CHAPIN MURDER HIS WIFE

Editor Who Devised Articles of World Renown Times Financial Cases Making Name for Him

New York, Sept. 17.—Charles E. Chapin, city editor of the New York World, accused for his role in directing reporters in the solution of murder mysteries related the story of the shooting of his wife in the police court here today. He said that he shot Mrs. Chapin in their apartments and then failed to end his own life, he wrote a note which was afterwards found, hinting at his own suicide. He gave as his excuse for the terrible deed the insistent demands of his creditors.

New York, Sept. 17.—Mrs. Charles E. Chapin, wife of the city editor of the New York Evening World, was found dead with a bullet wound in her head in the bedroom of the Chapin apartment in the Hotel Cumberland here late yesterday.

Discovery of Mrs. Chapin's body followed receipt by Don Seitz, business manager of the Evening World, of a letter signed "Charles E. Chapin," in which the writer hinted at suicide and added:

"My wife has been such a good pal I cannot leave her alone in the world."

The police immediately began a search for Mr. Chapin, but up to a late hour last night he had not been found.

At the offices of the Evening World, it was said that Mr. Chapin has been in failing health for several years and that for the past year he has been constantly under the care of a physician.

Mr. Chapin has been city editor of the Evening World for twenty years and is one of the most widely known newspaper men in the country. For ten years before coming to New York he was connected with newspapers under the Pulitzer administration in various other cities, being at one time night city editor of the St. Louis Post-Dispatch.

FURTHER INFORMATION AND ADVICE REGARDING S. A. T. C.

A boy under eighteen may enroll in the S. A. T. C., but unless Uncle Sam makes some new arrangements must meet all his own expenses and pay his college fees until his eighteenth birthday.

A boy of eighteen joining the S. A. T. C. October 1st, will probably remain at Atlantic Christian College until next June and should make his plans accordingly.

A young man of twenty, or twenty-one, may expect to be called away in January.

A boy nineteen, joining the S. A. T. C., may reasonably expect to spend seven months at Atlantic Christian College and be transferred to a regular army camp in April.

A high school student of average ready for the senior year of the high school is advised by the government to re-enter the high school and by intensive training endeavor to join a College S. A. T. C. in January.

A young man of twenty-one or over who is prepared to pursue certain College courses, but has not sufficient units to enter as a regular student, may, as formerly, enter as a "special student" not a candidate for a degree. This privilege, however, will be awarded more carefully than ever under the present circumstances, and applicants should give full details to their high school training and business experience.

The College life, customs, and studies will be changed necessarily, in some respects. The College is now a military-intellectual camp; its students are actual soldiers under military discipline. Its facilities and resources are for the present devoted to preparing young men for active service in the army or navy. If any one is not prepared for army life, early hours, and unrelenting work, let him stay at home.

Students will be assigned to their quarters in the College dormitories by the military authorities.

Since the government plans are changing and developing every day, no one need expect to have all his questions and every detail made clear before the opening day. Give the exact age and previous training of every boy for whom you seek advice or information.

All work done under the new program if successfully completed, will count toward a future degree. It is hoped that by next September the war will be over and that the nation be eagerly looking for leaders in peace as it is now for officers and experts in war.

VALUE IS THE TEST NOWADAYS!

For clothes, as for anything else, you pay more nowadays. And when you pay more you cannot afford to get less for the money. This is the big thing nowadays---value.

KUPPENHEIMER CLOTHES

haven't moved an inch from their old quality standards. Whether this is due to large organization with correspondingly large powers of purchase and production, or to the fixed superiority of Kuppenheimer design and tailoring, matters little. The point is that for anywhere from

\$25 TO \$60

you get more value in these clothes more quality, more distinctiveness, more wear. And if we had nothing more than this greater value to offer, a trip to our store would be worth your while. But we have more to offer.

LET MUSIC BRIGHTEN THE LIVES OF YOUR CHILDREN

After all, it's not the school training but the home atmosphere which molds the child. Children brought up in a cultured home betray that fact during their entire lives. It leaves a lasting imprint.

A home with any claim to culture is a home in which good music is enjoyed and understood. A child whose interest in music is fostered will become a man or woman who possesses a resource which makes for lasting happiness.

You want to give your children every advantage. That is just one reason why you want
