

### DR. LANDRUM PREACHES TO MEREDITH GRADS

#### Noted Pastor of Broadway Church in Louisville Heard in Raleigh.

(Special to The Dispatch.)  
Raleigh, May 21.—Meredith college with its 28 seniors made an impressive beginning of the commencement exercises about Raleigh Sunday, and the Baptists on the strength of the renewed interest that the several hundred families represented in the student body are gaining, hope to go soon over the top, their movement for a million.

The baccalaureate sermon to the girls was preached by Rev. Dr. W. W. Landrum, pastor of Broadway Baptist church, Louisville, Ky. The preacher must have assumed that the young women have learned the fundamental truths that the beginning of all education is intensely self-conscious; the ending as intensely self-forgetful. He preached to them as though they have learned by now that they have accepted the exacting discipline of the schools in order to forget that there is any such thing as the school. He talked to them as people who have learned the apprentice is servant of detail but the master servant of the idea.

For that reason it was about as unconventional a baccalaureate sermon as one hears. He admitted it at the close when he said he had no message for the graduates which was not meant also for the company. In a word it was the application of Christian principles to whatever they undertake in the way of unlocking life.

The sermon was preached in the Baptist Tabernacle. The special music was a delightful feature of the three days that always attract so much of Raleigh to the commencement. The college has lost its Professor Albert Mildenberg by illness, but Miss Charlotte Fuegger, the Belgian refugee, who came here when the war broke her engagement with Oberlin, is making the music department notable.

Sunday night Dr. Landrum spoke in the First Baptist church, preaching the annual missionary sermon. The commencement exercises then waited on the evening recital last night to which admission is given by card because the Meredith auditorium is limited. This morning Dr. Paul Storey, of the University of Chicago, makes the annual commencement address.

#### Boys to Camp.

Forty students additional to the seniors who have gone to Plattsburg training camp left Saturday. These boys will report at Plattsburg June 3 and remain there 30 days. Those signed up are: S. C. Brothers, Frank; Cyrus Black, Jr.; Davidson; John H. W. Bonitz, Wilmington; Robert Edward Brackett, Neaville; John Frederick Clark, Greensboro; Horace Downs Crockett, Charlotte; Thomas Marvin Denison, High Point; Hugh Woody Dixon, Elkin; John Gatling, Raleigh; Henry Hall, Jr., High Point; James Shoffner Hathcock, Norwood; Solomon Linn Homewood, Burlington; Arthur Lee Humphrey, Wilmington; Fred Duncan Jerome, Kenly; William Daniel Johnson, Washington; Forrest B. Long, Charlotte; Paul Hedrick Long, Thomasville; Paul Thomas Long, Jackson; Zeb Arch McCall, Elrod; Alexander Bryan McCormick, Rowland; Howard Foster Massey, New York; Burton Forrest Mitchell, Shelby; Eugene James Moore, Winston-Salem; William Carey Murrell, Wilmington; Dwight Hendricks Osborne, Greensboro; George Mason Parker, Woodland; Zeb Vance Potter, Vandemere; Edmond William Pressley, Barlow, Fla.; James Latham Rea, Matthews; George Randolph Robinson, Rocky Mount; Henry Tatum Rowland, Middleburg; Walter Dupree Shields, Scotland Neck; Walter Leith Shapping, Morganton; Jacob Neeley Summerell, China Grove; Aubrey Bryant Waddell, Louisburg; Jew Irvin Wagoner, Gibsonville; Samuel Stanhope Walker, Martinsville, Va.; Robert Phifer Watson, Salisbury.

Roy Homewood, star end on the university team several years ago, and one of the best of all modern students graduated by the university, is second lieutenant in one of the California training camps and although his boys are going over rapidly and he is crazy to follow them, his athletic value is such as to give him an indefinite stay in this country.

Lieutenant Homewood is a brother of S. L. Homewood, who goes with the bunch of boys now preparing to join the upper classmen in Plattsburg. Both Homewoods are fine college boys, fine athletes and will probably land in the same sort of work. S. L. Homewood captained the State College of Agriculture and Engineering last year.

Fairmont, N. C., May 21.—The prospects are good for a large tobacco crop this season, according to the reports of the farmers. The warehousemen say that the season will open on the first of July. Fairmont will have greater competition than ever this season, but the past record of high prices, clever warehousemen, large warehouses and the co-operation of the merchants will play a big part in the success of the season.

The ladies of the Red Cross chapter are busy now with the work of the second war fund. The Fairmont chapter is worthy of good praise for its efficient work along this line.

### PRESERVERS AT HOME ARE NOT RESTRICTED.

(Special to The Dispatch.)  
Raleigh, N. C., May 21.—State Food Administrator Henry A. Page today instructed county food administrators to authorize sales of sugar to individuals who require it for preserving and canning fruits and vegetables in such amounts as may be required. The recent sugar rationing, which is still effective, permits the sale by merchants of up to 50 pounds of sugar to individuals desiring it for canning and preserving purposes upon a certificate, supplies of which may be secured by retailers from the office of the food administration.

Larger quantities than 50 pounds may be secured only upon authorization of county food administrators, who will satisfy themselves that the sugar is needed and will be used only for the purposes indicated.

The rationing of sugar to all commercial users will result in ample supplies of sugar for canning, preserving and other essential purposes.

### The Watch That Tells Time In The Dark

YOU can buy this watch for only \$2.25 from the dealer in your own town.

It is an Ingersoll Radiolite, the latest invention of the famous House of Ingersoll, which has made 50 million watches in the last 25 years.

This Radiolite looks like any good watch when you see it in the day time, but at night it is wonderful. Both of the hands and all the figures on the face glow like stars, and you can tell the time no matter how dark it is. A substance containing real radium makes these figures stand out, and this brightness is guaranteed to last for as many years as the watch.

If you work in the night shift in a factory, or in a mine, or on a farm, you will find this the most satisfactory watch you can buy. You do not need to light a match or get to a lamp in order to know the time.

Ask your dealer to let you have one over night, and if it is not just what we say, you can have your money back next morning.
