But Congress in addition to reduc- man of the American commissioners, ed. The Indians there, who number ing the proposed rates by one third on the last day of the conference at about 135, are poor. Their land is provided for reducing the tariff five Atlantic City several weeks ago.

Step On Your Feet Try this yourself then pass it along to others. It works!

Laugh When People

Ouch ! ?! ?! 1 This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain. He says freezone is an either compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. -Advt.
