

Partly cloudy tonight and Saturday. Little change in temperature.

THE WILMINGTON DISPATCH

VOL. XXII. NO. 273.

WILMINGTON, NORTH CAROLINA, FRIDAY AFTERNOON, OCTOBER 13, 1916.

PRICE 5 CENTS

AMERICAN DESTROYERS PATROL THE COAST

Uncle Sam Intends to See That Neutrality is Strictly Observed.

Steamer Brings News of Sighting Unknown Submersible.

New York, Oct. 13.—A dozen destroyers of the United States navy are today patrolling the ocean highways to and from New York.

The seaward dash of eleven destroyers from Newport is causing much speculation.

The Bovine is a British freight steamer of the White Star Line.

The operations of the patrol are being directed from the flagship Birmingham, in charge of Rear Admiral Gleaves.

Confirmation that the British steamer Bovine sighted a submarine off the coast was contained in a statement by a navy official here today.

"A passenger steamer reported to the Nantucket Shoals lightship that she had sighted a German submarine this morning."

WOULD HAVE DAY TO HONOR WASHINGTON

St. Louis, Mo., Oct. 13.—The Virginia delegation today asked the convention of the Protestant Episcopal church to set apart a Sunday nearest February 22 each year as a memorial day to George Washington.

COTTON BREAKS RECORD ON RALEIGH MARKET

Raleigh, Oct. 13.—Spot cotton on the local market, according to buyers, today reached its highest price in forty years when it sold at 17-16 cents for good middling.

Mr. Wm. B. Boykin, one of the Tidewater Power Company's gas employees, who was badly burned by an explosion of gas while about his duties last week, is now better.

ARE DETERMINED TO BREAK UP THE MOB SPIRIT

Police of Bayonne Believe That Strikers Have Been Awed.

THAT SHOOTING WILL NOT CEASE

Yesterday Was a Day of Disorder and Bloodshed—Police Smashed In Saloons.

Bayonne, N. J., Oct. 13.—City authorities hope today that the 5,000 strikers from the oil company's works at Constable Hook, who have been rioting in the streets for the past two days, were awed by the demonstration of force by the police yesterday.

The police plan to repeat their performance of yesterday when they swept through the striking district in the Constable Hook section, driving the strikers off the streets into the houses, returning the shots of the snipers on the roofs, wrecking saloons that were kept open in defiance of the mayor's orders and arresting the proprietors.

One man, a lawyer who took no part in the rioting, was shot and killed yesterday and nearly a score were wounded.

Three persons, one a young woman, are dead and it is believed that more than 100 have been injured.

Quiet prevailed during the early hours of today, following the battle scenes enacted in the streets yesterday afternoon and last night.

"We expect to clear the rioters out and start the trolley lines in operation in the strike territory," said a police official today.

Strike leaders have offered to organize a special force of 300 to aid in suppressing the rioters. Their offer was accepted, but has not yet been effective.

GREAT BRITAIN WILL MAKE CHANGES

Promises to Observe New Tactics in The Search of Mails.

Washington, Oct. 13.—Radical changes in the search of mails on neutral ships are promised in a reply from the British and French governments to the American protest against interfering with the mails.

STORM WARNING FOR ATLANTIC COAST

Washington, Oct. 13.—Storm warnings from Reading Island, near Philadelphia, to Cape Hatteras and at Baltimore and Washington, were issued by the weather bureau today.

The Wilmington Bar Association met this morning and arranged 101 civil cases for trial at the two weeks' term of Superior Court to be conducted here by Judge Connor, beginning Monday, October 23.

There are no cases on the docket for the coming term that are of great importance.

GERMAN TROOPERS CONTINUE TO BEAT BACK RUMANIANS

While Entente Forces Advance Teutons Rout King Ferdinand's Soldiers.

NO INFANTRY ATTACK ALONG THE SOMME

Only Artillery Busy There—Italians Have Made Further Gains Against The Austrians.

While the entente armies in northern France and the Austro-Italian war theatre continue driving at the lines of their Teutonic foes, the latter is continuing to counter heavily with crushing strokes on the Transylvania front.

Vienna claims that the Rumanian resistance has been broken, on both sides of the Maros river, where Berlin yesterday announced an encircling movement was in progress.

Italian gains Wednesday on the Carso front, where General Cadorna is pushing toward Trieste, are admitted at Vienna.

No infantry contests in the Somme region is reported by Paris, but intense activity by the artillery is in evidence both north and south of the Somme.

On the east end of the Somme the British advance south of Bapaume during yesterday's fighting pushed in further toward the Bapaume-Perronne road and took about 150 prisoners.

Some action has developed on the northern front in Russia. The German attacked and captured a trench section on the Sera river, but according to Petrograd, were shortly afterwards driven out.

East of the Struma river, in Macedonia, the British apparently are making ready for further efforts against the Bulgarian positions.

CINTRA, PORTUGAL Portuguese Say It is Most Wonderful of Cities.

There is the charm of uncertainty about Cintra. They will tell you in Portugal, if you plan to go to Cintra, that it is the most wonderful of cities; also, the next man you meet will say that it doesn't amount to much.

These things being true, it is well to refrain from saying that Cintra is beautiful, that it has a peculiar and individual charm; or that it is commonplace, and hardly worth visiting.

The hill is bold and angular in outline, so that it has been termed in Portuguese poetry a stern crag; but its angles are softened by a dense growth of rich green trees.

The chief attraction at Cintra is the old Moorish castle, which has been likened to the Alhambra. The guide-books, however, treat of the castle at length, and so does the Portuguese guide who shows you through it.

LOOKING FOR SUBMARINE BASE.

Washington, Oct. 13.—Admiral Mayo, commanding the Atlantic fleet, notified the navy department today that he had ordered a survey of the New England coast to investigate reports that belligerent ships had established a base there or were using parts of the coast for wireless stations.

CAUSING COMMENT IN OLD CHINA

Is The Naming of Nobuzumi Aoki as Military Adviser To Government.

Peking, Oct. 13.—China's appointment of Major-General Nobuzumi Aoki as first-class military advisor to the Chinese government has provoked much comment in the Chinese press, and came as a great surprise to foreigners living in China.

Commenting sarcastically upon the appointment, the Peking Daily News says: "We heartily thank our Japanese neighbor for lending the services of so valuable a general of the Japanese army to China for the reorganization of the Chinese army."

When Major-General Aoki was assigned to Shanghai as an attaché of the Japanese consulate there in the heat of the recent revolutionary trouble, many Chinese papers charged that he was the forerunner of a Japanese military movement designed to control the Yangtse Valley and his employment as an adviser to the Chinese government is regarded with great apprehension by Chinese journals which demand information as to why China should place itself in Japanese hands by the employment of the distinguished Japanese officer.

Major-General Aoki was the commandant at Port Arthur in the Russo-Japanese war and is probably the most famous soldier in Japanese. He is 57 years old and has traveled much in Europe.

The Japanese legation at Peking, and is an expert in Chinese art.

WILSON TO SPEAK IN NEW YORK

Will Also Deliver An Address In Buffalo—Said to Be Non-Partisan.

Philadelphia, Oct. 13.—President Wilson today accepted an invitation to speak in Buffalo on October 30 and in New York on October 31.

Both speakings will be arranged under non-partisan auspices, but the President's campaign managers are counting on them to help out in New York State.

Tokio, Oct. 13.—The Toyo Kisen Kaisha is building two large passenger steamships each of about 17,000 tons gross register which will be used in service to San Francisco. One will be called the San Francisco Maru but the name of the second has not yet been selected.

The company will also build as soon as possible eleven freight steamers, five of which will be utilized in the New York service by way of the Panama Canal.

It is also learned here that Great Britain has requested Japan to build 100 steamers in an effort to make up for the depletion caused by the raids of enemy submarines.

FOREIGN WARSHIPS SWARM TO AMERICA

Master of Russian Steamer Brings In News of Their Coming.

BRITISH DESTROYERS ON THE LOOKOUT

Other Allied Ships of War Thought to Be Near—British Shipping Moved Out In Consequence.

Boston, Oct. 13.—A fleet of foreign cruisers and destroyers is off the American coast, according to the captain of the Russian steamship Hesperus, which arrived here today from Spain.

To the pilot the captain reported that a "lot of destroyers and cruisers" passed his vessel off Cape Sable Wednesday, headed southwest. At the rate of speed they were going, he said that they must be off the American coast now.

Pilots who were in Massachusetts Bay yesterday reported that three torpedo boat destroyers cruised off the coast all day.

Belief that they were British was held by man water front authorities who connected their appearance with the fact that yesterday the British vessels at this port moved out after being held here since Sunday.

THE METROPOLITAN OPERA New York's great opera house is more than a palace of song.

The patrons of the Metropolitan Opera House may be divided into several classes. There are the ones who go to hear the music, and the others who go because it is the thing to do.

Paris, Oct. 13.—Forty French and British aeroplanes dropped four tons of explosives last night on the Mauser works, at Oberdorf, in Germany, on the Neckar river, the war office announced today.

ALLIES' AIRSHIPS ATTACK MAUSER PLANT
