Vera Cruz, Nov. 23.-The American forces, under Gen. Frederick Funston, after a stay at Vera Cruz of seven months, today began embarking on steamships, which will return them to the United States. The outposts began falling back at 9 o'clock this morning and two hours later the first American soldiers were going over the sides of the transports.

General Funston established headquarters aboard the transport Christobol at an early hour today. All organizations of his command began moving the equipment preparatory to final evacuation, at daybreak. Everything progressed smoothly. the American outposts there have been mobilized during the night a force of Constitutionalists. As the Americans withdrew first from the outlying districts, then from the city, the Constitutionalists followed them and nominally occupied the territory vacated. The city is quiet, but the inhabitants are nervous and apprehensive concerning the final outcome of this transfer of authority. All the saloons remained closed today on orders of General Funston. Many commercial establishments have decided not to open their doors. The government of Vera Cruz is not being turned over to any faction. Embarkment was on in earnest at 11. General Function said he expected to sail for Galveston at noon. He reported that the Constitutionalists. under General Aguilar, are taking possession.

General Villa informed the United States, through Consular Agent Carothers, he has issued general orders for summary execution of any of his coldiers molesting women, or pillaging on entering Mexico City. Acting Secretary Lansing announced the receipt of this information, adding that the order was reported as prevailing in all cities and towns that Villa has occupied. Plans for an eleventh hour abandonment of Mexico City to the Zapata forces were frustrated by General Lucce Blanco, according to confidential reports received at the State De-

Carranza ordered the capital evacuated last Friday, so the Zapata forces committee of ladies, said the public could enter, at the same time destroying the railroads north to delay Villa. One official report speaks of "premeditated atrocities" and the intention to leave the capitol to be sacked. Obregon ordered Blanco to accompany him. Blanco refused, after serious argument.
