

ALABAMA'S GOVERNOR

(Continued From Page One.)
"repentance," "Faith," "Confirmation," "Salvation," and kindred subjects.

Must Meet Unbelief.

In his fiscal address yesterday, Dean Robbins warned the convocation that it can no longer overlook the unbelief of the world and meet it honestly. "We must not indulge longer in aloofness," he said. "The clergyman may be as cloistered and sequestered as he will but we have got to deal with the doubts of men and if they have intellects we need not deal with them unless we have something stronger than their doubts."

He declared that people will not listen to the old formulas and that something new must be given them. He railed none whatever at science, he merely called attention of the people to the fact that life cannot be compassed, defined or contained by a finished science. "Our greatest difficulties are with the commercial rather than the skeptical of men," he said. "The commercialist has no time for us and we must take our message to him."

"We have left the rescue work to the specialists," he said, "and have made a great mistake." He told the story of attending mass at an old church in Southern Germany and how the ragged, tattered and neglected of men crowded to get to the service and its communion. One may gaze long in Heaven without finding Christ, he said, if he turns his head from these brothers in Christ here on earth.

The preacher is otherwise notable. He makes free use of extemporaneous prayers, often using no prayerbook at all. And it has greatly pleased his hearers in Raleigh.

State of North Carolina, County of New Hanover. By virtue and in pursuance of a power of sale contained in a certain mortgage deed executed by H. M. Messick and wife to the Fidelity Trust and Development Company on the 18th day of February A. D. 1914, which mortgage deed and a note secured thereby was for a valuable consideration transferred, set over and assigned to the Hanover Trust Company on the 31st day of March A. D. 1915.

Now therefore and in pursuance of said assignment and the power contained therein the undersigned assignee will expose for sale to the highest bidder at the Court House door in the city of Wilmington, County of New Hanover, State of North Carolina, on Monday the 15th day of November A. D. 1915, at twelve o'clock m. for cash the following described tract, piece or parcel of land, situate, lying and being in Alsonboro township in said County and being more or less of the plan of Sunset Park as follows, to-wit:

"Lot No. 11 in Block 8 according to the official plan or map of Sunset Park as surveyed by J. L. Weston, civil engineer, dated August 1912 and duly recorded at the office of Register of Deeds in New Hanover County in book 70 on pages 107-108-109-110, reference to which is hereby expressly had for a particular description of said lot.

This the 11th day of October A. D. 1915. HANOVER TRUST COMPANY, Assignee. HERBERT McCLAMMY, Attorney for Assignee. oc 12 304ys

Complete returns from the twelve counties, Guilford, Robeson, Durham, Johnston, Lee, Nash, Pitt, Forsyth, Randolph, Montgomery, Sampson and Vance, in which special campaigns against typhoid fever were carried on, show that 100,000 North Carolinians have been given immunity from typhoid fever by the free treatment inaugurated by the State Board of Health.

The twelve counties, re-enforced by Warren and Craven with their 2,814 and 2,021 respectively actually showed only 51,872 immunizations. But it was the twelve counties originally chosen, supplemented by the two which have finished within the last few days their work, whose combined scores make an estimate possible. The fourteen counties produce more than 51,000 treatments. But intensive campaigns have been conducted by special physicians and whole-time health officers in other counties thereby raising the number in those counties more than 20,000. These figures are certain.

In addition still the manufacture of the vaccine here in Raleigh and the calls for it indicate that county physicians and private practitioners have treated free fully another 25,000 so that North Carolina's estimated total is 100,000, based upon the original twelve with their 47,000 and the new pair, Warren and Craven with their 55,000.

In that army of 100,000 no case of typhoid fever has been discovered and it appears now to be an undisputed fact that the treatment gives perfect immunity and that no death of a patient has occurred in North Carolina since treatment began on him. In the 100,000 would have been a large number of cases according to statistics compiled by the State Board. There is no resisting the conclusion that vaccine has saved hundreds.

TREAT CATARRH BY NATURE'S METHOD

Every Breath of Hyomel Carries Healing Medicated Air to the Infected Membrane.

Nearly every one who has catarrh knows how foolish it is to try and cure it with sprays, lotions, and the like. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would probably have said the only way to help catarrh would be to have a change of climate; but now with a simple preparation called Hyomel you can carry a health-giving climate in your vest pocket and by breathing it a few minutes four times a day successfully treat yourself.

The complete Hyomel outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomel. The inhaler lasts a lifetime, and if one bottle does not give permanent relief, an extra bottle of Hyomel can be obtained at any time for a trifling sum. It is more economical than all remedies advertised for the cure of catarrh, and is the only treatment known to us that follows nature in her method of treating diseases of the respiratory organs.

R. K. Bellamy has sold a great many Hyomel outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomel does not relieve.

The claim will be considered remarkable but it is backed up splendidly in the typhoidless army of the United States which has not a case of typhoid fever in it. The immediate immunity is least of all the benefits. Since typhoid spreads typhoid, restricted as it now is the next year's reports are expected to show the benefit of this campaign which has been carried on with such skill.

Shall Laymen Preach?

The Raleigh convocation of the North Carolina Diocese took big things under advisement in its meeting in Raleigh and in the enlistment of the laity's interest in church work somewhat radical issues are before the clergy.

The Episcopal Church gives license to certain lay readers to perform limited functions in its service and quite a few lay readers and preachers are found over the State. The decision if based upon recommendations made would allow laymen to make addresses, read the service, preach and assist in almost all the functions that have no sacramental nature.

Bishop Cheshire thought well enough of the suggestions presented by Rev. Sidney Bost, rector of the Episcopal church of Durham, to appoint an advisory committee of clergy and laity to discuss the issues with him. The laymen's movement in the Episcopal Church would be greatly advanced, it is said, by the latitude given in these recommendations. Tuesday night George B. Elliott, assistant general counsel of the Atlantic Coast Line, spoke for the laymen and declared that volunteers in great abundance might be found in his church among the laymen if the rector will merely indicate the work that they wish done. "Laymen are often apparently indifferent because they do not know what to do," he said.

Mr. Elliott discussed the Men's Forward Movement and he brought the message that one of the finest bodies of laymen in the country had to give to the convocation. Last year when the laymen of the East were asked to raise \$2,700 for general missions they responded with \$10,000. When eighteen volunteers were asked to offer themselves for a certain work, thirty came up and asked to be used. Mr. Elliott comes from laymen "who do things."

Governor Craig today pardoned Will Norris of Gaston county, who is serving a sentence of six months for assault upon his wife.

Governor Craig gives him conditional liberty. He must justify the sentence which he has shown and the faith of his wife that his return will make her support and treatment better. She sought his pardon. The defendant was aided by Solicitor G. W. Wilson, Oscar F. Mason, municipal Judge Jones and city solicitor Bulwinkle.

Governor Craig granted an exchange of courts today between Judges M. H. Justice and T. J. Shaw, Judge Jus-

take taking the Cleveland court November 1st, and Judge Shaw the Stokes court November 1st, and Guilford's November 8th.

Charters were issued by the secretary of State today to the Frog Level Ginning Company of Rutherfordton with \$25,000 authorized capital and \$1,600 paid in. Cotton seed oil meal will be one of the manufactured products of the company.

The subscribers are: Oscar R. Duncan, Rutherfordton, O. B. Gross, J. W. Griffin and A. C. Moore, of Forest City.

R. A. Stamper, C. M. Mendenhall, George R. Rogers, of Hookerton, Green county, are the chief subscribers to the stock of the Stamper Timber company and the Fish Creek Timber and Railroad company, each of which corporations has the same amount of paid in capital, \$3,000 and authorized stock, \$50,000.

Bombarded often and pointedly the commissioners of Raleigh declined to name their new chief of police and Charles F. Koonce, slated as the certain man, is not yet in, according to the minutes of the meeting today.

The failure to choose a man has been often attributed to the inability of the commissioners to get together. Weeks ago it was substantially certain that James E. Turner, strong of body and a man of substance, would get the place. But the Turner men declare that enemies framed up on him, attacked his place of business and his character and many protests against his appointment came in.

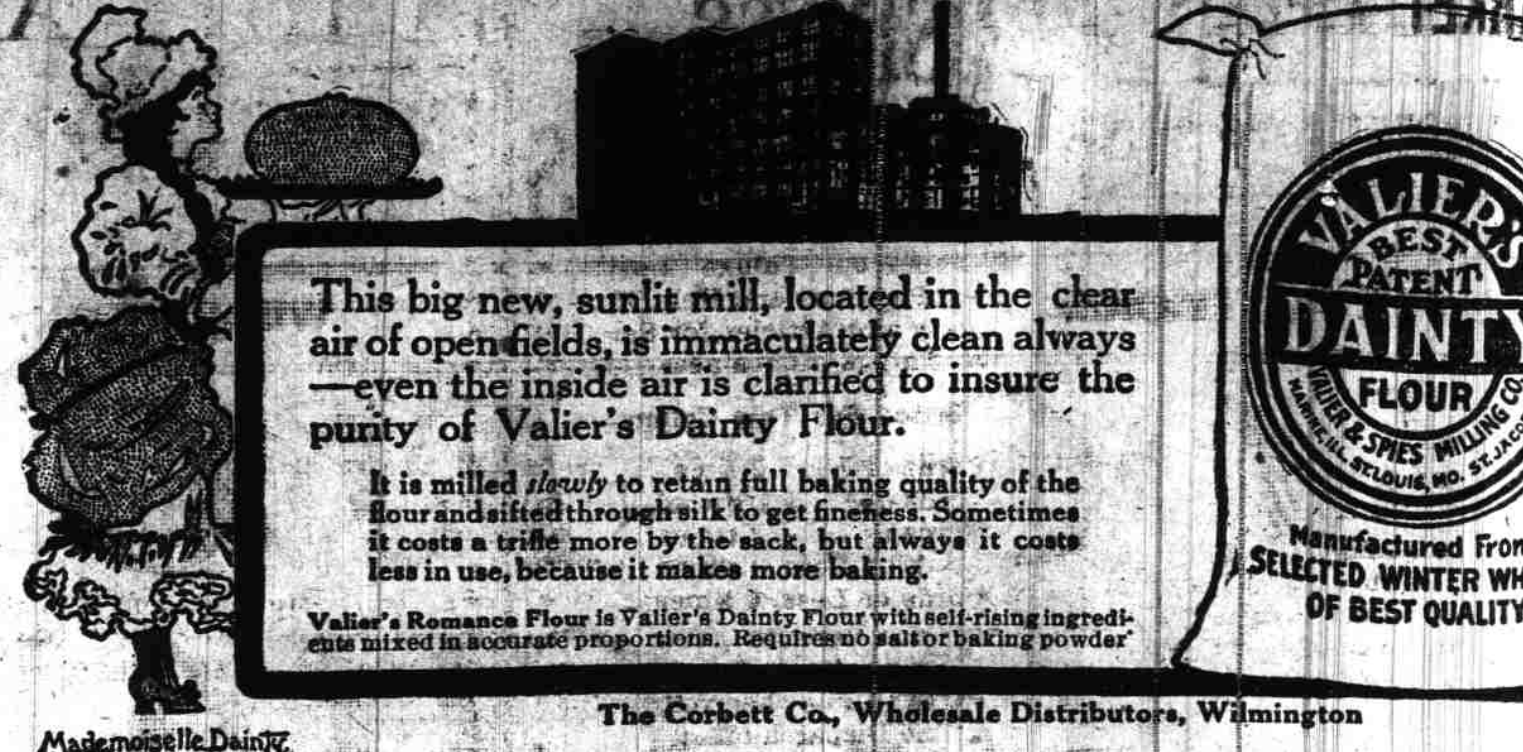

Then Alonzo E. Glenn awoke one morning to find that he had been selected and would begin work soon, so the political side of the police office was settled. But Mr. Glenn knows nothing about where he "is at" and the city papers cry out against the uncertainty of police officials. Colonel Bob Gray has been stinging the commission semi-occasionally and twice in a while, but they don't say what they are going to do.

There are many willing men. The commission cannot accommodate them all and it has not authorized the lot of bad guessing that has gone out to the public. It is incidentally bringing down upon itself a considerable amount of abuse from its old friends who gave it life in the two elections through which it has passed.

The Corporation Commission has dismissed the action of C. E. Howard and others against the Black Mountain Railway Company, the Carolina, Clinchfield and Ohio Railway and the Holston Corporation charging excessive rates.

The allegations were that the smaller road is a part of the system of the bigger one and that the rates should be the same on this branch line as upon the longer. The commission does not find those facts.

Cantwell Dancing School Woolvin Hall Friday nights. Grainger's Orchestra. Advertisement

This big new, sunlit mill, located in the clear air of open fields, is immaculately clean always—even the inside air is clarified to insure the purity of Valier's Dainty Flour.

It is milled slowly to retain full baking quality of the flour and sifted through silk to get fineness. Sometimes it costs a trifle more by the sack, but always it costs less in use, because it makes more baking.

Valier's Romance Flour is Valier's Dainty Flour with self-raising ingredients mixed in accurate proportions. Requires no salt or baking powder.

Rengo Belt Reducing Corsets

will positively hold THEIR shape and YOUR shape

The Rengo Belt abdominal reducing feature is an integral part of every Rengo Belt corset, without which these garments would lack much of the strength for which they have gained fame. This feature puts strength into the corset without adding weight. The discovery of its reducing and strengthening principle made Rengo Belt corsets the strongest ever offered for medium and stout women and made it possible for us to announce these garments as positively unbreakable.

Rengo Belt Corsets are pre-eminently suited to the woman who wants strong support or who wishes put unusually heavy stress upon the garment. Rengo Belt corsets are strong enough to stand where every other corset fails.

Boned throughout with double watch-spring steel guaranteed not to rust.

There are models with and without "Steelastic" webbing. When extra flexibility and added support is desired, our exclusive "Steelastic" will be found to possess superior strength and wearing quality.

REMOVAL SHOE SALE

CONTINUED FOR TWO WEEKS

WE have not received the fixtures for our new store, No. 203 North Front Street, and will not be able to move in next week as we intended, so we have decided to continue our Removal Sale for two weeks.

This sale has been by far the most successful one ever conducted by us and we feel highly gratified by the splendid patronage given us.

This sale being such a huge success proves that we offer exceptional values and that we do just as we advertise.

Our stock has been reduced considerably by as we are getting in new goods daily we are in a position to meet all demands.

If you have not been among the vast number of people that have purchased their Fall supply of shoes there is still time for you to look our line over and make your selections, we are sure we can save you dollars on your purchases.

A FEW SPECIALS THAT ARE HARD TO BEAT

Infants' Black Vici Button a solid Shoe, sizes 2 to 5, Removal Sale price 49c	Child's Gun Metal Button, a good school Shoe, sizes from 8 1-2 to 2, Removal Sale price 98c	Child's \$1.75 Gun Metal Button, a solid Leather Shoe, Removal Sale price \$1.39	200 pairs Woman's Gun Metal, Tan, Vici and Velvet Button and Lace, sizes from 2 to 5, Removal Sale price 98c
