Wave Puts Out Fire of Ship.

San Francisco, Dec. 18.-While on her voyage from Sydney the barkentine Griffith caught fire following an explosion in the donkey house. Mate Robert Monroe was badly burned and with no way to fight the blaze it seemed as if the ship would be lost. Then came the unexpected. A giant wave lashed by the heavy wind swept over the little vessel, the blazing donkey house went overboard, and the fire was out.

Black as Midnight In That City at Nine This Morning

Pittsburgh, Pa., Dec. 18.-Pittsburgh today experienced what the weather observer said was the darkest day in its history. At 9 o'clock this morning the streets were as: black as ordinary midnight, with electric lamps on in full force and automobiles and street cars lighted. All traffic was seriously impeded.

The weather bureau said the darkness was caused by a falling temperature, with formation of a fog. The fog mingling with the smoke from mills and factories, was held over the

OURS

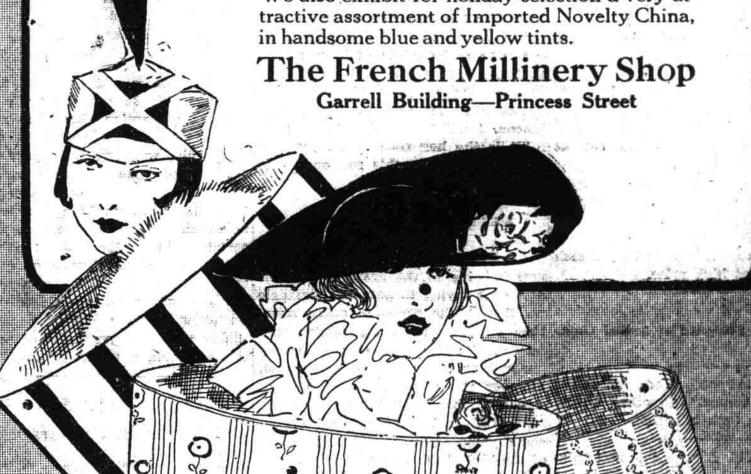

Are the Accepted Millinery Modes Rather than the Experimental Ones

Each season sees a host of millinery experiments—pet ideas of designers who hope to push them into popularity. Those styles have never become a part of our showing-we wait until styles are approved and accepted-and then collect our displays. By this method you are assured style authenticity in millinery.

The Chief characteristic of our displays is faithful and unquestionable style correctness. The hats we show are very uniquecalculated to suit each individual taste in a manner that will fit in with the prevailing mode.

> Dainty French Millinery, Ostrich Fans with Neck Piece to match, Corsage Bouquets, Dainty Handkerchiefs and Neckwear, Exquisite Silk Patterns for Evening Gowns, Opera Bags and Boudoir Caps, Silk Mufflers and Fancy Handkerchiefs for Sport Wear, Etc.

> We also exhibit for holiday selection a very atin handsome blue and yellow tints.
