are thinking of them daily.

The society recently shipped fifteen comfort kits to members of the Wilmington Engineer company and while this fact is not generally known ,the boys received them long age and have been enjoying their use since. The local Red Cross society has perhaps done more for the boys from this city that are on the border than any organization has done for young men from their community and much of the credit is due Mrs. Cuthbert Martin and Mrs. L. Bluethenthal for they have worked tirelessly to assure the success of the undertaking and to gladden the hearts of the boys ayong the border.
