NUMBER 3.

LITERARY AND SCIENTIFIC.

FORMATION OF AN IMPORTANT SOCIETY.

A Society for the preservation of the records and traditions of this section, and for the promotion of general literature, science and art, is being formed in this city. Lectures will be delivered monthly by members of the Society. It is learned that the first will be prepared by Sergeant Scyboth, Chief of the Signal Service in this city, and that the subject will be the advantages to this port and section of the service. Probably the Society could not have chosen a person more competent to entertain an audience with something new, important and interesting. Sergeant Seyboth has, among otheradventurous experiences, wintered on Pike's Peak, too high a point for water to boil, and gone on an extensive | \$200. Arctic expedition. Perhaps some of his personal reminiscences will be 'intermingled with his scientific explanations. The formation of the Society, eminently praiseworthy. It will, to doubt, do important service for the whole State.

The black pall of clouds which hangs over the doomed is shaded as it reaches the horizon until the outline of the Temple and buildings of P. M. From the shadow of a rock a serpent is coiled and shoots out "his forked tongue at the fatal fruit with which he tempted Eve. The other gem which arrested our at-

It is of handsome gold, excepting the silver crucifix which stands under an elegantly carved dome supported by a semicircle of Corinthian columns. A correspondent of the Times at Belgrade in discussing situation says: every deplorable agent here believes we are on the eve of a great reastern war. The only difference of opinion among them is as to whether it will commence in spring or almost immediately. Alloutward indications seem to favor latter idea which would give Russia and Servia great advantage.

Strange rumors are current concerning intended 'action of Austria, On Sunday some' official intelligence reached Belgrade that the Emperor of Austria has informed Czar that Austria would remain neutral and -would make no objection to certain limited occupation of one of Austrian Province. of Turkey.

St. Petersburg journal semi-official paper says : There are indications that people of Constantinople regard way as unavoidable and welcome Russia's de cision to finish the matter, without de lay. "Upon the three States of West Virginia, Ohio and Indiana, were concen-trated all the influence of the Adminittration, all their efforts, and all the vast sums of money forcell from the one hundred thousand officeholders of the party in power.

"These were fearfal odds, not again to be contended against so concentrated for in the November elections the conte t 95d. will be in every one of thirty-eight States upon the same day.
