## KEPT HER AWAKE

**The Terrible Pains in Back and Sides. Cardui Gave Relief.**

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful."

I could not do anything, not even sleep at night. It kept me awake most of the night... I took different medicines, but nothing did me any good or relieved me until I took Cardui...

I was not able to do any or any work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again... I decided I would try Cardui... By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133

### IT'S SEVEN YEARS OLD

But Mrs. Jackson Says It's Just as Good Today as When It Was First Made.

Seven years ago Mrs. Jackson testified to complete relief from kidney ills.

She now says that there has not been the slightest return of the trouble.

Wilson sufferers will take a deal of comfort in Mrs. Jackson's statement.

Read what she says:

Mrs. D. B. Jackson, 413 Railroad St., Wilson, says: "Before I used Doan's Kidney Pills I was constantly annoyed with backache and severe pains across my kidneys. I had headaches and spells of dizziness and couldn't rest well nights. I had no strength or ambition, either. Reading of Doan's Kidney Pills, I got a supply and two boxes rid me of the aches and pains. I recommend Doan's at every opportunity." (Statement given December 22, 1910.)

On June 15, 1918, Mrs. Jackson said: "The cure Doan's Kidney Pills gave me has proven lasting. I think Doan's the best kidney remedy made and confirm my former statements."

Ef we ails don't gin ter feed dem sojers right now we'll be feedin' somebody 'fo' long en it won't be us.

### A GREAT PATRIOTIC MEETING AT SECOND BAPTIST CHURCH

Sunday afternoon at 4 o'clock p. m. at the Second Baptist church in this city marked a new epoch in the history of the Negro of Wilson. Notice having gone out that patriotic services would be held at that hour, the church soon filled with enthusiastic colored people eager and anxious to know about the war, the liberty loan, the Red Cross and their duty in the premises.

Shortly before the services began a novel and unique scene presented itself. The ladies of the Colored Red Cross chapter filed in the front seats. Dressed in the attire of the Red Cross they presented a most beautiful and attractive appearance. All the men and the women for that felt proud of them. This little incident in itself was an incentive and inspiration to the large audience who greeted them. This was the first scene of the kind amongst our people and, therefore, marked a new epoch.

The service began with prayer. After which the vast audience joined in singing: "My Country 'Tis of Thee." They sang with the soulfulness that only colored people can sing. Other American patriotic airs were sung. Mrs. W. H. Phillips, a graduate of the Conservatory of Music of Washington City touched the keys of the piano with the skilled hands of an artist.

After the above preliminary Dr. F. S. Hargrave who presided over the meeting introduced the speaker of the hour, the Rev. Spurgeon Davis. Rev. Davis chose for his subject "America and Democracy." He was at his best and when he say "best" we do not mean it in a stereotyped way for he was really at his best and had his audience in hand from the beginning to end.

He showed how America from its early history unconsciously was making preparation and paving the way for a world-wide democracy. He showed how the Negro brought from Africa and trained and in the same unconscious manner were preparing to take part and share in making the universe safe for democracy.

Climax after climax was reached and generous applause given. Phantasies and facts were woven and blended together in beautiful diction and brilliancy of eloquence. The greatest climax was reached when in imagery he drew a picture of the American black boys and the American white boys dressed in paraphernalia of war marching side by side over German territory, overcoming all obstacles, vanquishing the Huns,

reaching the goal and placing the American flag upon the pinnacle of the Reichstag in Berlin. At this juncture the house went wild with applause. Everybody forgot about being "in His Holy Temple."

After the speech O. E. Simmons sang two beautiful solos with expression, melody and harmony. Mr. Simmons has a rich, mellow base voice and has such a control of it that he makes the highest and the lowest guttural tones with ease. He would delight any audience.

S. H. Vick was then called upon. He urged every one present to do his or her full duty in the New Liberty Loan drive to begin September 28th.

Mrs. W. S. Hines, the president of the Red Cross chapter was introduced. She explained the working of the Red Cross and solicited members. Mrs. A. L. E. Weeks also

spoke on the same subject. An offering was raised. The result was twenty-eight dollars and twenty-five new members. This makes the membership eighty.

Thus ended an auspicious occasion fraught with good results and an omen of still better results ahead.

Our future in Wilson will be brighter and more roseate for such meetings. May we have more of them.

S. H. Vick.

### CARDINAL FARLEY'S CONDITION IS GRAVE

Prelate Suffers a Relapse and Heart Trouble Has Developed

Mamaroneck, N. Y., Sept. 17.—Cardinal John M. Farley, who has been ill at his summer home here for the last month, snuffed a relapse yesterday afternoon and is now in a critical condition. He has recovered from pneumonia, but heart trouble has developed and he is growing steadily weaker.

The attending physicians did not issue a bulletin, but Monsignor Carroll, private secretary to the Cardinal, said tonight, after they had held a consultation:

"Cardinal Farley is in a very critical condition. Heart weakness has developed with the last twenty-four hours. There is a possibility that he may rally, but his condition is now very serious." Monsignor Carroll said that he thought the Cardinal was conscious.

Six weeks ago the Cardinal contracted pneumonia while at his home here at Orienta Point. For several days his condition was regarded as critical and his physicians were in constant attendance. The Cardinal is 77 years old and has suffered previously from heart trouble, but despite this he seemed to be recovering rapidly when the sudden turn in his condition came on Saturday afternoon.

Ten days ago the physicians who have been in attendance on Cardinal Farley pronounced him out of danger and it was believed that he was on the way to recovery. He had been sitting up in his room and hoped that in a short time he would be able to go for a walk. For some time after the Cardinal's condition began to improve it was feared that he might suffer a relapse, but until Saturday even that danger was thought to have passed.

Two years ago Cardinal Farley suffered a heart attack which left him in a weakened condition, and the strain of his recent illness has so depleted his constitution that it is not believed he can recover. When asked last night if he thought there was any immediate danger, Mgr. Carroll said that it was impossible to say. Those at the Cardinal's bedside are depressed about his condition.

### RULES FOR SAVING COAL

Philadelphia, Sept. 17.—Various ways to save coal and still keep warm are pointed out by the General Committee of the Anthracite Coal Operators in a series of suggestions given out here on conservation of the fuel during the coming winter months. Briefly they are:

Start furnace and kitchen-range fires as late as possible. Forget the first few cool fall days.

Raise window curtains during the day to admit sunlight, for that is free heat. Dispense with awnings, as they shut out the sun.

Weather-strip all doors and windows and put asbestos around all furnaces, boilers, and cellar pipes used for heating purposes.

Reduce the home temperature to 67 degrees. Do not wait until the mercury shows 74 degrees before closing drafts. By this time that extra amount of coal will have been consumed and wasted, according to all economic rules.

Bedrooms, where windows are opened for the night or otherwise, should be shut off from heat. Use blankets and feel better in the morning.

Wear heavier clothing. This materially saves body heat.

Thoroughly clean soot from pipes and boilers and do not mind doing a little work in the cellar, seeing that window panes are tight and weather-stripped like the other parts of the house.

Burn oil, wood, coke and bituminous when possible. Use gas for cooking and heating. Gas lighting at night aids in heating the home, stores, and buildings where used.

Use heavy draperies on doors and windows for interior home decoration. This aids in husbanding interior heat supply.

### The Strong Withstand the Heat of Summer Better Than the Weak

Old people who are feeble and younger people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking GROVE'S TASTELESS CHILL TONIC. It purifies and enriches the blood and builds up the whole system. You can soon feel its strengthening, invigorating effect. 60c.
