

DRAFT LOTTERY WILL BE PUBLIC

Last Preliminary to Drawing Men For Big Army Now Being Staged.

(By United Press.) Washington, July 7.—The last preliminary before the draft law calls the nation's young men to arms was being rushed to completion throughout the country tonight. In the Capital the great Federal supervising organization is ready and waiting upon the States.

From 12 States final reports reached the Provost Marshal General's office that every preparation was finished. They are ready for the draft. In response to urgent appeals from General Crowder to expedite formation of local boards, other States telegraphed assurances that they would be ready soon.

General Crowder is straining the resources of his organization to stage the draft lottery within ten days. The next day after every local board has assembled and affixed the red ink serial numbers to the registration cards, the draft will take place in Washington.

A scheme for drawing the number of men for the first levy was laid before Secretary Baker today. Under this scheme small numbered slips of paper will be placed in little gelatin capsules and thrown into a big glass globe. On the day of the drawing they will be pulled out at random.

Each number will draft the men in every county and city holding the "key" number. The numbers are to correspond to the red ink serial numbers now being affixed to the registration cards by local boards.

At the request of President Wilson a committee of prominent men is being picked to watch the lottery. It will be a public affair.

In a message to the boards calling upon them to finish their work at once, General Crowder said "every day lost now means a day lost in the organization of the armies of the United States"—and this means thousands of lives.

Following are the States that are ready and waiting: Rhode Island, Connecticut, Delaware, Louisiana, Maine, Nebraska, New Mexico, Tennessee, West Virginia, Wisconsin, Vermont, Arizona and the District of Columbia.

HOOVER ISSUES HIS FIRST LESSON TO HOUSEWIVES

(Continued From Page One.)

Printed on each card are Hoover's rules, by which you can help Uncle Sam win the war through the kitchen. Summed up, the doctrine is:

"Use less wheat, meat, milk, fats, sugar and fuel.

"Use more fruits, vegetables and foods not suitable to be sent to the camps or firing lines.

"Buy food grown close to your home. This reduces the food distribution problem and gives the railroads more facilities for war materials and troops."

"The rules are simple and easy," said Hoover tonight. "Any one can follow them. All of us must, win the war by giving your own daily service."

"You can save wheat by having one wheatless meal a day. Use corn, oat meal, barley or rye bread and non-wheat breakfast food. Order bread 24 hours in advance, so your baker won't over-bake. Cut the loaf on the table as required. Use stale bread for cooking and toast. Eat less cake and pastry.

"Save the meat by eating beef, mutton, or pork not more than once a day. Substitute fresh vegetables and fish. Serve smaller portions. Serve stews instead of steaks. Use all left-overs. This means meat enough for everyone at reasonable prices.

"Save milk by using every drop; give the children plenty, but use buttermilk and sour milk for making cheese and cooking. Use less cream.

"Save fats.—We are the world's greatest fat wasters. Butter is essential to child growth, use it on the table but not in cooking. Fry fewer things. Soap contains fats. Don't waste it. Make your own washing soap at home out of saved fats.

"Save sugar.—We use three times as much per person as our allies. Use less candy and sweet drinks. Do not stint the use of sugar in putting up jams and fruit. They save butter.

"Save fuel. Coal comes from a distance. Railroads are overburdened hauling war materials. Help relieve them by burning fewer fires. Use wood when you can.

"Use perishable foods. Fruits and vegetables we have in abundance. As a nation we eat too little green stuffs. Store potatoes and other roots properly and they will keep. Begin now to can or dry all surplus garden stuffs.

"Use local supplies. Patronize your local producer. Distance means money. Buy perishable food from the neighborhood nearest and thus save transportation.

The first girls' high school in the United States was established in 1826. Ten thousand women are employed in the printing and binding trades in England.

Martin Luther was one of the first to advocate the employment of women as teachers.

GOES TO BETTER TRADE TIES FOR AMERICA

(By United Press.) Washington, July 7.—To investigate trade conditions in Argentina, Charles Lyon Chandler, South American agent for the Southern Railway, sailed from New York for Buenos Aires today on the steamer Vestris. He was accompanied by a party representing Southern cotton mill and lumber interests. This is the first delegation of its kind to go from the Southeastern States to South America with the object of cementing friendly trade relations between the two continents. Two months will be spent in Argentina. Chandler expects to reach there early next month.

EXHIBITION FIRE PROVED TOO REAL

(By United Press.) New York, July 7.—When New York fire fighters today gave a demonstration of fire fighting on a specially prepared building in the New York City college stadium, for the benefit of the Russian war mission, the flames got beyond control, spreading to the grand stand. The crowds fled and the firemen extinguished the blaze before any damage was caused.

SOCIALIST PAPER BARRED FROM MAILED

(By United Press.) Philadelphia, July 7.—A newsless newspaper called the "People's Press" appeared in this city today. It is a Socialist publication and was denied the use of the mails after printing an article calling for the repeal of the conscription law. The paper is edited in this city and printed at Reading, Pa. Subscribers today received copies containing no news and some advertisements.

RACE FEELING RUNS HIGH IN OHIO TOWN

(By United Press.) New Comerstown, Ohio, July 7.—Race feeling ran high between blacks and whites here tonight and officials were on the lookout for trouble following the capture by a posse of a negro believed to have shot Alva Myers, a watchman. Myers' condition is serious. The negro was spirited to another town. Six hundred negro laborers were recently imported here from Alabama.

Annette Kellerman, the famous aquatic actress, is said to receive a salary of \$2,500 a week.

The Minnesota Federation of Women's Clubs will hold its annual convention at Mankato in September.

Women cannot vote for delegates to the Indiana constitutional convention next fall, according to a recent court decision.

Women gate tenders are employed by the Lehigh Valley Railroad.

In Norway, Sweden and Finland women are frequently shipped as sailors.
