OUR ADVICE.

THE DEAR GIRLS OF NORTH CABOLINA

one who Loves Them all, and Degres Their Future Happiness.

tet us advise vou. Advice costs nothstherefore it is more freely given than wired. We know nothing whatever of subject in regard to which ours is bestherefore it is peculiarly valuable. whear us: Don't say you "Yes" to man, simply because he swears he rayou and asks you to marry him. Mysof young lives are yearly stranded breer, shipwrecked, ruined, turned to mering long drawn death, by a little overste to escape the stigma of old maidism. Reter a thousand-fold, die the wrinkledest i maid that ever ran a menagerie of black mand furnished a target for ill bred ing tongues, than doom yourselves to tozen hell of unhappy wifehood .eter, infinitely, incalculably better be arried to the grave with a cheek which ghuman lip ever pressed in fond caress, in wait through the long, dark dismal whight of married uncongenialty and gleel. Thoroughly test and study him maks you to entrust your earthly hapiess, yourself, your all, to his keeping. by this sure plummet of womanly disment into his nature, and learn how mand pure its waters are. Find out igher he has a heart; many a thing that ses for it in these days is only a gizzard; my a one though genuine, would be too all and despicable for an average wharf mis carcass. Be sure that he loves you with the full strength of a broad, full, manlyheart, whose ample treasures of affection ine not been squandered, fritted away on 1score of indiscriminate objects. Half of the so called "loves" of earth is only "likes;" and liking isn't loving. Don't marry a man who merely llkes you. The love that binds together, in sweet and blissful mion two kindred souls and bodies, is the nighty, deathless, resistless affection that hence seem eternity; that glows and inswhile life endures; and, unquenched Death's dread, rolling tide, rises to shine inver, with brighter and purer radiance in the changless skies of Paradise Beyond It defines the creature of its adoration, ind fings a halo of heavenly beauty and gory around things that, to other eyes kem common place and dull. True love sheroic It defies danger, challenges fate bis teeth, and braves death itself without utudder or a murmur. The who wouldn't, Incressary, charge straight into the open pas of perdition for you-far enough, at to get his eyebrows singed,-doesn't we you as he should. There can be no make about it. No wordy protestations t needed. Every movement, act and will tell you all you need to know. are deceived, the fault is your own; adit were better for you that a dozen menty ton grinstones were swung to your this and you were cast into the middle of Atlantic Ocean. then went to talking about the donation visit to be given the preacher, and he carelessly droped his hand on hers-his right hand, while his left arm sneaked along the sofa to get behind her shoulders. She pretended not to notice it, and he looked. down at his boots' and wanted to know if she thought mutton tallow rottted out boots faster than lard and lampblack. She couldn't say but she had an idea that it did He had just commenced to lock fingers with her when she discovered something ailed the lamp. She arose and turned the light down a half making the room look dim. It took him five minutes to get hold of her fingers again, and she pretended to want to draw her hand away all the t'me. After a long pause, he lowered his voice to a whisper, and said he didn't see what made folks love each other. She hugged up to him and admitted her ignorance. He said that he could name a dozen young men who were going to get married right away and his left arm fell down and gave her a hug. Then he went over to look out of the window to make sure that it was or was not going to rain, and coming back, he turned the light down a little more, and then sat down and wanted to know if she didn't want to rest her head on his shoulder. Ah ! me ! we have been there, and who of us care a cent when the clock strikes twelve-one-two, and we five miles from home, the old man fast asleep, the watch dog gone a visiting, and him. the handsomest girl in the country resting her head on our shoulder. Old Blobs got tired of having the dog arcund, a useless beast, although affectionate, and taking him out in a vacant lot, he tied a half pound can of dynamite to his tail and lit out for a safe place to see the explosion. The devoted, loving animal followed his master closely, and the faster went the cur with the fuse hissing behind him. Just about this time the thought crossed Blob's mind that he ought to have tied the dog; but he did not stop to consider he but for its object; that makes a day of it. Just as he lost his wind and picked up a stone to persuade the dog to leave, the thing went off. It was a success.
