

# BOMB THROWN IN THEIR CAMP

## Cracker Judge Sentences White "Blind Tigers" to The Roads

Augusta, Ga., Sept. 23.—Local blind tiger operators were thrown into a panic today when Judge Black sentenced three white men, W. S. Pittman, J. E. Allen and E. M. Green, to the chaingang for six, four and three months, respectively, without the alternative of a fine, for selling liquor. Several other prisoners, first offenders, were fined and sentenced to the chaingang, the labor sentence being suspended.

## WILSON DEFENDS 8-HOUR MEASURE

(continued from page one.)

it was that American merchants and American miners and all the multitude of men who have developed the peaceful industries of America were planted under this policy in order that they might look out upon the service of mankind and perform it.

"There was never a time when the pulse of energy and success beat so strongly in the veins of American business as it beats today, and yet I hope that all business men in America realize that we are only at the beginning of a new area.

"America has not played in the development of world trade, a part proportionate to the gifts of Americans and the resources of American. In times to come, partly because of the unhappy circumstances of recent years, but chiefly because America is now about to release her energies, the scope of American business will be what men have hitherto not dreamed of, if American men know how to take advantage of the opportunity.

"The problems before American business are world problems rather than American, or domestic problems, America must understand the world in order to subject it to its peaceful service.

"And yet when we look upon the field of American business there are some things that disturb us.

"The chief cloudy domestic horizon is the unsatisfactory relations of capital and labor.

"There is only one way, gentlemen, the relations of capital and labor can be rendered satisfactory. That is by, in the first place regarding labor as a human relationship of men with men; and in the second place to regard labor as part of the general partnership of energy which is going to make for the success of business men and business enterprises in this country. So long as labor and capital stand antagonistic the interests of both are injured and the prosperity of America is held back from the triumphs which are legitimately its own.

### BIDS! BIDS! BIDS!
