COUNTY TREASURER'S REPORT.

A Criticism of the Figures in the Report A Contributor Asks Some Questions.

To the Cape Fear : In looking over the report of Elijah Hewlett, County Treasurer, for the

year ending August 31st, 1876, as published in the daily papers, I see that only \$11,887 86 is credited to the so lady who ever lived, perhaps, has la- "Special Fund" which (as I under ored in her Master's vineyard more stand the decision of the Supreme Court ssiduously than has Mrs. Kennedy, in the county tax case) means the whole amount collected from the levy of taxes in excess of the constitutional limitation of 663 on the \$100 of valuation, and constitutes a "Special Fund" for the payment of the old debt, the interest on the old debt, and a sinking fund for the ultimate payment of the unmatured old debt. The taxable property in New Hanover county is something over six millions of dollars, upon which a tax of 37 cents on the \$100 of valuation was levied for the produce \$22,200, and as only \$11,is pregently desired. The Assor 1887 86 is accounted for, it has sug- offence. it may be taken for granted, gested itself to me to enquire, through your columns, what has become of the s many be entrusted to it. Lefthis \$10,312 14, the balance of the amount

and the amount accounted for is sufficiently large to call for an explanation from the County Treasurer, especially as Judge Bynum, in delivering the opinion of the Supreme Court in the county case, distinctly declared that the Special Fund" could not be applied to any other purpose than that for which it was levied. If the Treasurer or the Commissioners fail to account for the loss or misapplication of the \$10,312 14 is not an easy matter to get up a of the Special Tax Fund unaccounted throughout in a day and two for, I think the matter will merit the attention of the Solicitor and Grand Jury. There is another point in the

report which seems to need explanation. The Treasurer is very explicit in giving a detailed statement of the permanent indebtedness of the county, but fails to state whether there is any floatprojudment in the reception accorded ing debt or not, and if any, what it accepted solidarity with Servia and amounts to. I thind the tax payers have a right to know if there is any such debt, and if so, how much it is and for what is was contracted. It further appears by Mr. Hewlett's report that interest to the amount of

8879 98 was paid to the Bank of New Hanover during the fiscal year; this is months, and as the receipts are in excess of the disbursements and there was over \$10,000 of the Special Fund which appears not to have been expended, and as the county has not paid its claims promptly during the past year it is a matter of some interest to know why such an immense debt was contracted by the County Commissioners. If the money was borrowed for

six months, which is more probable than that it was borrowed for the whole year, the amount upon which the county has been paying interest for that period was \$21,999 50. Now, there has been no epidemic in our county, or other extraordinary cause, that I am aware of, necessitating the borrowing of such large sums of money. What was it borrowed for and has it been repaid? are questions which in-

## THE STATUS IN EUROPE.

STATEMENTS AND CRITICISMS.

What the Turkish Statesmen Say-The London "Times" Comments on Turkey's Notes.

London, Oct. 16 .- The Standard's Vienna dispatch states that the Turkish statesmen desire peace, but not with dishonor. The majority agree that if the foreign pressure becomes intolerable, they might prefer separate terms

that paper, in commenting thereon, says: "The note is conciliatory, submissive and almost humble. The Times, in a leading editorial article, says: "Turkey could not possibly have been more conciliatory. The note judiciously abstains from denouncing foreign volunteers as Russians. There is "Special Fund" last year, this would nothing in it at which Russia or any other power could reasonably take

The Times further says: "The fact of Russia's having reverted to the demands originally made by England, would be encouraging if we could regard with confidence the animus which prompted this course."

Paris, Oct. 16 .- The Le Temps publishes a summary, which it believes to be accurate, of Prince Gortschakoff's circular to Russian representatives abroad. In reply to Turkey's offer of a six months armistice, Prince Gortschokoff points out that no durable peace could proceed from the Turkish proposal, and that Servia and Montenegro could not be expected to remain so long in a critical condition. He concludes with the statement that Russia is disposed to insist upon an armistice of a month or six weeks which might be extended if the progress of negotiations rendered it necessary.

London, Oct. 16 .- The Times' Paris correspondent points to the fact that Montenegro. In advising them to reject Turkish propositions, she has accepted the responsibility of such re-

A Times dispatch from Berlin, Sunday evening, announces that the Russian objections to Turkey's proposal are stated in a calm, argumentative 8 per cent. on \$10,999 75 for twelve tone, indicating a desire for negotiation. There seems to be no danger of an immediate collision...

The Pesther Lloyd (newspaper) reports that M. Ristics, the Servian Prime Minister, has informed the English Consul at Belgrade that Servia would consent to an armistice till

December 31st. The Daily News has a special from Belgrade which says Servia is willing to accept the status quo provided the Turks give guarantees for the proper government of Bosma. But Servia will not consent to any armistice longer than December 31st. If that is rejected in Mr. Bailey's card worth the paper it now she doos not bind herself to accept it at any future time. The prospect of an armistice on peace is not very flat-

LONDON, Oct. 16 .- Reuter's telegrams from Belgrade are as follows: It is generally believed here and at Delegrad that the Turks will break through the line of the Drina, upon which they have been continually making attacks during the last few days. Yesterday the Turks attacked the Servian position at Ljubowja for six hours. The attack was repulsed. The Servian General Novoesezoff has telegraphed to headquarters announcing that a battle is impending at Javor. An armistice is considered impossible.

RAGUSA, Oct. 16 .- Dervish Pasha having received reinforcements succeeded in repelling attack on Podgoritzo. which was commenced by five battalions of Montenegrins on 11th inst.

VIENNA, Oct. 16 .- The semi-official Montags Reven, commenting on the Porte's proposal of the six months armistice, says: "The armistice is evidently too extended, but the greater period implies the less and the Porte has incontestibly fulfilled the requirements of the powers. Anyhow the Turkish proposal does away with all question of occupation, intervention, naval demonstrations or rupture of diplomatic relations.

## STATE OF THE CROPS,

#### Cotton in September -- Reports to the Department of Agriculture.

WASHINGTON, Oct. 16 .- Official reports to the Department of Agriculture indicate a reduction of the condition of cotton during the past month in the ten principal cotton States from an average of 923 to 827. The October average for these States was 88 in 1875 and 714 in 1874. The decline from September is slight in Georgia, Florida and Mississippi, greater in Louisiana and Arkansas, and greatest in Alabama and Tennessee. There is a small advance in Texas. The figures for condition of States are as follows: North Carolina, 84; South Carolina, 80; Georgia, 85; Florida, 80; Alabama. 70; Mississippi, 83; Louisiana, 82; Texas, 91; Arkansas, 86; Tennessee, 91. The impairment of prospects has been caused by the equinoctial storm in North Carolina, drought and rust in Georgia, the caterpillar in Florida and Alabama, the boll worm in Arkansas and frost in Tennessee.

The caterpillar is confined to the southern portion of the Gulf States. Its depredations are most severe in Alabama, and in most of the districts its reproduction was too late to destroy more than the loss of crop.
