

# KALEDINES, GREAT COSSACK GENERAL, COMMITS SUICIDE

## Fatally Shot Himself at the Headquarters of the Cossack Government

### LEADER OF A REVOLT AGAINST BOLSHEVIKI

#### Killed Himself When His Government Decided to Resign—Captured 20,000 Prisoners

Petrograd, Friday, Feb. 19.—General Kaledines, hetman of the Don Cossacks, committed suicide at Novo Tcherkask, headquarters of the Don Cossacks, during a session of the Novo Tcherkaska government which he attended. The government decided to resign and transfer its power to the local Workmen's and Soldiers' Council. After the decision, General Kaledines went to an adjoining room and shot himself.

General Navaroff, who succeeded General Kaledines as leader of the Don Cossacks, ordered the immediate mobilization and arming of all Cossacks to fight the Bolsheviki troops advancing toward Novo Tcherkask.

As leader of the Don Cossacks, General Kaledines was opposed to the Bolsheviki and he was the leader of the counter revolt against the Bolsheviki early last December. On January 1, the Republic of the Don was declared with General Kaledines as president and prime minister. It probably was the resignation of this government that led to his suicide.

In five weeks during June and July, 1916, Russian troops under General Kaledines captured 20,000 prisoners in and advance in Volhynia. He was elected leader of the Don Cossacks in July, 1917.

An unconfirmed report that General Kaledines was believed dead was received on February 18 from the American consul at Tiflis.

### URGES THAT WOOD BE BOUGHT AND STORED

#### Coal Will Be Scarce and Costly Next Winter, According to Indications

Stress is still being laid upon the advisability of all purchasing wood for use next winter by Mr. M. S. Willard, as chairman of the County Fuel Administration, as coal is expected to be scarcer and more costly during the winter to come than during that now passing, and the following on the subject is not amiss: "The United States Department of Agriculture has just issued a bulletin in which they emphasize the fact it is impossible to know how much coal there will be for general fuel purposes next year. The enormous demands made upon both coal producers and transportation companies will probably make the shortage more widespread and severe than this year. They advise very strongly that those communities that have the wood around them provide some time during the season a sufficient supply shall be cut and hauled so as to be easily available for next winter. They also advise very strongly that a municipal wood yard shall be in operation in every town and at work building up the reserve for next winter.

The State Fuel Administration of New York, foreseeing an embargo on coal next winter to those communities which have access to supplies of wood, have inaugurated a vigorous campaign to build up a wood supply in every community in the State of New York so they may be provided against lack of fuel next winter. In fact, it is very probable that coal will simply be refused to those communities which can get wood and there is no town better situated to secure an ample supply of wood than Wilmington.

"The United States Department also refers to the action of the Conservation Commission of Canada where they have established a definite organization for utilizing the large supply of wood available for fuel. They are prevailing on the City and Municipal governments to go into the matter definitely and invest a moderate amount of money in building up a reserve of wood whenever the coal shortage makes it necessary.

"The County Fuel Administration of New Hanover county cannot urge too strongly upon householders and others the necessity of providing now for as great a supply of wood for next winter's use as possible. It is not only probable that our community will be denied a full supply of coal, but that local dealers will be prohibited from furnishing consumers more than a limited percentage of the amount used by them the past winter."

### ONE DEFENDANT ACQUITTED.

Case Charging Dave Epps With Violation of Prohibition Law Continued. Tuesday's docket in Recorder's court was rather heavy, but a number of the defendants were granted continuances until Wednesday or later, and although court was in session for a considerable period, there was little of interest disposed of. The case charging Oscar Berry, colored, with the larceny of an automobile tire, was perhaps the most interesting. Berry's arrest growing out of Saturday night's affair when Officer Leon George caused Berry to drop his overcoat and came when he discharged his pistol. Berry was discharged as not guilty, the State not being in possession of evidence that would convict. Willie Johnson, colored, charged with larceny was paroled for a six-month period with Probation Officer Johnson, after a charge of larceny against him had been transferred to the juvenile docket.

The case charging Dave Epps, colored, with violation of the prohibition law, was continued until Wednesday. He was discharged in the case charging him with assault on a female. Judgment was left open in the action brought against Willie McCoy for vagrancy. One unfortunate was up for a drunk; judgment was continued upon the payment of the costs.

Suit Started Tuesday. Suit started in Recorder's court Tuesday by the Acme Steel Goods Company against the Orienta Ice and Development Company of Pamlico county. No complaint has been filed as yet.

**Easy to Make The Pine Cough Remedy**  
Thousands of families across the country are suffering from coughs, colds, and sore throats. This remedy is easy to make and saves about \$2.  
You know that pine is used in all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and relieving the membranes of the throat. Pine is famous for this purpose. Pine cough syrups are combined with honey and sugar. The "syrup" part is usually plain granulated sugar. Nothing better, but why buy it if you can easily make it yourself in five minutes? To make the best pine cough remedy that money can buy, put 2 1/2 of Pinex (60 cents worth) in a bottle, and fill up with home-made syrup. This gives you a full pint that you can buy ready-made for \$1.00. It is pure, good, and very pleasant. Children take it eagerly. You can feel this take hold of a cold in a way that means the cough may be dry, hoarse, and may be persistently loose formation of phlegm. The cause is the same—Inflamed membranes—Pinex and Syrup combination works usually in 24 hours or less. So, too, for bronchial asthma, hay fever, or any ordinary throat ailment. Pinex is a highly concentrated pound of genuine Norway pine and is famous the world over for its prompt results. Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" in reactions, and don't accept a cheap imitation or money probably for the Pinex Co., Ft. Wayne, Ind.
