PROSPECTUS FOR 1871. FOURTH YEAR.

Size of Page Changed, and Attractions vastly Increased.

THE ALDINE:

An Illustrated Monthly Journal of 16 pages, claimed to be the handsomest Paper in the World. "Give my love to the artist workman of The Aldine who are striving to make their profession worthy of admiration for beauty, as it has always been for usefulness."—Henry Wood Becher.

The object of The Aldine is to furnish a medium which shall be a fit exponent of progress, and of the beautiful in Printing and the kindred arts. The latest and most improved machinery and the highest order of mechanical and artistic talent shall be taxed to the utmost to produce a sheet—such as nearly as possible—perfect in typography and illustration. While it is intended that the appearance shall be unexceptionable, pains will be spared to keep the literary matter, original and selected, equal to the best. The unequalled excellence of the Wood-Cut illustrations published in the pages of The Aldine has elicited the commendation of the European as well as the American press, and has been hailed as the commencement of a new era in the history of Illustrated Journals. The present issue contains the most beautiful specimens from the pencils and gravers of the foremost artists of the world; and while the illustrations may be counted by scores, the volume shall contain nothing that is not of permanent value as a work of art. The experience of the past year demonstrates that there are many persons throughout the country whose cultivated taste in matters literary and artistic lead them to a peculiar appreciation of this enterprise, and the publishers appeal to that class for the active sympathy and financial support so necessary to success, and to a full recognition of the scope and usefulness of The Aldine. Let each well-wisher send in at least one subscription, and influence others to do likewise.

TERMS: One Copy, four months.....\$1 00 One Copy, one year.....\$2 50 Five Copies.....\$7 50 Specimen copies, by Mail, post-paid, 35c. The publishers will send free the beautiful colored "DIXIE." A PREMIUM TO EVERY SUBSCRIBER who remits \$3.50 for one year's subscription, and, in addition, will send the wonderful Christmas Number, printed in colors, and containing over fifty illustrations, to all who remitting \$3.50 is received before the edition is exhausted. Special Prospectus and Circulars to those wishing to canvass, or get up clubs will be mailed on application. The Aldine contains articles of the very highest merit, art or workmanship, many of which are offered by no other paper. Steinway, Weber and Chickering Pianos; Mason & Hamlin's, Smith's, and Estey's Parlor Organs; Waltham Watches; Gold and silver cases, made expressly for us by the American Watch Co., of Waltham, Chronos, Rogers' Statuettes, Works Illustrated by Dore, &c. Or, liberal CASH DISCOUNTS to all who interest themselves in getting subscribers for The Aldine. Send for Circular. JAMES SUTTON & CO., 23 Liberty Street, New York.
