hotel," he has done it with great credit to himself and his adopted city, and we are sorry to learn that he contemplates leaving us soon, having about completed arrangements for the lease of the National Hotel at Norfolk. We hope our citizens will yet make an effort to retain Col. Davis; it will be a great loss to our city to let him go. A good hotel is necessary to a prosperous city, and that we now have and will continue to have as long as Col. Davis is kept here. He should be retained, even though our citizens should have to purchase the Purcell House and give it to him free of rent—steps should be taken at once to stop his further efforts to get away. Our citizens will be sorry if he goes, and then they will learn to appreciate the man, but it will be too late. If he should go we wish him every success a man of energy and perseverance should receive.

Dr. M. J. DeRosset performed an operation on ex-Marshall Price's eye last week, which was in every way successful. Persons who spend hundreds of dollars to visit New York and Philadelphia, when they have anything the matter with an eye or ear, instead of having it operated on here, where it can be done as well, if not better, than in those places, are simply anxious to spend money and time foolishly. Marshall Price says it gave him very little pain, and he continued at his work without trouble.

Maj. J. A. Anderson, Superintendent of the Wilmington, Columbia & Augusta railroad for many years, has resigned, and it is rumored that Captain John P. Divine has been tendered, and will accept the appointment. There could be no better appointment made, and we congratulate the company on securing so able and competent a gentleman. Capt. Divine has been Superintendent of the Wilmington & Weldon railroad for the past six years, and the condition of the road shows for itself, his capacity as a railroad man. It is rumored that he is to be Superintendent of both roads. With Hon. R. R. Bridgers as President and Captain Jno. F. Divine as Superintendent, the roads are bound to prosper.

We again call the attention of the health(y) officers of our "City by the Sea" to the open sewer on west side of Third street, between Market and Princeton streets, it is a disgrace to allow it to remain in its present condition. We have been reliably informed that the stench arising from the said sewer, in warm, damp weather, is so intolerably bad as to compel persons living in that vicinity to close their doors and windows to keep out the foul air. We call for a committee of investigation, composed of those gentlemen who wear the yellow cockades, and whose duty it is to nose into such matters, to decide what shall be done in this particular case.

THE EXCURSION ON THE FOURTH OF JULY—A NATIONAL HOLIDAY.—The members of the Hanover Light Infantry propose to give an excursion on Wednesday next, the 4th inst., on the steamer Underhill, to Smithville and the forts, the proceeds to be devoted to purchasing uniforms for their organization. Our colored citizen soldiery have been assisted in Raleigh and Fayetteville, let not Wilmington be behind. A first class colored company is desirable in our city, and the Hanover Light Infantry deserve that honor. Under the command of Capt. Geo. L. Mabson, our citizens will feel assured that the organization will be a success and an ornament to our city. Let our white and colored citizens help it.

It seems as though some of the Democrats are not happy. They say some of the Board have voted for negroes for positions in the city government. Why, gentlemen, we are reliably informed that every Alderman, with the exception of Alderman Bowden, has voted for colored men for positions on the force, as janitor and health officers, there is where they have shown their good judgment. We do not believe that Aldermen Flanner and Myers are any the worse for voting for old uncle William Phinney for janitor, if, in doing so, they did vote against Democrats. Nor do we think any the less of Aldermen VonGlahn and Voller for voting for a few colored policemen. We congratulate all four of these gentlemen on having the independence to do what they thought proper. Continue, Aldermen in your good works, and we will ever commend you.
