FOR THE YOUNG

WOMEN OF AMERICA
A message from Dr. Anna Shaw
Across the seafrom France, with every closing day of the heroic struggle of our fighting men, there comes a more imperative call to the women of America to assume their full share of responsibility in winning this world war for the right of men, women and nations to live their own lives and determine their own fortunes.

There exists now an extreme need for at least 25,000 women of character, intelligence and education to fill the gaps in our hospital staffs caused by the calling of many thousands of skilled nurses to the fighting front. There is only one way to fill these gaps: By keeping our hospital training schools supplied with students, who are not only preparing for service abroad and at home at the end of their course and at the same time equipping themselves to earn their living in one of the noblest professions, but from the very outset of their course are serving their country as well as learning.

The Surgeon General of the United States Army, the Surgeon General of the United States Public Health Service, the American Red Cross, the General Medical Board and the Woman's Committee of the Council of National Defense therefore unite in earnest appeal for 25,000 young women between the ages of 19 and 35 to enroll in what shall be called the United States Student Nurse Reserve. The enrollment began on July 29, 1918. Those who register in this volunteer body will engage themselves in readiness until April 1, 1919, to be assigned to training schools in civilian hospitals near to the Army Nursing School and begin their course of study and active student nursing.

The service which we are asking calls for the best that the womanhood of America can offer in courage, devotion, and resourcefulness. We can not go forward to victory overseas if the wives and families of our soldiers are not sustained in health and strength, if we can not protect our workers against the hazards of war industries, if we can not defeat accident and disease, our enemies at home. Upon the health of the American people will depend the spirit of their lives in the field.

Acting on the urgency of the need, the undersigned have asked the State Delegates of the Women's Committee of the Council of National Defense, through their local units, to enroll the 25,000 women needed. We ask the women of America to support us in our further effort not to lower American hospital standards, and to give us the practical assurance of their support by going to the nearest recruiting station established by the Woman's Committee of the Council of National Defense on or after July 29 and enrolling in the United States Student Nurse Reserve.

Anna Howard Shaw,
Chairman, Woman's Committee,
Council of National Defense.
Signed by W. C. Gorgas, Surgeon
General, United States Army; Rupert Blue, Surgeon General, United States Public Health Service.

**CAPTAIN HARRELL
DECLARES HE HAS
FOUND RIGHT THING**

Daughter Had Suffered All Her Life. Now in Splendid Health—Troubles Gone and She Plays All the Time.

"You ought to see what a wonderful change Tanlac has made in my little girl, why, she's like a different child," said Captain T. M. Harrell, residing at Ingleside Georgia, who was for twenty-five years a conductor on the Seaboard.

"The child was never strong and had suffered ever since a baby," he continued. "She complained of headaches most all the time and her kidneys gave her no end of trouble. She had no appetite and what little she ate soured on her stomach and would put her in misery for hours, so that she could hardly sleep at night. She was weak and nervous and could not play like other children although she wanted to. We gave her one thing after another, but nothing did her any good.

"I found the right thing for her, though, when I started giving her Tanlac. She began picking up right soon after she started taking it. Her strength has been built up wonderfully, her kidneys don't worry her like they did and she eats and sleeps like any other healthy youngster. Tanlac has given her health and happiness and she's now going to school and playing along with other children as if she'd never been sick at all.

Tanlac is sold in Wilson by Turlington and Morrison.

DRAFT CALL FOR AUGUST ISSUED

230,207 Draft Registrants Qualified For General Military Service
Washington, Aug. 8.—Calls for 230,207 draft registrants qualified for general military service to join the colors before the end of August were issued tonight by the Provost Marshal General.

One hundred thousand white registrants from forty-three States are ordered entrained between August 20th and August 30th. Twenty-one States and the District of Columbia are directed to send 30,207 negro registrants entrained August 20-24th.

The number of registrants is about 300,000, including those later called for under the program. Fol-

This 17th day of July, 1918.
Commercial Investment Trust,
Assignee of Edgar G. Lee, Mortgagee,
F. S. Hassell,
Attorney for Assignee.

HARD ON ANIMALS
The hot weather is certainly hard on animals as well as people. Last night the veterinary surgeons of this city were being called for from far and near to go out and treat horses and mules that had been overcome by the heat. The city was hard hit last night. Out of three horses stricken it lost two a valuable mule and horse despite every effort to save them.

Music a Real Necessity in Time of War.

"Not only to thre man at the camp, on the ship, at the front, come times of loneliness and discouragement. Those who must remain at home to go about the daily task, heartsick at the spirit of brute force which has wellnigh overcome civilization, and at the overthrowing of ideals in which they trusted, have their share of the world burden. And to them must we bring constantly the refreshment of soul and the inspiration which come from contact with the highest forms of music."

This is what the President of the Symphony Society of New York said in a recent report to the Directors.

Music has justified itself as a factor of real service in this hour of trial. The government recognizes its value by encouraging singing in the camps. It is no longer considered a non-essential luxury.

You need music in your home. The New Edison will give it to you—the world's best music Re-Created by the world's leading artists. Othed devices imitate but this marvelous instrument Re-Creates, so perfectly and completely that no human ear can distinguish the artist's living voice from

The NEW EDISON
"The Phonograph with a Soul"

This has been proved hundreds of times by our famous tone tests in which the artist sang in direct comparison with the instrument.
