They meet the first and third Saturday nights of each month.

District Meeting at New Savannah Council

On Thursday night, Jan. 21, the Juniors made plans for the new year. Every council of the district was represented, with the exception of two—sad to say one of these was Millshoal Council No. 246.

The reports showed, that an increase in membership had taken place since the last district meeting in October.

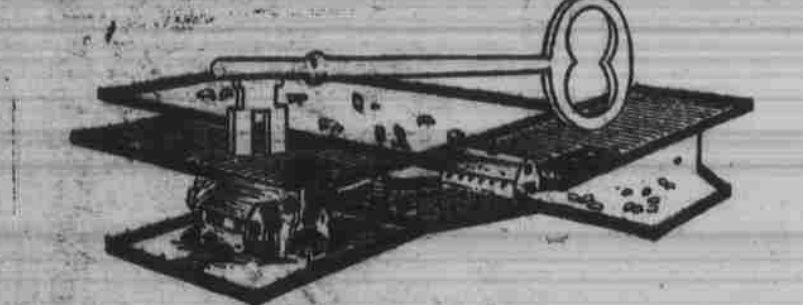

POISON in Your bowels!

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue; foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings overnight will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commend it to everyone. That's why "Dr. Caldwell's Syrup Pepsin" is so popular.

You're paying for fences why not own them

Lock up your Farm, too!

At night when you start to bed, or when you take the folks to town, you lock up the house carefully—but what about the livestock and the valuable growing crops? Are they left "wide open"? Dixisteel Fence is not only the key that locks up your farm—it is the key to bigger farm profits.

Dixisteel Fence is galvanized "just right"—heavy enough to resist rust and smooth enough to prevent cracking or peeling. All wires are full size and made from the right kind of steel. Made to stand Southern sun and rain. Dixisteel has the best hinge joint construction you ever saw. Each joint has four complete wraps. They won't slip. The wavy tension curves in the line wires allow for contraction when it's cold and expansion when it's hot. These tough, springy steel wires also bring the fence back into normal position after pressure is removed. They keep Dixisteel Fences taut, straight and new-looking for years.

Come in and let us fix you up with the Farm, Poultry, and Lawn Fence, Gates and Steel Fence Posts you need.

The slogan selected at the meeting was "A good citizen first and then a good Junior."

The next meeting will be on the third Thursday night in April, with Haysville as the meeting place.

Our district is composed of Jackson, Macon, Swain, Graham, Cherokee and Clay counties, but Macon county has a greater number of Juniors than all the other counties combined.

On Saturday night, January 23, Millshoal Council No. 246 met for its regular fourth Saturday night meeting. A good size crowd was out for the meeting. One good deed of the evening was the reinstating of Brother A. G. Kinsland.

"Open War Is Threatened In Far East" reads a Sunday paper's headline—now if what the Japs and Chinks have been doing for weeks is not open war, I would hate to be in war; it has been a common sport over there to shoot and kill each other.

I notice where Louisiana has two governors—up in North Carolina we wish we didn't have one.

Today we read of the 5-10 Year Plan for the farmer—yesterday we read of the 5 and 10 law for the drinker; it is very peculiar that everything runs to the 5 and 10. Most of the people feel less embarrassment going to the 5 and 10 stores these days.

I notice where Brother Frank I. Murray heads the victory drive—boys, he sure has been a victory driver for several years.

I was reading the Sunday paper and it told of some man in North Carolina who said that these days of depression were not near so oppressive as the days of 1898—maybe he doesn't owe a bank or hasn't any taxes to pay.

Our membership drive is like a stalled locomotive going up hill; very slow at first—but if every member will put a little grit upon the track, we should cross the grade in full speed.

William Jennings Bryan, Jr., is singing the song from coast to coast, which his father William Jennings Bryan, Sr., used to sing, "There is a silver lining." Across the waters, nation after nation have adopted this song as a national air.

Yes "All's Quite On the Western Front," and all's quite on our southern front since they burned the devil down Coweeta's way, back in the fall.

Girls are not making the headway they used to on leap years—maybe they are using their money to buy cigarettes instead of license papers.

In reading an advertisement the other day, I saw where a company was trying to sell the lost books of the Bible; there were some 46 of the lost books—it seems as if lots of the preachers have lost 66 more of the books of the Bible, as they are using politics, whiskey and depression as text material.

If this year's political candidates pay less than they did two years ago for votes; many of our citizens will begin to think there is no Santa Claus.

Woodmen of the World Social
 It was on Monday night, January 18, when the Woodmen had their social, but as they had such a good time it is still the talk among them.

On this night the ladies, children and friends of the Woodmen of the World were invited to attend a social.

Dr. H. T. Horsley opened the services with a Bible reading and prayer. Following came the main speaker of the evening, W. H. Grogan, Jr., district deputy for the W. O. W., his home is at Brevard.

Mr. Grogan made an excellent talk on "What Woodmen Stand For." As the protection of the home is the greatest thing for which the Woodmen stand for, he brought out some vital points upon the subject. "I am not opposed to good roads, fine schools and beautiful churches; but if we have all of these and lose our homes for taxes, where do we profit?" was one of the great thoughts his speech brought out.

In the debate, "Resolved that the United States' interests abroad are detrimental to home affairs," several strong points were brought out on the affirmative side; proving that as a business proposition and as a peaceful affair, the United States, abroad in the Philippines and Haiti, etc., has made a rank failure.

Several of the visitors made interesting talks. This meeting was so much of a success that Wayah Camp No. 889 of the Woodmen of the World has decided to have a social every third Monday night of each month, throughout 1932.

BY REV. NORVIN C. DUNCAN

The Christian ideal of sharing life with others is the road to the enrichment of one's life, and the increase of material prosperity. "He that loseth his life shall save it" is true in the whole life of man, and in the whole range of his relationships. The man who works for himself, selfishly, and without conscious effort to better the life of his fellowman is working against his own best interest. In such an attitude he shuts himself off from the life of his fellows, not only starving his own life, but crippling his ability to help others.

This is a law which operates widely, and should be recognized in our community life in a practical way. The community in which we live is rich in natural resources, and in the quality of its citizenship, yet these natural resources have not contributed so much to the development of the community as they have other parts of the country.

Since coming to this great section I have been told many times that this county has a larger percentage of college graduates than any other county in the state, and yet these same informants add, sadly, "But there is nothing here for our boys and girls to do, and they have to go elsewhere to work."

There is a social and economic loss here which is tragic. The fine stock and native ability of our people is marked. The more of them go away the poorer the community becomes. Those men who by simple obedience to the Christian law of life will venture to invest in the community will find later on a community which repays a high rate of interest on the investment. I say Christian advisedly because it means ventures of faith, and a genuine aim of service, but with the natural resources of the county; its climate, scenery, minerals, timber, productive soil, its fine quality of citizenship drawn into the community life we shall be enabled to build a city, a community which in turn will enrich all of its citizens.
