Running and Bagging Them While the Sport is Good. Austrian

ARMY IS CUT IN TWO

Vienna, via London, Nov. 1.—An Austrian deputation has been permitted to cross the fighting line for a preliminary parlay with the Italian commander, according to the official announcement last night.

London, Nov. 1.—The Austrian commander on the Italian front has applied to General Diaz, the Italian commander-in-chief, for an armistice, the Exchange Telegraph Company states.

The application has been forwarded to the Versailles conference.

Italian Army Headquarters, Wednesday, Oct. 30.—(8 p. m.)—(By the Associated Press)—In answer to Austria's announcement that she was ready to evacuate Italian territory, Italy has officially replied that the offer has come too late. It is assumed the Italians will endeavor to drive the Austro-Hungarians from Italian soil before an armistice can be signed.

General Diaz, the Italian commander-in-chief, has issued the following bulletin to his troops: "Soldiers, forward! In Italy's name we will place the wreath of victory on the tomb of our glorious dead. Forward! Our immortal country calls!"

SOME TRAINS DETOURED

The spreading of the rails last night on the Coast Line about a mile north of this city caused seven or eight cars of Express No. 89 to go off the track at Toisnot trestle. The cars were on the other side of the trestle while the engine to the south bound train was on this side.

The embankment is quite high at this point and some of the cars slid down the embankment. It is a wonder the crew were not hurt. The express messengers jumped from the cars and one of them had slight scratches of consequence. The fact they were steel cars prevented their utter destruction and loss of life.

The train was due at 8:15 and was about on time. It was in charge of conductor Weatherby. Lated in the night one of the cars which contained little of value having been unloaded, it is said, at Rocky Mt. caught fire and the contents were practically destroyed.

The trains were all delayed. The southbound track was entirely blocked and was until about three this afternoon. The north bound track was clear at ten o'clock and so some of the trains that had been detoured over the Seaboard Air Line from Wilson to Raleigh and over the Southern were sent through at that hour.

and in the Alpine foothills of Venetia. Enemy masses were described as "steaming in confusion" down the mountain valleys in attempts to reach passes on the Tagliamento.

Prisoners, guns, war materials and store houses, scarcely touched fell into the hands of the Italians. Czech-Slovak troops are operating with the third Italian army, which is pushing ahead, overwhelming and capturing the enemy.

In the Grappa region, the Italians renewed the attack yesterday and captured the plateau of Asiago, the salient of Solaro, Mounts Spinocia and Pradolano Asolone and Col Caprillo and Col Bonatto. The total number of prisoners captured exceeds 50,000 and of the guns captured more than 300 have been counted.

WORLD CONFERENCE OPENS TODAY

Versailles Surcharged With Important Events and the Town is

FILLED WITH DIGNITARIES

Paris, Nov. 1.—On the eve of the meeting of the Supreme War Council, the pery atmosphere of Versailles is surcharged with the importance of pending events. The presence of numerous uniformed officials of the Allied nations, with councilors, prime ministers and personages of high estate, lend to the scene a dignity which reflects the nature of the colossal questions to be decided, directing the destiny of the new order of world politics.

Automobiles glide over the asphalt and cobblestone streets of France's ancient seat of government, bearing world figures; some carry the highest army staffs in dazzling uniforms; others bear naval chiefs in their black uniforms, variegated with gold stripes in profusion and patterned according to their country's orders, while now and then limousines with distinguished civilians rush by, claiming the right of way seemingly because of the high positions of the occupants in the world's affairs.

Tranon Palace, nestling in clusters of giant trees, surrounded by a picturesque park, and resplendent with flower gardens and serpentine walks (stands within the very shadow of the Louis XIV palace, in the north wing of which, in the "Galerie des Glaces," William I, grandfather of the present German Emperor, and then King of Prussia, was proclaimed first German Emperor in 1871.

To make more secure the isolation of the palace for the conference which will begin today all traffic in its direction will be stopped. Guards of French soldiers, British, Americans and Italians stand on duty at various posts. When the council meets, the guard about the palace will be considerably reinforced, so as to prevent the slightest possibility of any unauthorized person approaching the grounds of the palace. With a radius of many hundreds of yards the guards will patrol and nobody will be allowed to pass who is unable to produce the necessary official papers.

MAY REQUIRE MAKING BUILDING PANIC PROOF

Raleigh, N. C.—According to a recent decision by Supreme Court Justice Gavegan of New York, the State Industrial Commission has it in its power to direct that owners of buildings make them panic proof even if previously fireproof.

The decision is quoted from in part as follows: "The reasonableness of the commission's orders depends directly on the question, 'Is the building safe from the danger of panic? Panic may result from causes not confined to a factory building itself, nor affected by its fireproof character. It may be caused by smoke alone, or by fire in a building adjoining or in the immediate neighborhood, or by a conflagration, or by a hostile attack in time of war from land, sea or air, or by earthquake, or even by a false alarm."

UNITED WAR WORK CAMPAIGN

At the American Red Cross War Council meeting today the following official minutes were adopted: The War Council of the American Red Cross urges the utmost cooperation from chapters and members throughout the country with the United War Work campaign during the week of November 11 to 18 which is to be held in support of the seven recreational organizations endorsed by the National Government. These organizations are of inestimable importance and every American citizen should support their campaign generously, wholeheartedly. In line with the above appeal the War Council calls the attention of the A. R. C. Chapters, workers and members to the statement of Assistant Secretary of War Keppel published in the official bulletin of September 13th, as follows: "It is natural that the organizations responsible for providing recreation facilities to troops merge their campaigns inasmuch as they are engaged in a common program of service. Balancing this united drive in the fall for these organizations there will be a Red Cross drive in the Spring." In view of the foregoing and in order to eliminate confusion A. R. C. War Council will not authorize campaign for A. R. C. funds for national organizations directly or indirectly during United War Work campaign. That campaign is for specific purposes and is entitled to present its appeal to the American people and to have that appeal receive complete and generous support. The response to the A. R. C. appeal last Spring was approximately \$178,000,000. The demands on the A. R. C. are enormous; much larger than anticipated and these demands are increasing. The organization, nevertheless has sufficient funds to finance all requirements for immediate present. As yet it is impossible to estimate the opportunities and obligations which will confront the A. R. C. in the New Year but the campaign for funds will be necessary in the Spring. It is also felt by the War Council that the A. R. C. appeals for funds be regarded as essentially for relief and should, as in above statement by war department, be made on distinctive occasions. The A. R. C. is chartered by Congress as a national agency for relief and is responsible to the National Government for financial administration. The membership numbers nearly thirty million Americans. The War Council feels, therefore, the public should be free to make its response to the A. R. C. appeal directly and exclusively and not through "war chest" or in combination with other appeals for funds.
