MORGAN IS NOW OUT OF DANGER

Physicians Pronounce Condition of Money King All Right

TRYING TO IDENTIFY HOLT AS MUENTER

Federal Detective Working on Case—Would-be Assassin's Condition Grave Today and He Will Hardly be Ready For Court on Wednesday.

Glen Cove, N. Y., July 5.—J. P. Morgan, shot twice by Frank Holt last Saturday, is out of all danger, his physician announced this morning. Mr. Morgan's pulse and temperature are normal, they said, and he passed a restful night.

Assailant's Condition Graver. Holt, Morgan's assailant, was so weak today that when the keeper went to his cell to arouse him he could not sit up on the couch. Unless his condition improves rapidly and physicians say there seems no reason to expect a rapid change—it will be impossible for him to be taken into court for examination next Wednesday.

All plans to submit Holt to further questioning today were abandoned because of his serious condition.

Dr. Guy Cleghorn, the jail physician, said Holt's injuries were graver than first thought. His extreme weakness, Dr. Cleghorn said, was due to the great loss of blood from the wound over his eye. Two stitches have been taken, but when the wound was dressed today it still evinced a tendency to bleed. In addition Holt has a black eye, his shoulder was severely wrenched and he was struck a powerful blow in the stomach, which left it black and blue.

"Holt is very sick," the doctor said.

Trying Fathom Identities. New York, July 5.—Efforts were made here, at Glen Cove Long Island and in several other cities to clear up the mystery surrounding the identity of Frank Holt, who Friday set a time bomb in the United States capitol at Washington and on Saturday attempted to assassinate J. P. Morgan. Federal detectives throughout the country are following clues which they hope will reveal the chief events in his life.

One of the important questions they had to solve was that raised by the police of Cambridge, Mass., regarding the possible identification of Holt as Erich Muentzer, a former Harvard instructor, who disappeared after the death of his wife from alleged poisoning in 1906. The statements from relatives of Muentzer and men who knew him as a student in Chicago, comparing description of Holt with their recollection of Muentzer, were read with interest by the detectives working on the case. Points of Muentzer were compared with those of Holt. Until late last night Holt was questioned by police officials of New York and Washington. Major Pullman, superintendent of the Washington police, last night questioned Holt, endeavoring to locate the room he occupied while in Washington before the explosion of the bomb in the capitol, but was unable to do so.

It was in the course of his examination by police officials that Holt disclosed his plan when he entered the Morgan home to hold Mrs. J. P. Morgan and children as hostages in their home or to kill them, if Mr. Morgan refused to use his influence to stop the exportation of war munitions.

Dispatches from Dallas, Texas, say that Rev. O. F. Sensabough, Holt's father-in-law, has taken steps towards engaging Martin W. Littleton, as counsel for Holt, but Mr. Littleton said he had not received such a request.

Mr. Morgan's condition, according to the latest official bulletin, is considered most favorable.

Locates the House. Washington, July 5.—The police today located the house where Holt stayed in Washington when he came here to plant the bomb which wrecked a room in the capitol. It is a rooming house between the capitol and the Union Station and in searching the room the detective found an empty bottle containing sulphuric acid. All that the afternoon about the hotel remember is that Holt stayed there a few hours and asked for a bath.

DENIES REPORT FROM RUSSIA

German Warship Not Sunk and Albatross Went to Fate Game to Last.

Berlin, July 5 (Via London).—The Russian report regarding the destruction of a vessel of the Deutschland class is untrue, according to a semi-official statement issued here. It is also denied the minesweeper, Albatross, lowered the flag before running ashore on Swedish territory. The Russians are said to have fired 1,500 shots at the Albatross, of which only 25 were hits. An eye-witness of the battle asserts that nearly the entire stern of one of the Russian warships was shot away.

A Russian official statement yesterday said a Russian submarine had sunk a German warship of the Deutschland class.

KING OF SPAIN LOSES CENTER STAGE

Paris, July 5.—The King of Spain, who formerly furnished a great deal of copy for French newspapers, has had very little attention since the war. Paris began to cool toward Alfonso XIII in 1913; now he seems to be almost entirely outside the zone of interest. Reports from Madrid and Saint Sebastian represent him as following every development of the war with great interest and with sympathetic leaning to the Allies, while the rest of the court is said to be pro-German.

The Bayonne correspondent of the Petit Journal writes that King Alfonso recently acted as intermediary between the German government and the wife of a French soldier who had received no news from her husband since he was wounded at Charlevoix, August 28th. The king sent an autograph letter to the young woman informing her that her husband was a prisoner of war in Germany, deprived of the privilege of communicating with France, and that he was continuing his efforts to obtain permission for him to write to his family.

AUXILIARY HISTORY OF THE BIG WAR

To induce a large number of such sketches the organization planning the history has offered several prizes—a first of 150 marks, a second of 100 marks, a third of 75 marks and two fourths of 50 marks—for the best that are submitted.

The articles are to touch on the life of the colonists, the officials, the troops and of the native-born. Those of artistic bent are asked to send accompanying sketches, or to turn in pictorial rather than written descriptions of colonial life.

TURKISH NEWS ALL THE FASHION

Hamburg, July 5.—Turkish news is in the greatest vogue in Germany at the present time. German papers have just printed, as an evidence of the growth of accidental ideas in Turkey, a story of the increasing freedom of women telephone operators in Constantinople.

Though there was the utmost opposition at the start to the idea of Turkish women violating their century-old traditions by entering the exchanges and "exposing" themselves to the public, this feel has almost entirely died away. To facilitate their work the authorities have allowed them to abandon the prescribed Turkish headdress and wear a cap that does not interfere with the telephone head-piece.

When have become so proficient as indispensable in fact—that a woman, Miss Osman, has been placed in entire charge of the Stamboul exchange. When the telephone operators attempted recently to conduct an out-door picnic along accidental lines, however, all the old-time prejudice arose, and a policeman spoiled the whole affair by forcing the women to sit down with their backs to the men.

There is no secret of the fact that the committee will try to bring out that if the city cannot afford to pay its mayor share of the \$19,500,000 direct tax levy, the fault lies not with the tax but with the city administration. The committee includes nine Republicans and three Democrats. Senator Brown denies that the creation of the investigating committee, which he himself suggested, was a political move to avenge Governor Whitman for the wide criticism he received from the city officials.
