A SPLENDID MOVE

We believe that the purchase of Barefoot's mill and the surrounding ground which gives the city control of the pond and the water rights over the stream is one of the best moves that has ever been made.

Not only is the control of the stream and the city's water supply of great importance with reference to its sanitary condition but for only \$10,000 the city has secured sufficient power to greatly relieve the load on the power plant and at intervals when the load is light to not only help out in some instances, namely between Saturday night and Monday morning while the industrial plants are shut down to take the load entirely away.

Mr. Grantham estimates that a saving of one third of the coal supply will be affected during the year and this will mean a saving of \$6,000. The coal bill for the plant now running around \$20,000 annually.

Of course it will cost under normal conditions some \$20,000 to develop this power which is estimated at an average of 200 horse power, the electrical machinery will have to be installed and a rock dam built, but this might be lessened on account of the fact there is plenty of rock near by out of which to construct a dam, but it is not necessary to do this at once but at a time when the power will be needed more than at this time.

Of course it should be done as soon as possible since coal is continually advancing in price and the difficulty of getting it should also be considered. Last year our readers will recall there was a time when a number of cities over the state were without coal.

We desire to congratulate our city fathers on the fore-sightedness.

A CHANCE FOR YOU

A chance for you to make a date with me and let me show you a farm I have ten for sale from 40 to 1000 acres. Each on easy terms.

As the United States Food Administrator advised us to conserve labor, beginning Monday, July 22nd we make only two deliveries a day, 9:00 a. m. and 4:00 p. m. Be sure and get your morning orders in before 9:00 a. m. and your afternoon orders in before 4:00 p. m.—J. W. RILEY & CO. J-20td

"A SPLENDID TONIC"

Says Hisson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

Miss Annie Stokes is away at her home in Pinetop on her vacation.

STILL IN FULL BLAST

H. F. Barnes, Constable J. D. Mercer, Chief Dickens and deputy marshals went up on Tar River last night and caught a big 80 gallon still in full blast. They arrested Buck and Arthur Carpenter two white men and brought them to Wilson where they were tried this morning before Commissioner... and found guilty. They gave bonds of \$200 each for their appearance before the next term of the Federal Court in this city.

The still was located about 1 1/2 miles from Wilson and when the officers reached the spot there were three men at the place but one of them got away. The still was destroyed, together with 80 gallons of beer and a half gallon of whiskey.

Mr. B. B. Brinkley will leave tomorrow for Durham to spend his vacation.

REGISTERED AT HOTEL

The following are registered at the New Briggs Hotel—Messrs. W. W. Smith, Washington, D. C.; R. B. Everette, Durham; F. F. Smith, Rocky Mt.; B. C. Sharp, Greensboro; J. F. O'Brien, Danville, Va.; and C. L. Speight, Stantonsburg.

When Was Your Battery Tested?

How long has it been since you had a line on the inside condition of your battery?

A month? Six weeks?

If it's any more, you're taking chances.

Don't you want to know it if you're starving your battery—or mistreating it?

There's only one way to tell—by test. You can make it yourself or we'll do it free.

We'll be glad to show you the "How" of this sample test, and to tell you about Threaded Rubber Insulation—the most important battery improvement in years.

LOYAL ORDER OF MOOSE
FATHER'S ACT INSURED BABIES' FUTURE
"You applied for membership in the the Moose some time ago, and paid your money, Mr. Jones. Why don't you come in and be initiated?"
"I want to," Mr. Jones replied over the wire, for it was a phone call from the Moose organizer. "I want to—but I can't. My wife is dead. And I have three little children here to take care of. They only have me at night. I'm gone on the railroad all day."
"That's a sad case," said the organizer, moved to tender sympathy. It was an April evening in Tacoma, Washington, in 1913. "Mighty sad. But worse still, suppose you should fall off that train tomorrow, who therwould care for your babies in all the long years to come?"
Mr. Jones saw the point. His children were left in the care of a neighbor for a few hours that night while the foresighted father went down town.
A month later, Brother Jones was in his grave. His three children at Mooseheart, where they romp among the happy fields today.
The Charter is now open here. Fee only \$6.00 now; \$25.00 when Charter Closes. Dues \$1.00 per month. For any information see
