THE CAMPAIGN TO BE CONTINUED ITALIANS AROUSED OVER THE REPORT

For the Erection of the Wilson County Memorial Building NEED 60,000 DOLLARS

There was a small but very enthusiastic crowd of Wilson people in the Court House last night who assembled at the call of Chairman Elmer Oettinger of the Wide Awake Wilson committee, which has pledged its heart and hand and soul to the erection of a Memorial building to our boys, the living and the dead who gave of their lives and services that this country and the world might have liberty and have it more abundantly.

The meeting was called to order by Chairman Elmer Oettinger who stated that on account of the various drives the past winter, income taxes and other matters that required the attention and money of our people, that the Wide Awake committee had decided after raising something like \$40,000 to postpone the campaign to raise the rest of the \$100,000 required to erect the building contemplated, to wait until this fall.

After a number had spoken encouragingly, and enthusiastically about the matter, Messrs. George Hackney and Louis Tomlinson arose and said they would greatly increase the amounts they had already subscribed.

Mr. George Hackney when called on for his views regarding the building and whether to change the plan originally contemplated by the committee stated that he had subscribed \$1,000, and that he would add another in order to secure Memorial to our boys, and he was followed by Mr. Louis Tomlinson who stated that he would be one of ten men to give \$5,000, and to pay the money a thousand dollars a year with \$1,000 cash and the balance in a note that could be discounted at the bank. There was no effort made last night to raise money or to solicit funds, and the promise to back the building with their money is for that reason the more creditable since it came spontaneously from the gentlemen making the generous offer to give. This followed assertions on the part of a number of speakers who stated that the money must be raised in the towns of the county, since those who had been approached in the rural districts by the solicitors, seemed to feel that the people of Wilson would get all the benefit from it when it was intended as a memorial for all the boys of the county whether from town or country, and that it would belong to the people of the entire county and all would have the right to enjoy it and should feel that they had the right to enjoy it.

The first speaker called on was Mr. W. A. Edgerton, a member of the Wide Awake Committee, who stated that the building must be built and was going to be built. All the committee wanted was the enthusiastic support of the people of the county.

Forty thousand dollars had been raised but \$60,000 more was required. Other towns were erecting such buildings and surely Wilson would not be left behind. Goldsboro was planning a Memorial building to cost \$250,000 and would build it.

Treasurer F. M. Miller was called (Continued on Page Eight.)

The President Improving Washington, Oct. 8.—President Wilson is a great deal stronger, according to a statement issued by Dr. Grayson and Ruffin this morning.

The bulletin says that the President is a great deal stronger than he has been for the past two weeks, but that he has been ordered to remain perfectly quiet, until he thoroughly recuperate from the trying ordeal through which he has recently passed.

That the United States and Great Britain Have Notified Italy Regarding the Situation at Fiume

Rome, Oct. 8.—Much excitement prevails in the capital on account of publications in the newspapers regarding a warning which is reported to have been sent Italy by Great Britain and the United States telling her that unless the illegal and intolerable situation at Fiume is relieved that she will be dropped from the list of allied nations.

It is also stated that the first note came from Great Britain and was followed by a protest from the United States. The Tribuna, an Italian newspaper says that Italy is not alone responsible for the condition at Fiume, and that it really results from the preponderance of influence exerted by President Wilson at the Peace Conference, and the inability or the unwillingness of the rest of the allies to limit it.

Rome, Oct. 8.—While not denying that an official message had been sent to Italy on the question of Fiume, yet it was not admitted that the message was in the nature of an ultimatum according to the expressions of the Italian newspapers on the subject.

KING OF BELGIUM RUNS TRAIN

Chicago, Oct. 7.—The king of the Belgians today ran the engine of his own train for ten miles. The special train on which the king and his party are traveling westward was stopped at Wauson, Ohio, while his majesty climbed into the cab of the engine and took over the throttle from the grimy pilot. The king who has a thorough knowledge of locomotive engineering, ran the heavy train for ten miles without a jolt. Then he stopped the engine and returned to his car.

The king traveling "unofficially" with his queen and the Duke of Brabant, passed through Ohio and Indiana today en route to California. The train was stopped an hour at Toledo, the home of Brand Whitlock, American ambassador to Belgium, where the party received an enthusiastic welcome. The stop was made by the king as a personal friend of Mr. Whitlock and not as an official visit.

At Toledo the royal party was driven from the station to the Museum of Art where there was an address of welcome by Mayor Schreiber, a brief response by the king and a few words of greeting to his townsmen by Mr. Whitlock. The route from the station to the museum was lined with citizens and thousands were banded around the building. Boy Scouts who reinforced the city policemen had a hard time holding back the throngs but they struggled manfully and did a good job of it. While their majesties were receiving the committee appointed to welcome, three little girls, the oldest about eight and the youngest not more than three, presented the queen with flowers. Her majesty received them graciously after Virginia Willis, the oldest, had started bravely with a little speech, but forgot the last of it. Elizabeth bent and kissed all three of them.

In his response to the address of welcome, the king said he appreciated the splendid feeling found in Toledo. There exists between Toledo and all Belgians a tie, and a very strong one, he said, in the person of Mr. Whitlock. "Every citizen of Belgium loves Mr. Whitlock, as well as any citizen of Toledo," he declared.

Removal of the Censorship On Moving Pictures

Berlin, Sept. 10. (Correspondence of The Associated Press) Removal of the censors ip on moving picture films has resulted in a flood of so-called explanation films, theoretically to instruct the public in moral matters. It is claimed these actually serve an immoral purpose.

Denouncing these films Dr. Schweidheimer in the German Medical Weekly writes:

Under the guise of scientific seriousness and alleged education of the public, all possible sex problems and developments are pictured in the most sensational way.

Through such films, which already have become a genuine pest to the motion picture business, exactly the opposite of that is achieved which the good film attempts. From the standpoint of social hygiene and the explanation to the public of the dangers that threaten health, these films may be branded as nothing less than a rank deception and evil. The efforts toward fighting social diseases will make no gain in this way, but are threatened by a new grave danger.
