Damaged.

A Plymouth, England, dispatch says that the barque Excelsior from this port to Antwerp has been damaged considerably by collision.

The weather probabilities for Tuesday are rising barometer, cooler, north to west winds.

THE COURTS.

New Hanover Superior Court.

This tribunal convened yesterday at ten o'clock, His Honor, Judge A. A. McKoy, presiding.

The morning hour was spent in selecting the Grand Jury, which is composed as follows: Quaker Alexander, Antony Ballard, London Bizzell, Geo. Lynsden, David S. Sanders, (foreman), Isaac B. Rhodes, Samuel Blumenthal, Samuel Bowden, Richard Faison, Nicholas Dehose, Harry Bernard, Benjamin Durant, Joseph Miller, James Lunsden, Nehemiah Brewington, Nathan Wortham, Joseph C. Scott, Nathan Greenwald.

There are sixty cases for trial at this term on the Criminal Docket, and a myriad of cases on the Civil Docket. One or two important ones belonging to the latter are expected to be tried in a day or two.

Mayor's Court.

Richard Bowens was arraigned for disorderly conduct, but was dismissed on payment of costs.

William Phinney, Jr., for the same offence, was fined \$10 and costs or 30 days on the streets.

Mary E. Lively, for being drunk and disorderly, was sentenced to 30 days on the streets and payment of costs. She keeps up the reputation of her name, being very lively; scratching one of the policemen very badly and biting another one on the finger.

A CASE OF ARSON.

A Colored Girl Sets Fire to Her Employer's House.

Sunday night last, about 9 o'clock, a fire was discovered in one of the rooms of Mrs. Harry Webb's residence, on the upper part of Market street. A window in the room was nearly burned out, and a number of lightwood splinters lay around. Mrs. Webb says a young negro girl, named Jane Arlington, who has been living with her, did the nefarious work. The girl has been in the habit of going out at night against Mrs. Webb's will. Mrs. Webb locked the room Sunday night to keep her in. The girl must have got some lightwood and made a fire of it, because it was not long before the flames were discovered proceeding from the window. The lightwood was taken from the kitchen. The girl offered to make a full confession if the matter was not turned over to the police. Of course the proposition was not accepted. The case will have a hearing to-day before the Mayor.

Death of Mrs. Dr. DeRosset.
We regret to learn of the sudden death of Mrs. DeRosset, wife of Dr. A. J. DeRosset, which occurred in Philadelphia on yesterday morning at 6 o'clock. She had been North attending the Centennial.
Of her social accomplishments, her generous deeds of charity, her uniform kindness to the poor of Wilmington, her superior intelligence and her devotion to the Church and its interest, it is needless to speak in this community, where she has lived for sixty-five years, honored, esteemed and beloved. We tender our sympathy to her large circle of friends and relatives, and assure them that many a heart mourns with them.

Disgraceful Conduct.

During service at one of our city churches last Sunday evening a crowd of boys, noisily started to go into the gallery. After they had half way ascended the steps they changed their minds and retired, laughing audibly. The sexton, at the request of the choir, who were very much disturbed by the boys, barred the side-door by which they had entered the church, in order to prevent further disturbance, when they began beating on the door, and asking admittance.

The announcement of such behavior is sufficient. It needs no comment.

Our Boys.

The boys in the vicinity of Front and Church streets had a pole and flag raising yesterday on the premises of Capt. Orr, on Church between Front and Second streets. As the flag was thrown to the breeze, the name of our gallant standard bearer, Hon. A. M. Waddell, was observed printed on it in bold letters. Even the youth are aroused and take a lively interest in the coming election. The flag-raising shows the right kind of domestic influence.

Wilmington as a Cotton Market.

The commercial report this morning shows the largest receipts of cotton at this port during the present year, 1789 bales. Wilmington is looming into a fine cotton market. And there is no humbug about these receipts either. They are bona fide, and represent cotton actually received at and shipped from this city, not freights from other points merely passing through Wilmington.

Tilden and Vance Guards.
The Tilden and Vance Guards will meet to-night at 8 o'clock, at Hibernian Hall.

This fine organization of our youth deserves great credit. They number about one hundred and make an imposing display when they turn out.

Meeting of the L. B. S.

The Benevolent Society will meet Tuesday of next week instead of this Tuesday, as was announced in Sunday's paper.

Gen. Robert Ransom, formerly of this city, now of Virginia, is in the city.

The infamous John Pool spoke to 14; crowd at the City Hall last night.

FOREIGN AFFAIRS.

WAR NOT IMMINENT.

The Servians Worsted in Recent Battles.

LONDON, Oct. 23.—The prevailing opinion here is that a peaceable solution is possible.

In the recent engagements in the Morava Valley the Turks were successful, notwithstanding the claim for victory made by Gen. Schernyeff. There was a heavy loss in Russian officers.

A later dispatch says that it is admitted at Belgrade that the Turks captured the Krevet Heights, Southwest of Djunas, but claim that the loss of the position is not decisive.

Lombard, Oct. 23.—It is believed that Russia will be moderate in her demands, and that the other powers will support her proposals.

A conspiracy to murder the Turkish Grand Vizier has been discovered and the parties banished.

INSURANCE CASES.

Before the U. S. Supreme Court—Important Decision.

WASHINGTON, Oct. 23.—The Supreme Court of the United States to-day decided several important life insurance cases. The parties were the New York Life Insurance Company and the Manhattan Life Insurance Company against William Statham, Charlotte Syms and the executors of Charles L. Beech, of Mississippi. It appears the parties severally insured were unable to pay their premiums, owing to the breaking out of the civil war in 1861. The non-payment of the premiums in arrears was set up in bar of the actions, and the plaintiffs respectively relied on the existence of the war as an excuse, offering to deduct the premiums in arrears from the amounts of the policies.

The court delivered the following opinion: A policy of life insurance which stipulates for the payment of an annual premium by the assured with a condition to be void on non-payment is not an insurance from year to year, but a common fire policy, but the premium constitutes an annuity the whole of which is the consideration for the entire insurance for life and the condition is a condition subsequent making void the policy by its non performance. But the time of payment in such policies is material and of the essence of the contract, and failure to pay involves absolute forfeiture which cannot be relieved against in equity. If failure to pay the annual premium be caused by the intervention of war between the countries in which the insurance company and the assured respectively reside which makes it unlawful for them to hold intercourse the policy is nevertheless forfeited if the company insist on the condition, but in such case the assured is entitled to the equitable value of the policy arising from the premiums actually paid. The equitable value is the difference between the cost of a new policy and the present value of the premium net to be paid on the forfeited policy when the forfeiture occurred and may be recovered in an action at law or suit in equity. The doctrine of revival of contracts suspended during the war is one based on considerations of equity and practice and cannot be invoked to revive a contract which would be unjust or inequitable to revive, as where time is one of the issues of the contract in which the parties cannot be made equal to the average rate of mortality is the fundamental basis of life insurance, and this is subverted by giving the assured the option to revive their policy or not after they have been suspended by a war. Since none but the sick and dying would apply it would be unjust to the company to compel a revival against the company.

The Chief Justice and associates Clifford, Strong and Hunt dissented. The Court reversed the decree and judgments of the Circuit Court for Mississippi, remanding the cause for further proceedings in conformity with the opinion delivered to-day.

CONDENSED TELEGRAMS.

During the recent West Indian hurricane six Spanish schooners were sunk. The beautiful centennial address of the Irish people remains at Washington unrepresented.

There are riotous demonstrations of armed negroes in Charleston county, which cause alarm, and Gen. Ruger has been petitioned for troops.

The Mystic, Conn., barque Galveston lies in four feet water near Key West. A schooner was driven ashore bottom up by the hurricane.

In a political duel, fought in Switzerland, between Vicomte Barne de Roches and Paul Gerard, latter received probably a fatal wound.

FROM SOUTH CAROLINA.

A Letter from an Ex-Governor.
The following is an extract from a private letter received in this city from ex-Gov. Wm. Aiken, of South Carolina, dated Charleston, Oct. 21st:

"The arrival of the troops is hailed with pleasure. They are wanted to keep the carpet-baggers and negroes quiet—not for the whites. The latter are astonishingly peaceable under very trying circumstances.

I believe Tilden will be our next President, and then the South will get all the aid she requires to place herself in a respectable situation.

One of the essays read before the State Agricultural Society was by Prof. Walters on worn-out lands.

OHIO FOR TILDEN.

Chandler Consigns the State to Endless Darkness.

From the Baltimore Gazette.

COLUMBUS, Ohio, Oct. 18.—There was a large and earnest meeting of leading Democrats of Ohio here to-day to consult as to the course to be pursued in the canvass until Tilden's election. The meeting was the largest of the kind ever held in the State and most encouraging. Telegrams were received from Governor Allen, George H. Pendleton and others. Thurman, Banning, Saylor, Hurd, and Gen. Morgan were among the prominent men in attendance. It was determined to make a vigorous and thorough canvass and carry Ohio for Tilden. An address was issued to the people of Ohio denouncing the bayonet policy of the Republicans and calling on all good men to rally for the fight. The Republicans are alarmed at the condition of affairs in this State. Deacon Smith, Eggleston and other Republican wheel-horses met here to-night to devise some means for raising funds. Zach Chandler has telegraphed here that "Ohio can go to hell. The committee has nearly bankrupted itself to save Hayes from the disgrace of defeat in his own State. Help yourselves; we are done bleeding." After consultation with Hayes and his henchman Wikoff they have determined to appeal to the national banks for subscriptions to carry on the canvass.

Welcome.

From the Charlotte Observer.

We have received the CAPE FEAR, the new daily paper just started at Wilmington by Mr. Cicero W. Harris, and welcome it to our exchange list. Mr. Harris is a gentleman of culture and a newspaper man of experience, and the CAPE FEAR, under his management, will prove a valuable accession to the journalism of the State. We wish the enterprise the greatest success.

Information has been received in Baltimore of the arrest of a party at Edenton, N. C., supposed to be Joseph B. Hughes alias St. Leon, a magician, the person referred to in Sunday's CAPE FEAR as charged with murder, in Maryland.

The Petersburg Index Appeal says: John Pool, the infamous, has taken the stump in North Carolina in support of Hayes, Settle and Brogden. This drives the last decent man in the State from the Radical party, and thus gives a few more votes to swell the majority of Tilden and Vance.
