Bellefonte, Pa., April 25.-Mrs. Wil liam Meyer, an aged widow, near Boalsburg, in this county, was burned to death last night while a large crowd of men stood helpless to rescue her from her burning home. The woman was alone, and started to save as much of her property as possible. She had carried out everything of value except a trunk, in which there was considerable money. She expressed her determination to save the treasure, and insisted on rushing into the house. She was eaught and dragged back twice, but the third time she broke away and dashed for the burning building. A moment later she was seen at the upper window with her clothes and hair afire, trying to raise the trunk to the sill to pitch it out. After several vain efforts she sank back. Her charred remains were recoveren.

Philippines For the Negro

Washington, April 25 - A proposition to utilize negro troops to a large extent in future military operations in the Philippines is attracting much attention and it is believed will be considered by the administration in the near fature. Such a policy is urged on the theory that certain racial affiliations may be utilized in a way to defeat rebellious acts on the part of Aguinaldo and his party and to bring peace to the newly acquired possessions of the United States in the east. Onethird of the population of the Philippines are negroes of the same race as those in the United States, and while not numerous about Manila, comprise nearly the entire population of some of the islands. The advocates of the scheme believe that in a short time there wou'd be assimilation between the negroes of the Philippines and their kindred from the United States and there would follow for the colored people opportunities to get homes and possibilities of careers they could not hope for in this country.

Middlesboro, Ky., April 26.-The body of Mrs. Virginia Brook was found in Lee county, Virginia, thirty miles from here, lying on a log heap, partly burned, but easily recognized. It is supposed that a man who has been paying respects to her murdered her and attempted to burn the body.

Forgery of a Public Law.

A sensation develops here in the trial of the Abbott-Beddingfield case, involving title to corporation commissionership. This is due to the discovery that the act abolishing the railway commission has been altered from March "4" to "6" as to the date of ratification, the figure "6" being written over the figure "4" in a bold hand. It was the purpose that the act be ratified March 4th, so as to give space of time between it and the act creating the corporation commission- The enrolling clerk's book shows the act was listed March 4th as ratified that day. The journals of the senate and the house show it was ratified that day. Speaker Connor is here and says he would not have signed the act with any such alteration showing. Chlef Clerk Deniels, of the senate, says the figure "6" is written over and that there is forgery. Clerk Hackett, of the house, says that there is some foul play and also says he finds on the house records book this act rubberstamped as ratified March 4th and below this rubber stamp a mark sloped and hastily made saying it was ratified March 6th. It can be readily seen what important bearing this has on Dr. Abbott's case.

His Body Found.

Charleston, S. C., April 26.-On the night of March 30th, Private Frank Gough, of the Second Rhode Island regiment, who had been mustered out at Columbia was on his way home and stepped or fell from the Atlantic Coast Line train at Pee Dee station in Florence county. Nothing was heard of him, and after four days the Coast Line authorities had the swamp and river near the station searched and dragged for a week without avail. Norfolk & Western R. R.

Petersburg, Va., April 26.-West bound passenger train No. 33, on the Norfolk & Western railroad, due here about 10 o'clock P. M., was wrecked to night about four miles east of the city. The locomotive was overturned on the main track and literally wrecked, as was also the tender. The baggage and mail cars, the passenger coaches and sleepers ran through a barbed wire fence into an open field for a distance of about 300 yards, and all but the sleeper were wrecked. Mr. Crannis, the engineer and his fireman. stood heroically at their posts and were not injured. They crawled out of the wreck through the window of the locomotive. Captain Douglass, the conductor, was uninjured and came to Petersburg on a hand car for aid to bring the injured to the city; The wounded are: C. D. Andrews, Petersburg, Va.; W. C. Cullen, express messenger, ankle sprained. Samuel Elerstein, New York, shoulder bruised; P. H. Dunenberg, Baltimore, Md., severely bruised.

Turpentine District.

Savannah, Ga., April 26 -Reports received from the turpentine districts of Georgia, Alabama and Florida indicate that first estimates of damage from the recent freeze were overdrawn. The information now is that the damage does not appear to be over one per cent. One, two and three-year trees are giving down about as much turpentine as if there had been no exceptional coal. The vield from upland trees is fully in accordance with the season, though lowland trees are a week or so behind. There will be no diminution of the crude output on account of the
