

MOTHER OF SCHOOL GIRL

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Plover, Iowa.—"From a small child my 13 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."—Mrs. MARTIN HELVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

CERTIFICATE OF DISSOLUTION

State of North Carolina,
Department of State

To all to Whom These Presents May Come—Greeting:

Whereas, It appears to my satisfaction, by daily authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the Roanoke River Log Company, a Corporation of this State, whose principal office is situated in the Town of Lewiston, County of Bertie, State of North Carolina, (J. F. East, being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 21, Revised 1905, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution:

Now, Therefore, I, J. Bryan Grimes, Secretary of State of the State of North Carolina, do hereby certify that the said Corporation did, on the 1st day of July, 1915, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all of the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In Testimony Whereof, I have hereto set my hand and affixed my official seal at Raleigh, this 1st day of July, A. D. 1915.

J. BRYAN GRIMES,
Secretary of State.

(Seal)

Recommends Chamberlain's Colic Cholera and Diarrhoea Remedy

"I never hesitate to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Sol Williams, merchant, Jesse, Tenn. "I sell more of it than any other preparations of like character. I have used it myself and found it gave me more relief than anything else I have ever tried for the same purpose." Obtainable everywhere.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building- tonic, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Bloomfield, N. J.

1916 Hupmobile

\$1085
F. O. B. Detroit

More Comfortable, More Beautiful, More Powerful—As Economical as Ever

Just as truly as first impressions are lasting impressions, you will always think of the Hupmobile as a big car—

A car of surpassing beauty—

A car of delightful comfort—

A really extraordinary value at its price.

Your first ride in it will show you performance that proves the car as good as it looks.

And your ownership will give you daily satisfaction in its economy and its never-failing service.

Please let us arrange for your demonstration at your earliest convenience.

Before you do ride in the new car, we want to tell you of some of the things which make it, in our belief, the greatest Hupmobile yet built.

On the score of quality, and resultant durability and economy, it has been difficult to make improvements.

In proof of this, we need do no more than point to the Hupmobile repair cost record of less than 1/4 cent per mile; and its well known fuel, oil and tire economy.

The new car will go as far on a gallon of gasoline and oil, although its power is 20 per cent greater.

This produces a correspondingly better performance; a response to the throttle that is hard for any car to excel.

The five-passenger model retains the generous proportions which set its predecessor apart from the usual five-passenger type.

Its riding comfort is even greater, because the cushions are two inches thicker, built of real curled hair and the finest cushion springs, and covered with genuine leather.

The conveniences which mean so much to the comfort of driver and passengers are also improved.

Perfect protection from rain is assured by the new windshield; the one-man top is even easier to operate than before; the side curtains are the same quick-acting storm-proof type.

But you cannot form a real conception of Hupmobile value by reading about it.

An inspection of the car, and a ride in it, will establish the car, in your estimation, for what it actually is—the best value in the market at anywhere near its price.

If you know anything about automobiles, you surely know the esteem in which Hupmobile owners, almost without exception, hold their cars; the complete satisfaction Hupmobile ownership affords them.

This car issues from the same factory—is produced by the same organization—that has made the Hupmobile famous for its sturdiness and economy.

Let us give you your demonstration now. Your order placed at this time will assure delivery of your new car when a car is the source of greatest pleasure.

Country Conveniences

Moving to town to get the benefit of modern home conveniences is no longer necessary. We have our daily delivery of mails, and if we do not have rural telephone service it is our own fault for as long as the price of a telephone is only \$9.00 and telephone wire can be bought for three cents a pound, or less, the cost of installing the telephone is not prohibitive. As a result of the activity of the Farmers' Union of the South and of the Farmers' Grange of the North, we now have a parcel post rate that competes with express rates for shipping our produce in small packages in the near by zones, and also for bringing light packages of merchandise out on the rural routes. Delivery of packages of limited weight by parcel post is perhaps no more expensive than the delivery of small packages by grocer wagons in cities.

"I'd like to have water and lights in my home if I were able to install them," said a well-to-do farmer the other day. If every farmer had these conveniences who is really able to afford them there wouldn't be much to complain about. A carbide (acetylene) light plant can be installed for less than \$150, with friction lighting arrangement. The carbide light is a softer light than the electric and is in every way a practical light for the country home. An air-tight (compressed air) water tank with connections and a small pumping engine can be provided at a cost of \$100 and up, according to capacity of the tank. It is said that an energetic and progressive farmer can get anything he wants, but he must first want it enough to make some effort to get it. With thousands of farmers it isn't a question as to being able to own these modern home conveniences but it is a question as to whether they will do without something else of less service and less value and the only reason they do not own them is because they have not yet realized their value.

Hundreds of farmers in North Carolina own automobiles and their homes are not provided with water, lights fireless cooker kitchen cabinet, etc., all which may be purchased for much less than the purchase price of an automobile. A trip is taken only occasionally in the automobile, while the wife must spend nearly all the time in the home and in the kitchen laboratory. We have only one life to live, and most of that life is spent in the home. Isn't it worth while, then, to take advantage of modern inventive genius and make the home attractive and convenient?

Again, let me emphasize the fact that it is no longer necessary for us to move to town to enjoy all the home conveniences that city people enjoy and we can get them at less cost than the city people get them. The sooner we quit moving to town to educate country children and to get the benefit of modern home conveniences, and determine to establish better schools to the home district, and carry the modern conveniences to the country home, the quicker we will begin to see a transformation in rural life conditions. Entirely too many farmers are hunting excuses to move to town. By the right kind of cooperation rural community life can be made as attractive and as inviting and as profitable as urban life. But we must first get a vision of better things and become cooperative community builders. —Progressive Farmer.
