CHOLERA DANGER OVER

COUNTRY NEED HAVE NO FEAR OF AN EPIDEMIC DECLARES DR. DOTY EVERY SHIP INSPECTED

New York, July 31.—The cholera situation has been absolutely mastered in this city, is the confident assurance of Dr. Alva H. Doty, New York health officer in charge. No new cases have developed in a number of days, those held under surveillance have passed the danger line, and it is not believed that another case will develop. All incoming ships are being carefully handled at quarantine, in order to prevent the importation of other cases.

The prompt eradication of the disease, in the opinion of the leading physicians of the city, demonstrates the value of intelligent and prompt action in such emergencies. It is even declared that where the disease becomes widespread, as it often does in European cities, the blame can be laid to a failure to promptly diagnose the cases, or to inefficient and improper handling of those first developed.

New York need have no fears of a cholera epidemic, is the declaration of Dr. Doty.

Admiral Togo Coming.

Washington, D. C., July 31.—For the past week the State and Navy Departments have been busy making preparations for the coming of Admiral Count Heihachiro Togo, chief of the naval staff of Japan and the hero of the great sea fight of May 27-28, 1904, when his fleet met the fleet of Russia in the Sea of Japan and brought about its entire annihilation in the course of the fight.

In the last quarter of a century no such welcome has been extended to a foreign officer with the possible exception of the entertainment furnished to Prince Henry of Prussia, who came to the United States, not so much as a laurel-crowned hero of a well-won battle, but as the representative and relative of a friendly sovereign. Prince Henry of Prussia had never smelled powder except as a puff of saluting smoke may have assailed his nostrils, Prince Henry had never seen a shot fired in anger.

Not so Admiral Heihachiro Togo, Samurai and Noble of the land of the Rising Sun.

According to tentative plans of the two Departments, Admiral Togo and his aide will arrive at New York August 4th, where the hero of the Sea of Japan will be met by Captain Templin M. Jotts, U. S. N., who has been detailed by President Taft to represent the United States government during Admiral Togo's stay in this country including his projected transcontinental journey, for the Admiral will sail for home from Vancouver. The itinerary as tentatively prepared by the State and Navy Departments provides for a two days' visit in New York and its environs. He is expected to arrive in Washington on August 6th where he will spend three or four days. During his stay in the capital he will be dined at the White House and by Secretary of State Knox and Secretary of the Navy Meyer. The Admiral will be taken to Mt. Vernon on the presidential yacht "Mayflower," where he will deposit a wreath on the

tomb of Washington and will also be shown over the Indian Head (Md.) naval proving grounds. Annapolis will furnish a side trip and there the Admiral will be given a glimpse of the alma mater of many of his brothers in arms, for Annapolis furnished education for more than a score of the higher officers of the Japanese navy.

From Washington Admiral Togo will visit Philadelphia and Boston and from that city he will journey to Niagara Falls, where he will cross into Canada and it is doubtful if he will again enter the United States as his present plan calls for his westward trip over the Canadian Pacific Railway.

Admiral Togo's rank is that of a full Admiral. In this he parallels Admiral George Dewey. Therefore when he visits any of the military or naval posts of the United States he will be accorded the honors of the highest naval rank, including the salute of seventeen guns.

Rhyolite, Nev., July 31.—New stories of discoveries of rich outcroppings of ore in the Panamints have started a stream of prospectors toward that region, and many of them to certain death, for only the most desperate or the most foolhardy will attempt to reach the Panamints through this gateway at this time of the year. The heat of Death Valley in the summer months is fatal to the average man. Even those most familiar with desert travel during the heated term will find it a supreme task to cross Death Valley during August, with the best of equipment.

Troops To Texas Again.

San Antonio, Texas, July 31.—A fresh movement of troops to Texas is contemplated in September, according to army officers of high rank at Fort Sam Houston, who say word has filtered down through military channels that conditions in Mexico are not pleasing to the authorities at Washington.

It was admitted at the maneuvers camp that orders have been received from the War Department to have located and surveyed sites for army division camps. In pursuance thereof army engineers have made surveys at New Braunsfels, 30 miles north of this city. Officers are now in Houston looking over the available ground and other officers have been sent to El Paso to select available places for the mobilization of a large body of men.

Another Guy Fawkes.

Washington, July 31.—The police force of Washington and the special guardians of government buildings here have had an uneasy week as the result of a threatening letter received several days ago addressed to Speaker Champ Clark. The writer of the anonymous epistle, who described himself as a discharged employe of the Washington navy yard, declared in the letter that if Congress did not start a navy yard investigation by Thursday he would explode 100 pounds of dynamite that he had concealed in a prominent building in Washington, and that Congress would "feel the shock."

The letter was signed, "One who has been abused." It did not reach Speaker Clark, but was turned over by his private secretary to Joseph Sinnott, doorkeeper of the House of Representatives. The latter laid it before Major Sylvester, chief of the Washington police force, and unusual precautions were taken to detect suspicious characters about the principal buildings. Thursday passed without incident, and the capital authorities breathed easier.

Out on The Stump.

Ottawa, Canada, July 31.—Sir Wilfred Laurier and his ministers will take the stump and conduct platform campaigns in all provinces at once for reciprocity.

The Parliament just dissolved had a membership of 133 Liberals, 85 Conservatives and 3 Independents, giving the government a working majority of over 40. The absence of a cloture rule, however, made it impossible for the majority to force a vote against a filibuster.

Should the present Liberal government be returned with anything like a working majority it will mean that a vote can be taken on the reciprocity resolution and that the trade agreement will go into effect. A conservative victory at the polls means the passing of the Laurier government and the permanent shelving of the reciprocity pact.

The Conservatives are raising the annexation bogey and endeavoring to gain ground by this issue, while on the other hand Laurier hopes to increase a working majority for the Liberals.

Mr. M. C. Bissett, of Bailey, passed through the city this morning on his way to Nashville.

German Bluff Was Called and Emperor Will Lay Down.

London, July 31.—The Moroccan crisis is practically ended. At least this is the opinion of the public, although the foreign office is careful to point out that the negotiations are not simple and may drag on for months.

While greatly relieved at the improvement in the situation even serious-minded Britishers in discussing the crisis are invariably of the opinion that as war with Germany seems probable, it would be far better for England if it should come now than later when the German navy will have been strengthened, and also that England would better come to blows with Germany over Morocco, or some question in which France is directly interested, than on a question in which England and Germany only are concerned.

In the former case England would be assured of the assistance of France, while in the latter France might without dishonor offer sympathy, but stand aside when it came to a fight.

Germany, according to the English view, has made a bluff which is being promptly called and she is now preparing to withdraw.

DEFENSE INSANITY

THIS WILL BE THE PLEA IN THE BEATTIE MURDER CASE

WHICH EXCITES INTEREST

Richmond, Va., July 31.—Counsel for Henry Beattie, Jr., accused by the coroner's jury of the murder of his wife, probably will seek a continuance of the case when it is called in the Chesterfield county court August 18th. The defense is said to have been considering a change of venue on account of the prospective difficulty of obtaining a jury in Chesterfield and on account of local feeling.

It was stated in a local paper today, too, that the insanity plea in behalf of the accused is being earnestly considered and may be the main reliance of the defense, in which event some of the most noted alienists in the United States may figure in the trial.

Beattie's lawyers themselves have given no intimation of what their line of defense will be.

The issue will be decided within the next forty-eight hours.
