MAY PROVE BITTER FIGHT

KITCHIN FORCES MAY MIX SENATORIAL AND GUBERNATORIAL CAMPAIGN

OTHER RALEIGH NEWS

(By W. J. Martin.)

Raleigh, N. C., July 17.—About the latest and most discussed political development here is what is believed to be a strong indication that the gubernatorial contest for the nomination in 1912 is being drawn into the senatorial fight in so far as the contest between Senator Simmons and Governor Kitchin is concerned, and that there may yet be a third candidate for governor in the field—one to represent the Kitchin element of the party. Ever since the Charlotte convention in which Kitchin won the nomination for Governor over Locke Craig, there have been many who insist that the 1912 nomination for Governor is the due of Mr. Craig and that there is really a party obligation growing out of the contest to give him the next nomination. For several months W. C. Newland, president of the Senate and Lieutenant Governor, has been an avowed candidate for Governor. Neither of them have special political alliance with Governor Kitchin and Mr. Craig and Senator Simmons have been closely allied. This is giving rise, now that the fight is drawing up so sharply between Senator Simmons and Governor Kitchin, to a disposition on the part of some of Kitchin's friends, to agitate the question of making a fight on the nomination of Mr. Craig lest his influence made more powerful by the nomination for governor, be used in the senatorial campaign, between the July convention and the vote in the senatorial primary in the fall, for the furtherance of Simmons' interest. Friends of Mr. Craig are insisting that Mr. Craig will steer clear of the senatorial fight entirely and that the alarms on the part of the friends of Governor Kitchin are groundless. Whether this insistence can keep off the precipitation of a mix-up of the senatorial and gubernatorial contests as indicated remains to be seen. Also there is a possibility that the part that ex-Governor Aycock and Chief Justice Walter Clary play as the other candidates in the senatorial fight may effect very largely the possibility of there being another candidate for Governor in the field. This talk is involving again C. W. Tillett, as the possible third candidate for governor to represent the Kitchin wing. Mr. Tillett has not publicly receded from his public intimation some time ago that he would not be a candidate for governor.

The jury has returned a verdict of guilty of assault and battery on a woman in the cast against Turner Smith, on trial Friday and Saturday for criminal assault on Lillian Whitson while he was out driving with her two weeks ago. By a special act of the last Legislature the crime of which Smith is convicted is punishable with as much as two years in the penitentiary, whereas, he might have gotten twenty years had the jury convicted him of criminal assault. Smith was sentenced today. The girl was boarding with Smith's mother and while they were out driving Smith's conduct was such that the girl jumped from the buggy and ran in the darkness through a rough country to get away from him. After the Wake county commissioners and the county board of health have failed to get together on the matter of a salary for a county physician, the board of health wanting all of a proposed \$2,500 salary for Dr. McCullers to be paid out of the general county fund and the commissioners insisting that the school fund should bear a good part of this expense, since the physician must give much time to school matters, and forcing Dr. McCullers to resign, the Secretary of the State Board of Health reappoints him under the law and there will be an effort to force and adjustment between the commissioners and the school board as to the \$2,500 salary. The law provides that the secretary of the State Board may appoint and name the salary in the event the authorities of any county are unable to get together on this matter.

Sunday night there was a special sermon to the members of Pilot Counsel Junior Order United American Mechanics at Epworth Methodist church by Rev. C. J. Harrell. Raleigh has at least temporary relief from the threatened water famine, but while the flow is ample since the rains the past few days, the officials point out that there is a decided shortage of water in the earth from marked lack of rainfall all the summer and spring and unless there are frequent good seasons for some time to come the supply may become dangerously low at any time again.

NEWS ITEMS OF GENERAL INTEREST

MATTERS OF IMPORTANCE HAPPENING THROUGHOUT THE COUNTRY

The Democrats of Forsyth county believe that the investigation now in progress will show that the majority of Flint, Democrat, over ones, Republican, will be sufficient to instate the former in office.

Kansas City, Mo., July 16.—To recover \$142,000 alleged to have been stolen from Mrs. Margaret K. Armour, widow of Simeon B. Armour, the packer, by Miss Harriet Byington, a young woman who for the past three years served as companion and housekeeper to Mrs. Armour, suit has been filed in the circuit court here. Miss Byington had been conducting the majority of Mrs. Armour's business for her and had the keys to her safety deposit box.

Wilmington, July 16.—S. Einstein, aged 77 years, a prominent citizen of this city, was struck by a street car tonight in front of the Orton Hotel and badly bruised, but it is not thought his injuries are serious. He was carried to his apartments at the Carolina and a physician summoned. Mr. Einstein is the father of the brothers composing the firm of Einstein Bros., one of the largest wholesale stores in the State. Henry Jordan, a carpenter, was run over by a carriage of the City Livery Company and painfully injured.

Wickersham Vs. Wickersham.

Washington, D. C., July 17.—After secret consideration of charges made by Delegate Wickersham, of Alaska, that Attorney-General Wickersham deliberately permitted the statute of limitations to run against agents of the Alaska syndicate who defrauded the government through perjury to the extent of \$50,000, the House Committee on Judiciary has determined to report favorably a resolution of inquiry offered by Delegate Wickersham.

The resolution would call upon the Attorney-General to furnish the House with all documents, affidavits and testimony in his possession relating to an affidavit submitted to him more than a year ago and sworn to by H. J. Douglas, former auditor of the Alaska syndicate in 1908. The Attorney-General, when seen, declined to discuss the action of the committee. His friends intimated that the charges were old and that a certain phase of them still was under investigation. They declined to indicate just what this phase was. Delegate Wickersham started the committee when in executive session he produced a copy of an affidavit relating to an alleged criminal act committed by Capt. N. H. Jarvis, of the Alaska syndicate and formerly prominent in the government revenue cutter service, who committed suicide in Seattle on June 22nd, the day following the introduction of the Wickersham resolution, calling for the production of papers in the case, and by John H. Bullock, of the John J. Sesor Coal Company, of Nome. Through connivance of these men, it was charged that the government was defrauded on coal contracts and that evidence to that effect was permitted to remain unacted upon in the Attorney-General's office for more than a year until the statute of limitations expired last May.

Ten Per Cent Dividend.

Yorkville, S. C., July 17.—The annual meeting of the stockholders of the Clover Cotton Manufacturing Company was held in the office of the Clover Company. The annual reports of the president, Mr. G. H. O'Leary, and the secretary and treasurer, Mr. M. L. Smith, showed that the net profit for the past year, owing to the small margin between the price of raw material and the manufactured product, was less than in many years past, but was sufficiently large to warrant the payment of the usual 10 per cent dividend, and checks for same were delivered to those entitled to receive them immediately after the adjournment of the directors' meeting, which, as usual, followed the annual meeting of the stockholders. All the old officers were re-elected by acclamation.

Vital Spark Detected.

Chicago, July 17.—The "flight of the vital spark" has been witnessed, according to a statement by Dr. Patrick S. O'Donnell, an X-ray expert who has been following up experiments made by Dr. W. J. Kilner, of London, England.

Some time ago, using a chemicalized film sealed between the thin strips of glass, Dr. O'Donnell gave a demonstration to twenty physicians of the aura, or "electrical radiation," leaving bodies, four young women being used as subjects. The aura developed in a strong ray of light surrounding the entire form of the subject.

"Last night," said Dr. O'Donnell, "in the presence of several physicians at Mercy hospital, I tried the experiment on a dying man. He was rapidly sinking. Suddenly the attending physician announced that the man was dead. The aura began to spread from the body and presently disappeared. Further observation of the corpse revealed no sign of the aura.

"We do not claim that the light is the soul, or spirit. In fact, no one seems to know what it is. In my opinion, however, it is some sort of radio-activity made visible by the use of the chemical screen. My experiments, however, seem to prove that it is the animating power, or current of life of human beings."

ENSIGN YOUNG OF CONCORD

The Heat May Have Caused His Disappearance.

New York, July 17.—The whereabouts of Ensign R. S. Young, Jr., who mysteriously disappeared from the destroyer Perkins, is yet unknown to the general public. While the Brooklyn naval commander, Lieutenant Pringle, would not admit that he had ever seen the young man or his father, who had come on here from North Carolina, the latter, it is asserted, has paid a visit to the commander and himself has disappeared, but has carried with him the assurance that his son is alive.

Some of Young's associates still assert that he is love-sick, and will turn up married. This opinion, however, is not shared by several of the navy yard officials, who still believe that Young's body will eventually be found in the wall about the basin, into which they believe he threw himself.

The excessive heat is believed by the naval authorities to have been primarily responsible for the disappearance of Ensign R. S. Young, Jr., who was attached to the torpedo boat destroyer Perkins at the navy yard.

Epidemic of Typhoid At Little Rock.

Little Rock, Ark., July 17.—Following an appeal to the Federal authorities in Washington for aid in fighting an epidemic of typhoid fever in Little Rock, Governor Donaghey was advised that Dr. W. H. Frost, an expert in the national hygienic laboratory, is now on his way to this city.

Dr. Hoffman, chairman of the board of health, reports that the area of infection lies within three blocks of the city park, where the Confederate reunion camp was located. He says the disease, which became epidemic several weeks ago, is due to a lack of sanitary precautions.

Reports to the city physician show there are now 121 cases of typhoid fever.

Will Vote July 22nd.

Washington, July 17.—The Senate will vote on the Canadian reciprocity bill July 22; on the wool tariff revision bill, July 27; on the free list bill, August 1; Congressional reapportionment bill, August 3; Statehood bill for Arizona and New Mexico on the legislative day of August 7, and will adjourn, according to general understanding, quickly thereafter. This voting program, decided upon after prolonged conferen, was agreed to by the Senate.

The agreement contained no specific provision regarding adjournment, but it is understood generally that adjournment will follow immediately the disposition of the Statehood bill. All the measures mentioned have passed the House. President Taft was quickly acquainted with the Senate's action and expressed his gratification, particularly over the precedence given the reciprocity bill in the program.

Tax Valuation Troubles.

Wentworth, N. C., July 6.—The county board of equalization has been in session here for the last few days trying to set real estate values at the correct notch. But little headway has been made. The valuations in three or four of the eleven townships have been reduced, but the real battle is being postponed until one day next week and that battle will be fought over the valuation of cotton mills in the county.

The Corporation Commission has notified the chairman of the equalization board that under the machinery act, Section 5, page 54, all manufactured goods store and certificates therefor issued and money borrowed one same is regarded as solvent credits from which liabilities may be deducted. Assessor Price takes the position that such goods should be listed. The matter will be carried to the courts by the county assessor. The farmers of the county are watching every movement of the board.

An interesting decision has been sent the chairman by the State Corporation Commission, which says all stock held by a North Carolina citizen in a foreign corporation must be listed and taxed in this State. This will fall quite heavily on Mr. T. B. Fitzgerald of Draper, a very prominent and highly esteemed citizen of this county. It is said he holds \$200,000 worth of stock in the Danville, Va., cotton mills and will be liable for five years' back tax in addition to the 1911 tax, amounting to nearly \$10,000.
