REGISTER! REGISTER! REGISTER!-Remember that only two days more after today (Thursday the 2d of May), are left in which to register. Let every Republican voter remember this and fail not to go and register his vote in his ward without the least delay. Remember also that you can-We want rain very much; unless it comes not register on election day and those not registered cannot vote unless they become 21 years old on that day.

> Any person desirous of being rewarded by the name of public benefactor, should put up a pump or drinking fountain in Market street or Front street, where man and beast might refresh themselves. It is a lamentable fact, that down town people have to go hundreds of yards even for drinking water, and then depend for it only on the kindness of private property owners. Give us water works throughout the city. Now is the time need is most felt, water nowhere and everybody thirsty. Who speaks first?

The tax-listers are through. Messrs. James & Brown have just finished a new block book, containing every lot and block and every sub-division of the lots. So close have these gentlemen come that within the whole city limits only two pieces of land are without the name of the owners. The book will soon be bound and ready for inspection. During the month of May, the Board of Assessors will make the changes necessary, by reason of improvements or depreciation since the valuation of 1869.

The city carts go round, collect the dirt and trash, this, to many people, serves as a reminder, and as soon as the dirt is gone they go to work and place more in the streets, which remains festering and annoying the public for days. The Marshal of the city advertises that the carts will go round on Thursday and carry off all trash. We say to housekeepers, clean your lots Wednesday eve or Thursday morning by 9 o'clock, after your lot is cleaned don't put any more out until the next Wednesday. It will facilitate very much to have this regution carried out and keep out of eight the disagreeable piles one is so apt to see.

It is very important that steps be taken to secure the coming winter free schools for the city. Under its amended charter the Board of Aldermen clearly have the right schools and appoint a superintendent of schools. These schools would receive aid from the State to the extent of about \$2,500 in the city, and as much as \$1,500 from the Peabody land. A tax of 20 cents on the \$9,000, which, with the aid from the sources enumerated above, would afford sufficient to keep every shild in the city of school be done.

Some of Robert's friends knew that the, to him, happy event was coming, and showed their love to their departing comrade by sending him little mementees. Among the presents from his friends are a fine tea set of French china with gold band, a beautifully chased and wrought silver castor, a combination silver cake bearer, silver call-bell, a pair of silver papkin rings with monogram, an exquisite cross formed of wax flowers, two glass cases containing nacks in profusion.

One of the presents of "Rob" to his bride was a peasant basket of natural flowfestoons of violets and May flowers. Around the outer edge were seventeen roses, nine of which were red and eight white, representing the bride's years. These were interlined with fuschias and violets, denoting fidelity. The field was of white pinks, with the letter I formed of heliotropes in the centre. The effect was striking and pictur-

To Teachers of Public and Private Schools in North Carolina OFFICE SUP'T PUBLIC INSTRUCTION. RALEIGH, April 15, 1872

I beg leave most respectfully to call your attention to the provisions made for No If twenty or more teachers shall organize an association, and hold a teacher's institute of four weeks, under efficient and competent instruction, at any time during the year, and report to the Superintendent of Public Instruction, the association will refunds and fifty dollars from the Peabody

ceive fifty dollars from the State School Educational fund. The teachers of public and private schools are thus appealed to by the State, and by the generous offer of Di. Sears, the general agent of the Peabody Educational fund, to do something for their profession.

Teaching is a progressive science. The best teachers may be benefited by an occasional contact with the thoughts and modes of others. But there is a much higher advantage to be sought than individual improvement. There is wanting in the State an organized body of men, charged with the duty of developing in the public mind a proper estimation of the in iriosic value and the State were organized into active, working associations, united by a common interest, moved by a common purpose, and aiming at a common wax flowers in hands of wax, making pretty | end, the condition of the State would be mantel ornaments, several chromes, a silver | changed.
