**MR. HAM RESIGNS.**  
 Agent for the Atlantic Coast Line for Past Twelve Years.  
 C. C. Jan. 17.—The Mullins Enterprise today has the following of interest:  
 "One of the most important changes in the commercial life of Mullins in the past twelve years is that of the resignation of J. Ham, agent of the Coast Line railroad system, so far as Mullins is concerned."  
 "This news will come as a great surprise to the people of Mullins, for Mr. Ham has been looked upon as an indispensable part of the great Coast Line system."  
 "He came to Mullins about 12 years ago to succeed the late Eugene Gilchrist, and during all these years he has stuck close to business, working almost night and day at times in a faithful endeavor to keep up the many intricate duties that the agent is expected to perform. These duties, it may be said here, have become very heavy of late, and Mr. Ham found his health giving way under the heavy strain and welcomed the opportunity to be relieved. In addition to the railroad business, both freight and passenger traffic, the express business has grown heavily and again, too, the telegraph office is doing more business than ever before, and with all these increased duties falling on the same working force, Mr. Ham found it a physical impossibility to stand up to the work."  
 "When asked by a reporter yesterday what his plans for the future were, he said that he had not fully made up his mind. That he had been offered work in the railroad service and had also several other projects in view, but just which he would select he was not able to say."  
 "Mr. Ham's familiar face at the depot will be missed. He is clever and accommodating to the trade and it will likely be a long time before the Coast Line will get a man that will fill this place as acceptable as he has. His many friends—and that means everybody in Mullins—hope that he will remain among us. He is a good citizen, honest and trustworthy in every respect, and Mullins cannot afford to lose such a valued citizen."

**AUSTRALIAN BALLOTT.**  
 Bill Passed Third Reading in House of Representatives.  
 Columbia, S. C., Jan. 17.—In spite of a stubborn fight made to postpone

consideration until the following day, the House of Representatives Tuesday night passed to third reading by overwhelming majority the Australian ballot bill, introduced by Speaker Coghlan at the last session of the Legislature.

**MAYOR OF ROCK HILL.**  
 V. B. Blackenship Elected by New Board of Commissioners.  
 Rock Hill, S. C., Jan. 17.—The newly elected Board of Commissioners, taking office Monday night, elected V. B. Blackenship mayor. R. L. Sturgis, who has been serving as mayor, was elected mayor pro tem. Dr. W. G. Stevens, the other member of the board, is serving his fourth year as a member. The election of various city officers will be taken up later.

**FIRES LAST NIGHT.**  
 The Department Responded to Two Calls Early Last Night.  
 The fire department responded to two calls yesterday and quickly extinguished flames which did little damage. The first alarm was on account of a small fire at Burnett's garage last night at 7 o'clock, on Fifth and Wright streets. An electric automobile owned by Mr. George Hunt, caught fire and was considerably damaged before the firemen worked the chemical engine to good effect.

About 9 o'clock last night the department was again called out and extinguished the flames in a small one-story dwelling owned by Mr. R. Stone in the northern part of the city. It is said that the damage resulted amounts to several hundred dollars. A lamp explosion is said to have been the cause of the fire.

**Died in France.**  
 Washington, Jan. 17.—General Pershing today reported the death of Private Isaac Jordan, Jr., engineers, on January 14, of pneumonia. Jordan's home was in Valdosta, Ga.

**GRAND 2 DAYS BEGINNING TOMORROW**  
 AS GOOD AS CLAIMED.  
 Wally Holston treated Royal patrons to a distinct novelty in the new bill presented at the Royal for the first time yesterday and to go on again today and tonight for the last times. It went over big before three pleased audiences and was a distinct innovation in popular priced amusement lines.

**Wills Lady Minstrels** is the way the show is billed and it is something like of which has never before seen on the Royal stage. This company prides itself on presenting the most genteel and high class popular priced show on the road, and is catering to the very best patronage only, and the big opening show proved no exception to this rule. It is a minstrel show in every sense of the word and remarkable results were achieved by the 12 artists composing the organization, some of the acts going over with the snap and vim that characterizes the very biggest minstrel organizations. A special scenic setting added greatly to the show, and the chorus work was remarkably well done, with some very neat and original costumes along new lines. This bill goes on today and tonight for the last times, "The Raw Recruit," their third and last bill, going on tomorrow.

**MARGUERITE CLARK**  
 Marguerite Clark, the most winsome and dainty star on the screen, the star whom every man, woman and child in the whole world just simply adores, is to play Wilmington a visit, staying for two days this time, beginning at the Grand tomorrow, when she presents her greatest screen characterisation, "Bab's Diary," a marvelous and enjoyable film version of Mary Robert Rinehart's famous, "Sub Deb" story, which ran serially in the Saturday Evening Post and created such nationwide comment everywhere.

**TO STOP A PERSISTENT HACKING COUGH**  
 The best remedy is one you can easily guarantee. Cheap, but very effective.  
 Thousands of people normally healthy in every other respect, are annoyed with a persistent hacking or bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless—there's an old home-made remedy that will end such a cough easily and quickly.  
 Get from any druggist "2 1/2 ounces of Pinex" (60 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually the cough will disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight throat, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relief comes almost immediately. A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.  
 Pinex is a most valuable concentrated compound of genuine Norway pine extract, and is used by millions of people every year for throat and chest colds with splendid results.  
 To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

**Dr. Bell's Pine Tar Honey**  
 for Coughs & Colds  
 Now's the Time to Prevent Its Serious Consequences.  
 You will not find a better remedy than Dr. Bell's Pine Tar-Honey to prevent your cough from developing into a grave and even dangerous ailment. This pleasant balsam preparation is antiseptic, and quickly effective. When you take Dr. Bell's Pine-Tar-Honey you check the spread of infectious germs, loosen and help eliminate the phlegm, soothe the inflammation, and relieve that grippy feeling.  
 Get a bottle of Dr. Bell's Pine-Tar-Honey and watch your improvement from the first dose. Do not be satisfied with half-treatment, however. Take Dr. Bell's Pine-Tar-Honey till your grippe, cold, or bronchitis is completely relieved.

### THEATRE

**LYMAN H. HOWE'S TRAVEL FESTIVAL.**  
 The development of the greatest contribution of the Allies in the world war, the caterpillar tractor, is shown in Lyman H. Howe's newest Travel Festival, which comes to the Academy of Music on Saturday matinee and night, January 26.  
 Oddly the caterpillar, to which invention is due the British armored tank and other similar contrivances, is the creation of an American, Benjamin Holt. The caterpillars are playing a vital part on the battle-fronts sweeping over trenches, through forests, and across barbed-wire entanglements like a juggernaut. Thus far the Central Powers have found nothing to cope with these on-rushing mechanical giants.  
 The Howe cameramen caught the huge caterpillars in thrilling action in the United States army, under the skillful manipulation of daring "Sammys," where the films were taken by special permission of the government. The pictures show the caterpillar tractor dragging long trains of army wagons up hill, across streams and through mud many feet deep. The speed which can be maintained by the tractor, despite very unfavorable road conditions, is vividly demonstrated. Its remarkable agility, based on its ability to go up and down hill at seemingly impossible angles and to turn sharply within its own length, is brought out graphically.  
 The tractor pictures constitute an important feature of Mr. Howe's new Travel Festival, which has as another headline offering a remarkable tour of China, taking audiences into the secret and sacred corners of the Celestial Empire. For the first time, the Forbidden City is revealed on the screen. A picturesque tour of Alaska is another big feature. These remarkable scenes show the birth of huge icebergs in the North Pacific, grotesque totem poles, the modern methods of gold mining, and visits to the bizarre mining towns, as well as hunting and fishing excursions into the wilds. The new Travel Festival presents a fascinating visit to Coney Island, in which the spectator is taken to every one of the famous resort's fun-creating amusement devices. The program, too, numbers many new, animated cartoons, said to be the best yet created by the Howe staff of humorous artists.

**AS GOOD AS CLAIMED.**

**TO STOP A PERSISTENT HACKING COUGH**  
 The best remedy is one you can easily guarantee. Cheap, but very effective.  
 Thousands of people normally healthy in every other respect, are annoyed with a persistent hacking or bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless—there's an old home-made remedy that will end such a cough easily and quickly.  
 Get from any druggist "2 1/2 ounces of Pinex" (60 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually the cough will disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight throat, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relief comes almost immediately. A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.  
 Pinex is a most valuable concentrated compound of genuine Norway pine extract, and is used by millions of
