

C. J. RHEA BUSINESS MGR. **Owners & Props** S. W. KENNEY, EDITOR

PUBLISHED EVERY THURSDAY AT WINDSOR N. C. THURSDAY November_ 9TH 1899.

Judge Simonton's

Corporation Commission has no pow Decision. er to tax railroads. We will not now discuss the decision. That is for the lawyers. Let it stand as good law. Then there is a power to tax them and that power will be resorted to. In June last it was the duty of every property owner to list for taxation all property owned of all kinds. Under Judge Simonton's decision it was the duty of the railroad owners to list their property in each county. They have failed to do so and are of course liable to the penalties including double taxation. We take it that there will be no escape from taxation on the part of the railroads. The Couuty Commissioners of each county should at once proceed to have the railroad property put on the tax list. Under Simonton the Corporation Commission cannot tax, then the same way other property is taxed will be resorted to. In Bertie County the railroads will be taxed and at their full value. They will not attack the rai roads but will treat them as they treat cur own citizens. We are not of those who hold hostility against the railroads. We recognize that they are great developers of the country and that necessary to its business. Whatever of hostility has arisen toward them has been caused by the railroads. From killing a cow to killing a human being, the rule has been to resist payment The citizen has to fight out his rights from start to finish. If the railroads would cultivate a spirit of adjustment of difficulties with the people friction would soon cease. There is one thing the citizen can understand and that he will insist on and that is that the railroads must be taxed just as he is taxed-no more and no less. And if there is no way to do this then North Carolinians will find a way, On the whole the railroads of this county now on

expect and are banking on their main support coming from the cit'es and are conceding to the Democrats the rural sections. It is significant in that it portrays the fact that the UNTRAMMELED mind sees and recognizes in the Democratic party true intentions and honest principles. And it evinces the truth that the Republican party is the raity of corruption and intimidation. In the cities of factories and gigantic enterprises the laborer is The United States Circuit Court intimidated and his mind trammeled, and the vote cast is has decided that the North Carolina a mere promise against "a discharge" and 'starvation. It is further significant as showing the NATURAL tendency of

the mind in its free activity.

Miss Helen Gould is making a fight against the polygamous Congressman Roberts. She calls upon every christian woman of America to unite with her. We wish her success. She says I have never beforet aken any active part in any political question, but this movement is far the protection of the home and women throughout the country, ard I am glad to use the little idfluence I have for what I believe to be a righteous cause.

The British forces at Kimberly are as completely bottled up as was the doughty Ben Butler at Bermuder Hundred in the w'r between the states. Cecil Rhodes the multi millionaire is at this place. His capture would pro duce a grim smile of satisfaction on the place of Uncle Paul Kruger.

The two big brutes Jeffreys and Sharkey fought twenty five rounds in New York and Jeffreys was declared the winner. Both men were badly used up. Sharkey is now suffering from a fracture of three ribs, the result of a blow received in the eleventh round.

General Joe Wheeler has announced his intention to take his seat in Congress. We would not be surprised to see his engagement announced on his return. Anyway and anywhere we wish the old veteran good luck.
