Exum, N. C., Oct. 18.—The first Waccamaw Township Fair will be held here on Saturday, October 28, and the people from this section have planned and are planning to make it one of the most successful fairs of its kind held anywhere in these parts in recent years.

Other speakers will also be on the program and the candidates for offices in Brunswick county will each be given five minutes in which to announce their candidacy and tell the voters just exactly what they represent.

Dinner will be served on the fair grounds and the management has requested all to bring baskets so that the occasion may be made even more enjoyable by the serving of an old fashioned picnic dinner.

The officers of the fair are Messrs. R. M. Edwards, president; D. B. Edwards, secretary; Warren Edwards, treasurer; R. T. Melvin, chairman; and J. E. Clayton, general manager, and these gentlemen are working unceasingly to make the fair a most pronounced success.

The management has announced that all exhibits to the fair must be in by 10 o'clock on the morning of the opening and it is hoped that everyone that has an exhibit will have it on hand early so as to avoid the rush that inevitably follows the opening of the exhibit halls at all fairs.

A large number of the young men of the city are taking advantage of I. Shrier's Christmas Dress Up Plan whereby any young man desiring a suit of clothes for the holidays may have one made to his individual measure by the world's largest custom made clothing establishment—The International Tailoring Co., represented in Wilmington by Mr. I. Shrier. If you have not already availed yourself of this opportunity suppose you call in and see Mr. Shrier today, or any of his assistants. The plan is simple as A B C's and all that is necessary is to make your first payment of \$3.00 to \$5.00 at the time your measure is taken, and thereafter make weekly payments of from \$2.00 to \$5.00 until the purchase amount of the suit is consumed. In this manner you scarcely miss the weekly payments made and before you realize it you will have fully paid for your suit. Mr. Shrier, of course, reserves the right to retain the suit until the full amount has been paid. The plan is meeting with popular favor and already a large number of the young men have given in their order.—Adv't.

MANY SAW EXHIBIT.

A. C. L. Agricultural and Immigration Agent Returns to City. Approximately half a million people saw the exhibits of agricultural products of the Atlantic Coast Line at fairs in half dozen or more Northern States during the past two months; according to Mr. G. A. Cardwell, agricultural and immigration agent of the A. C. L., who returned here the early part of the week. The special car with its exhibits attracted much favorable comment and was a splendid advertisement for the South. The display included fruits and vegetables and forage in shock and in bales. The corn exhibit attracted much favorable comment among the farmers of the West—the long recognized corn belt of the country. The bale of cotton that was loaned by Messrs. Alex Sprunt and Son attracted much attention. Because of the prevailing high price of the fleecy staple the cotton received more than its share of attention.

VIVAUDOU'S Peroxide Tooth Paste

Melbourne, Australia, Oct. 17.—When it was decided recently by the Federal Ministry to revive the architectural competition for a design for the Federal Parliament House at Canberra (the commonwealth capital site) which suspended in September, 1914, on account of the outbreak of war, Australian architects declared this was "practically giving the thing to the United States." By this was meant the advantage held by Americans in that their nation is not at war.

The Victorian Institute of Architects protested against proceeding with the competition at present but the Minister for Home Affairs King O'Malley, a Canadian who was once a New York bank clerk, replied that the decision was that of the Cabinet and was unanimous; that while some architects might not be able to compete on account of the war sufficient talent should be available to ensure a satisfactory range of designs being submitted.
