Opportunity School Offers Courses for men and Women

BEREA, KY., Dec. 13.—In the mountains of the Southern Appalachian Highlands are scores of men and women, 18 years and over, who long for a chance to travel—to travel into the lands of thought and inspiration apart from that of their regular daily routine of life.

Unique "roads" are open in the opportunity school of Berea college that afford such privileges. The ninth annual session of the school, under the direction of Miss Helen H. Dingman, will begin Wednesday, January 3, and will continue until January 29. These 26 days are set aside primarily in the interest of those men and women in the mountains, who, regardless of their previous training, are anxious to become better informed. The course covers a wide variety of subjects, and the total expenses are unusually low.

For the last eight years groups of men and women have come to these special sessions to profit by the discussions in history, literature, science, social problems, Bible, duties of citizenship; to learn more about English and letter writing; to discover things that help to make home more comfortable and attractive. Practical farm problems are discussed; men learn something of the secrets of motor mechanics and woodwork construction. Seated around the fireside, the members of the school join in group singing and group games. There are journeys into far-away lands through pictures and stories by leaders who have first-hand information. A member of one group recently stated: "I have learned things I did not even know were in the world before. I wish all my neighbors could go to the opportunity school. It has even taken the bashfulness off my face."

SUNDAY DINNER SUGGESTIONS

BY ANN PAGE

SIMPLE, substantial foods are in order in early December, foods that leave the housewife time for Christmas preparation, foods that are appropriate for the children, that will help build sturdy bodies, good habits and digestions. Milk, bread and butter, fruits, vegetables, meats, fish and cheese are the foods required and the more simply they are cooked and served the better.

This is the season for citrus fruits. Excellent oranges and grapefruit are arriving from Florida. Florida also is sending us quantities of crisp green beans, Texas spinach is plentiful and of fine quality. Carrots, cauliflower, broccoli and Brussel Sprouts are also attractive in quality and price.

When the children come from school they often need an afternoon snack. Give them an apple or bread and syrup or some cookies. You will find that a cup of tea for yourself at the same time will prove restful and stimulating. The Quaker Maid offers the following menus:

- Low Cost Dinner**
Smoked Shoulder of Pork
Creamed Spinach
Fried Cornmeal Mush with Syrup
Bread and Butter
Apple Salad
Tea or Coffee Milk
- Medium Cost Dinner**
Roast Loin of Pork
Scalloped Potatoes
Green Beans Apple Sauce
Bread and Butter
Cheese Crackers Preserves
Coffee Milk
- Very Special Dinner**
Cheese Stuffed Celery
Roast Lamb Pan-Browned Potatoes
Green Peas
Asparagus Tip Salad
Salad Dressing
Rolls and Butter
Jellied Fruits
Coffee Milk

Gaston county sweet potato growers now have 62 storage houses, with a capacity of 80,000 bushels.

88,000,000 Young Trees Distributed by States

State forestry departments distributed 88,463,883 young trees for planting in 1932, according to reports from the States to the Forest Service, United States Department of Agriculture. Of the total 23,496,764 trees were for planting farm lands, 44,016,291 for State lands, and 20,950,828 for private lands other than farms. All these trees were grown in State nurseries and no privately grown trees are included in the reports.

Distribution of trees by the States in the past year was exceeded by that of 1931, when more than 100,000,000 trees were sent out, but showed a gain over 1930, when the total was 79,319,000. New York led, with 40,991,100 trees distributed for all classes of lands. Michigan sent out 8,684,471; Pennsylvania, 8,175,299; Wisconsin over 6,000,000; Ohio, Massachusetts, and Indiana, over 2,000,000 each.

In providing trees for farm planting, New York, with 4,021,100, yielded first place to Pennsylvania, which State sent out 5,150,268 forest trees. The Federal Government, under the Clarke-McNary forest law, cooperates with the States in the production of trees for farm forest and woodland planting. The trees are distributed through the State forest agencies directly to the farmers, usually at cost. The Federal Forest Service does not distribute planting stock for State or private lands.

Tilt Eggs In Incubator; Hatch More Live Chicks

About half of the losses from fertile eggs that fail to hatch during incubation are due to abnormal positions of the chicks in the shell and are to some extent preventable, according to Dr. T. C. Byerly, of the Bureau of Animal Industry, United States Department of Agriculture. The normal position of the chick before hatching is with the head near the air sac at the large end of the egg. The chick breathes the air in the sac before it pips the shell, but in case of an abnormal position the chick may die from suffocation.

The principal cause of abnormal positions of chicks in the shell is believed to be improper tilting of the eggs in the tray from the fifth to the fifteenth days of incubation. Eggs incubated with the small end up show the highest percentage of abnormal positions of chicks, and

the Department therefore recommends that eggs should never be allowed to stand in this position. Eggs in many commercial incubators are tilted at a 45 degree angle, with the large end up, which is believed to give fewer abnormal positions among the chicks than incubating them horizontally.

Returning home unexpectedly, Miss Retha Jones, 35, of Ayden, was mistaken for a burglar by her father who heard her on the porch. Tobe Jones, the father, fired a shotgun charge through the door. The charge tore away the eyes, the bridge of the nose and a part of the skull. Little chance for recovery was expected.

Santa is Here

Come See Him!

Sanders' Store

All Day

Saturday, December 16

Old Santa Claus himself, as jolly as ever, will pay a visit to Franklin Saturday and while here he will make his headquarters at SANDERS' STORE. He has asked us to tell all the little boys and girls in Macon County to come in to see him and tell him what they want him to bring them Christmas.

King Kris is having a busy time this year and can spend only one day in Franklin before going back to the North Pole to load up with Christmas toys and goodies. So don't miss this opportunity to see him.

Santa has brought a lot of samples with him. You can look these over and tell him exactly what you want. Now, don't forget—he'll be here only one day—Saturday, December 16.
