

BERTIE COUNTY 'SEEN'

RUSS RUSSELL / Bertie Ledger-Advance

Sunflowers are usually tall annual or perennial plants that grow to a height of 300 centimetres (120 in) or more. They bear one or more wide, terminal capitula (flower heads), with bright yellow

low ray florets at the outside and yellow or maroon disc florets inside. During growth, sunflowers tilt during the day to face the sun, but stop once they begin blooming.
