FOUNDED ON A ROCK.

If you toot your little tooter and then lay aside your horn, there's not a soul in ten short days will know that you are born. The man who gath eis pumpkins is the man who plows all day, and the man who keeps it humping is the on: who make it pay The man who advertuses with a short and sudden jerk, is the one who blames the editor because it doesn't work. They who get the business take a long and steady pull and keep the local paper from year to year to quite full. He plans his adverstisements in a careful, thoughtful way and keeps forever at it until he makes it pay. He has faith in all the future. can withstand a sudden shock and like the man of Scrtpture has his business founded on a rock.
