Cravath, Magee, Luderus and Becker, of the Phillies, compose the greatest quartet of home-run hitters in baseball, but they have been unable to wallop their team into a championship.

The same old stuff. A story is going the rounds to the effect that the Tigers laid down in the games with the Red Sox in order that the Sox might gain on the Athletics.

BUNTS

George Stallings and Connie Mack are playing different systems in preparation for the world's series. George is keeping his team up hard against it, keeping them keyed up to a high pitch. Connie is letting his stars rest, working his second-string men. The result will be interesting, though it is doubtful if the result can be clearly seen, owing to so many other matters that enter into such a contest.

Cactus Cravath poled out his 19th homer this season. He is now leading Ty Cobb in this particular by 18 homers, Ty having smashed out one at the last account—which facts go to prove that speed is of more consequence to a player than the ability to punch it over the fence.

Hack O'Day says that Boston will not win even one game from the Athletics. Hank has no right to say anything. He isn't an umpire any more and can not control the result of a game.

HIGH SCHOOL ELEVEN.

Captain Hall Leads Strongest Squad of Years—Practice.

The Wilmington High School Athletic Association, following its organization meeting yesterday, in which Walter Hatch was elected president; Norman Shepard, vice president; Charles Hazelhurst, treasurer, and "Rock" Hall, captain, discussed the prospects for the football year. The association feels that, with the material at hand, the strongest team of several years will be put out. Daily practices are being held, and the team is being whipped into shape for the season. The first game will be played October 10th. Of the last year's team to play this year are "Red" Grant, Hall, Silverman, Johnson, Hanby and Bagley.

FOOTBALL NOTES.

Hinkey, of Yale, probably will be field judge at the Harvard-Michigan game October 31st.

Tom Enwright, Exeter's star of last year, who has been called the greatest school boy football player in America, is now at Yale.

Manager George Murray, of Princeton, says the new stadium field at Nassau, will be ready for use on November 14th, when the Tigers meet the Yale team.

Clarke, Penn State's punter, is already getting off drives of 60 yards. Penn State can always be relied upon to develop one or more gridiron stars.

Harvard and Yale students will be allowed to make application for four instead of two seats for the Yale-Harvard game. Two seats have been the limit for several years past.

BASEBALL CHATTER.

In winning the International League pennant the Providence team topped off a season of fine ball playing with a classy finish.

"Rube" Marquard came very near turning his record of 19 straight victories upside down by losing that number of games in a row. A fine chance for "hunch" players is found in the fact that a Boston club has never been defeated in any important post-season series.

According to the Giants' line of talk, any team that beats them is lucky. About time that McGraw and his men put the old alibi away in moth balls.

E. M. (Ted) Lewis, who was a member of the Boston National champions of 1897-98, is now dean of the Massachusetts Agricultural College at Amherst.

For the past two seasons the Winston-Salem Carolina League champs, a Class D outfit, has defeated the Virginia League (Class C), pennant winners in post-season series.

DIAMOND TRADE IS LOOKING UP

New York, October 2.—The recent marked improvement in the diamond trade is regarded in business and financial circles in this city as one of the most trustworthy signs of an early and general return of prosperity. The diamond trade was one of the first to feel the depression arising from the European war. That the condition of the trade is now on the steady road to recovery is evidenced by the fact that several of the largest factories devoted to the trade in New York are now running full time. Many of those interested in the trade predict that one of the results of the war will be to make New York, instead of Amsterdam, the center of the diamond-cutting industry of the world.

AN INJUSTICE LAW.

Charlotte News. One day this week Judge Peebles haled before him for trial Editors Brown, of Goldsboro.

The editors were charged with "contempt of court." They are said to have published certain statements derogatory to the conduct of the judge. We believe these charges involved his alleged use of liquor, his conduct on the bench, etc. We are not concerned about the charges. The case is going to the Supreme Court and that body will review the charges made and the defense of the judge, and the convicted editors will be given a hearing before the highest tribunal of the State.

The point we have in mind now is the glaring injustice of such proceedings as those which have just been terminated and the law itself is to blame.

These editors, after having published statements to which the judge objected, were charged with contempt and were cited to appear before the judge, who made the indictment him-

self. There was no judge but Judge Peebles. He was prosecuting attorney, jury and judge. He found the editors guilty and sentenced them to a term of imprisonment and also imposed a fine. Naturally enough they appealed. As to the merits of this case we are not informed.

It is not the evidence we are referring to but that unjust legal proceeding which would permit a man under charges to decide his own case without resort by the defendants to trial by jury. The United States has always jealously guarded the freedom of the press, but in cases of this nature it would seem that the defendant editors have precious little chance in the courts.

The charges involved the judge who tried the case. The law, then, in cases of this kind, should not permit the judge to decide his own case, but should require that the case be heard before an impartial and unaffected tribunal.

It is a marvel to us how such a law as would sanction this proceeding has remained on the books through all these years.

COAL SHIPPED TO SOUTH AMERICA

Mobile, Ala., October 2.—A new industry—that of shipping coal to the South American market—has been officially inaugurated in Mobile with the sailing of the ship Domingos Joaquin de Silva laden with 2,964 tons of Alabama coal for Buenos Ayres. The shipment was made by Mobile capitalists as an experiment, the plan resulting from a recent report that South American countries were hard pushed for coal, the fuel selling for \$24 a ton in Buenos Ayres. As the British government has forbidden the shipment of coal from Great Britain, a new field for Alabama coal is now opened up.

WITH THE BOXERS.

Leach Cross and Gilbert Gallant will probably meet at the Atlas A. A., Boston, on October 13.

Clarence Ferns and Bud Logan have been matched to box at St. Joseph, Mo., on October 17th.

Young Shugrue has signed to box three more bouts in Australia. The Jersey lightweight will get \$6,000, or the privilege of 25 per cent. of the receipts.

The Johnny Kilbane-Abe Attell bout, which was to take place October 13th, has been indefinitely postponed because of an injury Kilbane received by being thrown from a horse.

Packey McFarland has retired from the ring for good. He intends to devote his time in future to looking after his wife's interest in an Illinois brewery inherited by her from her father.
